## OVERTURE REJECTED

### Street Car Men Refuse Company's Proposition. Chicagoans May Have to Walk In Near Future.

Chicago, Aug. 26.—Grave possibilities of a strike that may tie up all the street railroad lines of the west and north sides of this city confront the officials of the Union Traction company. Today, by an overwhelming vote, the local union of the Amalgamated Association of Street Car Employees refused to accept the proposition made by President Roach several days ago. The overture of the company, which included an increase of one cent an hour in wages, the dissolution of a rival employees association, and the employment of none but union men, was rebuffed on by nearly 3,000 men yesterday. The votes were counted this morning and although no public

statement of the vote was made it was understood that the radical men carried the referendum against the proposition. An agreement between the union and the railroad exists whereby disagreements shall be settled by arbitration. William Mahon, international president of the street car men, tried to exert his influence to avert any strike action, and to urge that the union live up to its laws. A rupture, however, occurred between the local officials and President Mahon, and he left their meeting with a statement that if the men struck without trying arbitration, the general union would not support them in the issue.

## AS GOOD AS ELECTED

Democrats Who Receive the Nominations at the South Carolina Primaries Will Be Sure to Win at Regular Election.

Columbia, S. C., Aug. 26.—Democratic primaries are being held throughout this state today for nomination of governor and state house officials. State legislators and congressional representatives are to be named and a successor to United States Senator McLaughlin will be named. Under the constitution the successful candidate for every office must receive a majority of all votes cast. In case no majority is received by any candidate a second primary will be held, in which the two candidates obtaining the greatest number of votes in the first primary will be entered. The result of these primaries is equivalent to an election in this state. Owing to the number of

candidates contesting for the different offices there seems to be little prospect for settling the rival claims in today's primary. The following candidates are entered for the gubernatorial nomination: John H. Tillman, present lieutenant governor, nephew of B. J. Tillman; W. J. Tolbert, who resigned from congress to enter the race; W. H. Timmerman, M. F. Ansel and D. C. Heyward. It is possible that two of these candidates may reach the second primaries, as it is conceded that Heyward and Tillman are the favorites today's highest votes, although it is impossible to forecast the results. Six candidates are entered for the United States senatorship nomination, including former Governor John Gary Evans.

## MAY GET OFF WITH FINE

Charge of Perjury Against Kalamazoo Men Has Been Withdrawn and That of Conspiracy Has Been Substituted.

Lansing, Mich., Aug. 26.—A decided change was made today in the cases of Messrs. Hunter, Bickelstaff, Kauffer and Woodworth of the Henderson Ames company of Kalamazoo, who were charged with perjury in their testimony before the grand jury in the state military clothing fraud cases. The charge of perjury was withdrawn and one of conspiracy to defraud the state substituted. The latter is the

same charge that Col. Eli R. Sutton, now a fugitive from justice, was tried on. The Kalamazoo men appeared in Justice Pinckney's court today and waived examination of the conspiracy charge. This afternoon it is understood they will plead guilty. It is also understood that in view of their service as witnesses for the prosecution in the other cases growing out of the frauds and the fact that they have paid back to the state all the money involved the prosecution believes that they should be fined only.

## NEW REVENUE CUTTER

The Tuscarora, Destined For Service on the Great Lakes, to Be Given Sea Trial Off Newport News.

Washington, Aug. 26.—Special to The Herald.—The new revenue cutter Tuscarora, which was built at Richmond, Va., at a cost of \$175,000, and is destined for service on the great lakes, with headquarters at Milwaukee, will be given her sea trial off Newport News tomorrow. The contract calls for an average speed of fourteen knots, to be maintained for eight hours. The new

cutter is of 700 tons displacement, 175 feet over all in length, 30 feet beam, and has a mean draft of 9 feet. She will, upon her arrival at Milwaukee, receive a battery of rapid fire guns of the most modern type. After her speed trial she will go to Cutter's bay, near Baltimore, and there also receive her complement of officers and men. It is expected that the Tuscarora will reach Milwaukee about Oct. 1. Her commanding officer has not yet been selected.

## TROUBLE IS PREVENTED

Troops Sent to Panther Creek District Prevent What Might Have Been a Serious Outbreak Among the Striking Miners.

Summit Hill, Pa., Aug. 26.—Excitement prevails throughout the Panther Creek district today. At daybreak the strikers assembled to prevent non-union men from going to work. Antagonizing trouble, and Gearhart sent two companies of soldiers in tractors to the camp in Manlin park to this place and their presence prevented a possible outbreak. Several non-unionists had been attacked and the town was in a turmoil. The soldiers escorted the workmen through the mob that had collected and placed them in safety on the cars, which carried

them to their work. Hazleton Pa., Aug. 26.—Suspecting that another attempt would be made to resume operations at No. 40 colliery of the Lehigh Valley Coal company, many strikers' pickets were stationed along all the approaches to the mine. Most of the non-unionists who attempted to reach the colliery were turned back, but no serious trouble occurred. The strikers who are alleged to have participated in yesterday's riot at No. 40 colliery, are under arrest. Other arrests are expected.

## EN ROUTE TO MAINE

President Leaves Boston For the Pine Tree State.

Holds a Reception on the Common at Lowell.

Immense Crowds Gather at Stations as Train Passes.

Boston, Aug. 26.—After a night of refreshing sleep at a hotel in this city, President Roosevelt left at 8:35 o'clock over the Boston & Maine road to continue his tour of New England. His first stop will be at Lowell, Mass. He will traverse New Hampshire today, speaking at Dover, and going to Maine as far as Augusta, where he will be the guest of Governor Hill tonight.

Lowell, Mass., Aug. 26.—For twenty-five minutes today this city entertained the president of the United States and then watched him depart for New Hampshire and Maine, giving him a hearty cheer as the train pulled out. The president left Boston at 8:35 o'clock. On the run to this place the towns of West Medford, Winchester and North Billerica turned out immense crowds and gave a rousing cheer as the train passed by. At each place the president appeared on the platform and acknowledged the greetings. The special train arrived here at 9:15 a. m. and its arrival was signalled by the firing of a presidential salute by the local militia, and the G. A. R. performed guard duty. The sidewalks about the station were thronged with people and the common, which was the scene of the real reception, was black with humanity. Acting Mayor Bagge and a committee of the city government met the president and party at the station and were presented by Charles M. Allen, former governor of Porto Rico. After a few words of welcome the party took carriages and drove rapidly to the Common through streets arched with bunting and lined with cheering people. Arriving at the speakers' stand, the president was presented to the people in a brief sentence by the acting mayor.

## BRITISH IRON.

An Increased Demand From Leading American Cities.

New York, Aug. 26.—Increased demand for British iron from Chicago, New York and Philadelphia has sent up prices here says a London dispatch to The Tribune. A report that orders have been received for 30,000 tons has not been confirmed with authority, but the American demand for manufactured iron and steel has succumbed to a declining trade from India and Australia and the stagnant condition of South American markets. American steel combination was formed, there was a general conviction among British iron masters that there must be a defensive combination to meet the situation here and in Germany and Belgium. Exports of iron and steel from Britain have been increasing steadily since December, and the effect of the American combination is not deemed as was last year. The British market has not been depressed by a dumping ground for American iron and steel and prices have risen with the increased demand for export to the United States.

## AGAIN CIRCULATED.

Rumor That British Soldiers Want to Enlist.

New York, Aug. 26.—A rumor, repeatedly denied heretofore, has been again circulated to the effect that the American government is anxious to secure British soldiers who fought in South Africa for service in the Philippines, cables the London correspondent of The Tribune. These rumors appear to have had their only foundation in the fact that, about a fortnight ago, a British officer who held a subordinate yeomanry command in South Africa called at the embassy and volunteered the services of himself and about 200 other veterans of the Boer war. The officer's identity has not been disclosed.

## JUMPED OVERBOARD.

Michigan Man Ended His Life in the Pacific.

Honolulu, Aug. 15, via San Francisco, Aug. 26.—A. G. Mitchell, reputed to be a millionaire from Michigan, a passenger on the steamer Coptic, committed suicide Aug. 12, when the vessel was three days out from San Francisco. Mitchell, who was accompanied by Dr. C. E. Miller and a nurse, was reported to be on a trip around the world for his health. On the morning of his death he was talking to two women on the promenade deck. Suddenly he ran to the side of the vessel and sprang overboard. The steamer was stopped and a boat lowered, but there was no trace of Mitchell. It was believed by the steamship people that he was swept under the propeller. His court circular was, however, unaltered by illness.

Mr. Mitchell was the head of the lumber company, Lamson & Co., of Cadillac, Mich. He had been in San Diego, Calif., for the past year. He leaves a son and daughter. THE QUEEN'S EXPECTATION. Home, Aug. 26.—The court circular today announces that Queen Helena expects her accouchement in December.

RUSSELL SAGE, THE "OLD MAN WONDERFUL" OF AMERICAN FINANCE.

Russell Sage, the "Old Man Wonderful" of American finance, who, at the age of eighty-six, is daily involved in important monetary transactions and is considered one of the shrewdest and most accurate operators Wall street has ever known, has brought about a storm of criticism on the one hand and a chorus of commendation on the other by his recent statement that the Morgan method of organizing vast combinations is likely to be followed by disaster. The illustration is from Mr. Sage's latest photograph by Hockwood, New York.

## CAPTAIN DISAPPEARED

Commander of Steamship Missed From His Vessel While at Sea and Is Supposed to Have Fallen Overboard.

New York, Aug. 26.—Captain C. W. Phillips, aged 62 years, of Brooklyn, commanding the Panama Railroad company's steamship Advance, disappeared at sea on August 21, during the voyage of that vessel from Colon to this port. He had been ill for a long time, but recovered his health and returned to duty this trip. It was thought on board that while leaning over the

rail he was attacked by vertigo and fell into the sea. On the outward voyage on August 10, Harry Briscoe, aged 40 years, chief cook, a native of Scotland, disappeared. He is supposed to have jumped overboard. Among the passengers who arrived on the Advance was H. A. Gudgey, United States consul at Panama.

## PERILS OF THE OCEAN

Members of Crew of Fishing Schooner Are Lost For Days In a Dense Fog and Some Are Never Found.

San Francisco, Aug. 26.—The fishing schooner Stanley, which has returned from fishing in the Pacific, reports that on May 18 Second Mate Manuel Cadaza was lost during a storm in Bristol bay. His dory, waterlogged and empty, was picked up several days later. On June 18 four dories were hidden from sight by a dense fog. One of them, that of Marlin S. Coffin, is supposed to have been lost.

posed to have been lost. Another of the missing dories, containing John Quist, was picked up by the Stanley after an absence of four days and three nights. Quist was feeble from hunger and cold. The other boats contained Hans Larsen and Olaf Olsen of this city, who had shipped for the voyage out of curiosity to see the Arctic. They were lost in the fog for ten days and nights. After being tossed about for four days they made land and lived on raw fish until picked up by the Stanley.

## NO PENSIONS FOR ROGUES

New York, Aug. 26.—James R. Branch, secretary of the American Bankers' association, gave the following statement today to The Associated Press: "The report which has appeared in a good many papers to the effect that S. Chas. Becker, who is serving a sentence for forgery, will be paid a salary or pension by the American Bankers' association to stop his career

in crime is absolutely untrue. He is now at San Quentin penitentiary, California. Through the efforts of the association he was tried and convicted some years ago for a depredation on a member of our organization. It is well known that we spare no expense to prosecute a professional criminal who operates on our members. The association never has and never will pay one dollar, however, to any person through fear of their future crimes."

## WIFE SCORES IN THIS SUIT

New York, Aug. 26.—Justice Spring, of the New York supreme court, sitting in the appellate division, has handed down a decision in which he holds that gross extravagance and forgery committed by a wife to raise money do not in this state constitute a cause for action for a limited divorce, and

he, therefore, refuses to reverse the action of the lower court, which dismissed the complaint in a suit brought on the grounds mentioned. In discussing the case Justice Spring is quoted as having said: "Husband takes a wife for better or worse, and because she does not confine her expenditures to his notions of economy is not a ground for casting her from him."

## HOW LAND GOT LAM'S MONEY

Duluth, Idaho, Aug. 26.—Chief of Police Francis has returned from Long Valley with a prisoner, named William M. Land, charged with forgery. It is alleged he secured \$1,000 on a draft that did not belong to him. The case is rather remarkable. The draft was sent from Harlinsburg, Pa., by J. E. Lam, to his father, W. E. Lam. It arrived

here on June 25, and the letter was handed out at the post office to Land, changed the name Lam to Land, got F. Cobb, a merchant, to endorse it for him, and walked off with the money. The crime was not discovered until a week ago, when the draft was returned to the First National bank here and the amount collected from Cobb.

## N. P. TRAIN HELD UP

Explosives Failed and No Booty Was Obtained. Passengers Kept In Cars and Not Molested.

Spokane, Aug. 26.—The west-bound Northern Pacific train was held up at Sand Point, Idaho, sixty-five miles east of here, at 11 o'clock last night. The robbers, of whom there were seven, forced the engineer to stop the train, after which they uncoupled the baggage car. Then they compelled the engineer at the point of a revolver to pull up the track about three miles further, where they tried to wreck the baggage car with dynamite. The explosives failed to work for some unknown cause, and after spending fifteen minutes with the car the robbers decamped, allowing the engineer to go back to the train with his engine. Two other thugs had guarded the train, keeping the passengers inside by firing revolvers along the sides. No attempt was made to molest the passengers and after the engine came back the other robbers left and the train came on to Spokane. The train was heavily loaded.

special to the Dispatch says: The west-bound Northern Pacific passenger train No. 2 was held up by robbers near Athol, Idaho, at midnight. The plan adopted by the men was to board the train at Sand Point, and when four or five miles out, to go through the express car. None of the passengers were interfered with. The men, after going through the express car and getting all they wanted, detached the engine and, mounting it, ran out four miles and left it. As the train came to a stop near Sand Point the passengers suspected that all was not right, and commenced to look out and to climb out. The robbers were ready for them, however, and fired several shots down the line. No one is reported injured. The men were all masked, and, after jumping off, ordered the engineer back to the train. The train passed Athol, a small station west of Sand Point, at a high rate of speed. It was near this point over a year ago that a hold-up occurred, and several passengers were robbed.

## A COLLISION AT ANOKA

Northern Pacific Passenger Train Collided With Rear End of Freight, Killing Fireman and Breaking Engineer's Leg.

St. Paul, Aug. 26.—(Special to The Herald.)—Northern Pacific passenger train No. 7 crashed into the rear end of a freight train in the yards at Anoka, killing the fireman, Harry Hutchins, and delaying traffic. In clearing away the wreckage David H. Wilson, engineer of No. 7, was caught between two timbers and fractured his leg.

The passenger train was pulling into the yards, where several uncoupled freight cars had stopped on the main line. When was seen that a serious collision could not be averted Hutchins leaped from the cab. In doing so his foot slipped and he fell head foremost to the ground, striking the rail with his head and breaking his neck.

## IS UNCONSTITUTIONAL

Judge Sanborn of the United States Court of Appeals So Decides In Relation to the Colorado Statute of Limitations.

St. Paul, Aug. 26.—(Special to The Herald.)—Judge Sanborn, of the United States court of appeals, in deciding the case of Aaron Keyser vs. John W. Lowell, brought on an appeal from the circuit court of the United States for the district of Colorado, held that the Colorado statute of limitation is void and in violation of the constitution of the United States.

The case dates back to 1885, when the plaintiff recovered judgment against the defendant in the United States court. In 1901 action upon the judgment given in 1885 was begun and judgment rendered in favor of the plaintiff for \$9,652.61. When the judgment was obtained the cause of action was barred by the Colorado statute of limitations. Judge Sanborn's decision was very lengthy and reverses the decision of the lower court.

## DRUNKEN TARS TEAR THINGS

New York, Aug. 26.—Several sailors who are said to have been indulging too freely in stimulants, have caused a fight on George W. C. Drexels yacht, the Alcedo, from Philadelphia, which amounted almost to mutiny, says a Halifax dispatch to The Herald. Several members of the crew became intoxicated and began smashing things on board. The captain called in a policeman, but he was powerless. Reinforcements were called, and

when they arrived the sailor who was the principal cause of the trouble retreated down a hatchway. The policemen closed with him, and after putting iron on him brought him to the deck. Then they started to handcuff another sailor. Meanwhile, the prisoner snapped the handcuffs, apparently as easily as if they were made of twine. The two prisoners finally were taken to the station. During the scuffle the policemen had their helmets broken and got many cuts. The prisoners were taken off by the captain, and they will be arraigned in court.

## J. J. HILL IS ENTHUSIASTIC

New York, Aug. 26.—Fresh from a tour of the railroads in which he is interested, James J. Hill, president of the Northern Securities company, has returned to this city enthusiastic over the agricultural prospects. Mr. Hill visited the office of J. Pierpont Morgan, with whom he was in consultation for some time. During this consultation the position of the Northern Securities company is reported to have been discussed, and the status of the suits that are pending was gone over. In addition to this there were other matters discussed, about which neither Mr. Morgan nor Mr. Hill would talk. It was only incidentally that the coal strike situation was alluded to.

## ANOTHER STRIKE IN CHICAGO

Chicago, Aug. 26.—A dispute between the unions of carpenters and the electrical workers over the setting of certain moldings in the new Marshall Field building, has resulted in the board of business agents ordering a strike of all workmen on the building and

all but the carpenters walked out. About 250 men are involved. This is the first sympathetic strike in the building trades since the days of the Building Trades Council, Charles Rau, president of the board of business agents, claims that the contractors have violated the terms of their agreements.

## REV. SAM SMALL WAS DRUNK

Brattleboro, Vt., Aug. 16.—The collapse of Rev. Sam Small, the well known temperance lecturer, who was to speak for the no-license-local option

party here last night, by Rev. Small's own admission today, was due to intoxication. Mr. Small says: "I was drunk. I have no excuse to offer."

## OVERTURE REJECTED

### Street Car Men Refuse Company's Proposition.

### Chicagoans May Have to Walk In Near Future.

Chicago, Aug. 26.—Grave possibilities of a strike that may tie up all the street railroad lines of the west and north sides of this city, confront the officials of the Union Traction company. Today, by an overwhelming vote, the local union of the Amalgamated Association of Street Car employees refused to accept the proposition made by President Beach several days ago. The overture of the company, which included an increase of one cent an hour in wages, the dissolution of a rival employees association, and the employment of none but union men, was defeated on by nearly 2,000 men yesterday. The votes were counted this morning and although no public

statement of the vote was made it was understood that the radical men carried the referendum against the company by nearly ten to one. An agreement between the union and the railroad exists whereby disagreements shall be settled by arbitration. William Mahon, international president of the street car men, tried to exert his influence to avert any strike action and to urge that the union live up to its laws. A rupture, however, occurred between the local officials and President Mahon, and he left their meeting with a statement that if the men struck without trying arbitration, the general union would not support them in the issue.

## AS GOOD AS ELECTED

### Democrats Who Receive the Nominations at the South Carolina Primaries Will Be Sure to Win at Regular Election.

Columbia, S. C., Aug. 26.—Democratic primaries are being held throughout this state today for nomination of governor and state house officials. State legislators and congressional representatives are to be named and a successor to United States Senator McLaughlin will be named. Under the constitution the successful candidate for every office must receive a majority of all votes cast. In case no majority is received by any candidate a second primary will be held, in which the two candidates obtaining the greatest number of votes in the first primary will be entered. The result of these primaries is equivalent to an election in this state. Owing to the number of

candidates contesting for the different offices there seems to be little prospect for settling the rival claims in today's primary. The following candidates are entered for the gubernatorial nomination: John H. Tillman, present lieutenant governor, nephew of B. J. Tillman; W. J. Tolbert, who resigned from congress to enter the race; W. H. Timmerman, M. F. Ansel and D. C. Heyward. It is possible that two of these contestants may reach the second primaries, as it is conceded that Heyward and Tillman are the favorites. Six candidates are entered for the United States senatorship nomination, including former Governor John Gary

## MAY GET OFF WITH FINE

### Charge of Perjury Against Kalamazoo Men Has Been Withdrawn and That of Conspiracy Has Been Substituted.

Lansing, Mich., Aug. 26.—A decided change was made today in the cases of Messrs. Hunter, Bickelstaff, Kauffer and Woodworth of the Henderson-Ames company of Kalamazoo, who were charged with perjury in their testimony before the grand jury in the state military clothing fraud cases. The charge of perjury was withdrawn and one of conspiracy to defraud the state substituted. The latter is the

same charge that Col. Eli R. Sutton, now a fugitive from justice, was tried on. The Kalamazoo men appeared in Justice Pinckney's court today and waived examination on the conspiracy charge. This afternoon it is understood they will plead guilty. It is also understood that in view of their service as witnesses for the prosecution in the state military clothing fraud cases and the fact that they have paid back to the state all the money involved in the prosecution believes that they should be fined only.

## NEW REVENUE CUTTER

### The Tuscarora, Destined For Service on the Great Lakes, to Be Given Sea Trial Off Newport News.

Washington, Aug. 26.—Special to The Herald.—The new revenue cutter Tuscarora, which was built at Richmond, Va., at a cost of \$170,000, and is destined for service on the great lakes, with headquarters at Milwaukee, will be given her sea trial off Newport News tomorrow. The contract calls for an average speed of fourteen knots, to be maintained for eight hours. The new

cutter is of 700 tons displacement, 178 feet over all in length, 30 feet beam, and has a mean draft of 9 feet. She will, upon her arrival at Milwaukee, receive a battery of rapid fire guns of the most modern type. After her sea trial she will go to Cutter's bay, near Baltimore, and there also receive her complement of officers and men. It is expected that the Tuscarora will reach Milwaukee about Oct. 1. Her commanding officer has not yet been selected.

## TROUBLE IS PREVENTED

### Troops Sent to Panther Creek District Prevent What Might Have Been a Serious Outbreak Among the Striking Miners.

Summit Hill, Pa., Aug. 26.—Excitement prevails throughout the Panther Creek district today. At daybreak the strikers assembled to prevent non-union men from going to work. Antagonistic trouble, and Gearhart sent two companies of soldiers in to quell the disturbance. The strikers gathered in a large number in the park in this place and their presence prevented a possible outbreak. Several non-unionists had been attacked and the two strikers who are alleged to have shot the non-unionists were taken to the hospital. The soldiers escorted the workers through the mob that had collected and placed them in safety on the cars, which carried

them to their work. Hagerstown, Pa., Aug. 26.—Suspecting that another attempt would be made to resume operations at No. 40 colliery of the Lehigh Valley Coal company today, many strikers' pickets were stationed along all the approaches to the mine. Most of the non-unionists who attempted to reach the colliery were turned back, but no serious trouble occurred. The strikers who participated in yesterday's riot at No. 40 colliery, are under arrest. Other arrests are expected.

## EN ROUTE TO MAINE

### President Leaves Boston For the Pine Tree State.

### Holds a Reception on the Common at Lowell.

### Immense Crowds Gather at Stations as Train Passes.

Boston, Aug. 26.—After a night of refreshing sleep at a hotel in this city, President Roosevelt left at 8:35 o'clock over the Boston & Maine road to continue his tour of New England. His first stop will be at Lowell, Mass. He will traverse New Hampshire today, speaking at Dover, and going to Maine as far as Augusta, where he will be the guest of Governor Hill tonight.

Lowell, Mass., Aug. 26.—For twenty-five minutes today this city entertained the president of the United States and then watched him depart for New Hampshire and Maine, giving him a hearty cheer as the train pulled out. The president left Boston at 8:35 o'clock. On the run to this place the towns of West Medford, Winchester and North Billerica turned out immense crowds and gave a rousing cheer as the train passed by. At each place the president appeared on the platform and acknowledged the greetings. The special train arrived here at 9:15 a. m. and its arrival was saluted by the firing of a presidential salute by the local militia, and the G. A. R. performed guard duty. The sidewalks about the station were thronged with people and the common, which was the scene of the real reception, was black with humanity. Acting Mayor Bagley and a committee of the city government met the president and party at the station and were presented by Charles M. Allen, former governor of Porto Rico. After a few words of welcome the party took carriages and drove rapidly to the common through streets arched with bunting and lined with cheering people. Arriving at the speakers' stand, the president was presented to the people in a brief sentence by the acting mayor.

## BRITISH IRON.

### An Increased Demand From Leading Amer- ican Cities.

New York, Aug. 26.—Increased demand for British iron from Chicago, New York and Philadelphia has sent up prices here says a London dispatch to The Times. A report that orders have been received for 80,000 tons has not been confirmed with authority. American demand for manufactured iron and steel has succumbed to a declining trade from India and Australia and the stagnant condition of South Africa. American steel combination was formed, there was a general conviction among British ironmasters that there must be a defensive movement against the dumping of iron from the United States. Exports from the United States have been increasing steadily since December. The British market has not been converted into a dumping ground for American iron and steel, and prices have risen with the increased demand for export to the United States.

### AGAIN CIRCULATED. Rumor That British Soldiers Want to Enlist.

New York, Aug. 26.—A rumor, repeatedly denied heretofore, has been again circulated to the effect that the American government is anxious to secure British soldiers who fought in South Africa for service in the Philippines, cables the London correspondent of the Tribune. These rumors appear to have had their only foundation in the fact that, about a fortnight ago, a British officer who held a subordinate yeomanry command in South Africa called at the embassy and volunteered the services of himself and about 200 other veterans of the Boer war. The officer's identity has not been disclosed.

### JUMPED OVERBOARD. Michigan Man Ended His Life In the Pacific.

Honolulu, Aug. 16, via San Francisco, Aug. 26.—A. C. Mitchell, reputed to be a millionaire from Michigan, a passenger on the steamer Coptic, committed suicide Aug. 12, when the vessel was three days out from San Francisco. Mitchell, who was accompanied by Dr. C. E. Miller and a nurse, was reported to be on a trip around the world for his health. On the morning of his death he was talking to two women on the promenade deck. Suddenly he ran to the side of the vessel and sprang overboard. The steamer was stopped and a boat lowered, but there was no trace of Mitchell. It was believed by the steamship people that he was upset under the propeller. His mind, it is thought, was unbalanced by illness.

Mr. Mitchell was the head of the Michigan Lumber company of Cadillac, Mich. He had been in San Diego, Calif., for the past year. He leaves a son and daughter. THE QUEEN'S EXPECTATION. Rome, Aug. 26.—The court circular today announces that Queen Helena expects her accouchement in December.

RUSSELL SAGE, THE "OLD MAN WONDERFUL" OF AMERICAN FINANCE.

Russell Sage, the "Old Man Wonderful" of American finance, who, at the age of eighty-six, is daily involved in important monetary transactions and is considered one of the shrewdest and most accurate operators Wall street has ever known, has brought about a storm of criticism on the one hand and a chorus of commendation on the other by his recent statement that the Morgan method of organizing vast combinations is likely to be followed by disaster. The illustration is from Mr. Sage's latest photograph by Rockwood, New York.

## CAPTAIN DISAPPEARED

### Commander of Steamship Missed From His Vessel While at Sea and Is Supposed to Have Fallen Overboard.

New York, Aug. 26.—Captain C. W. Phillips, aged 62 years, of Brooklyn, commanding the Panama Railroad company's steamship Advance, disappeared at sea on August 21, during the voyage of that vessel from Colon to this port. He had been ill for a long time, but recovered his health and returned to duty this trip. It was thought on board that while leaning over the

rail he was attacked by vertigo and fell into the sea. On the outward voyage on August 10, Harry Briscoe, aged 40 years, chief cook, a native of Scotland, disappeared. He is supposed to have jumped overboard. Among the passengers who arrived on the Advance was H. A. Gudgey, United States consul at Panama.

## PERILS OF THE OCEAN

### Members of Crew of Fishing Schooner Are Lost For Days In a Dense Fog and Some Are Never Found.

San Francisco, Aug. 26.—The fishing schooner Stanley, which has returned from Behring sea, reports that on May 18 Second Mate Manuel Cadoza was lost during a storm in Bristol bay. His dory, waterlogged and empty, was picked up several days later. On June 18 four dories were hidden from sight by a dense fog. One of them, that of Marling's, Coffin, is sup-

posed to have been lost. Another of the missing dories, containing John Quist, was picked up by the Stanley after an absence of four days and three nights. Quist was feeble from hunger and exposure. The other boats contained Hans Larsen and Olaf Olsen of this city, who had shipped for the voyage out of curiosity to see the Arctic. They were lost in the fog for ten days and nights. After being tossed about for four days they made land and lived on raw fish until picked up by the Stanley.

## NO PENSIONS FOR ROGUES

New York, Aug. 26.—James R. Branch, secretary of the American Bankers' association, gave the following statement today to the Associated Press: "The report which has appeared in a good many papers to the effect that S. Chas. Becker, who is serving a sentence for forgery, will be paid a salary or pension by the American Bankers' association to stop his career

in crime is absolutely untrue. He is now at San Quentin penitentiary, California. Through the efforts of the association he was tried and convicted some years ago for a deception on a member of our organization. It is well known that we spare no expense to incarcerate a professional criminal who operates on our members. The association never has and never will pay one dollar, however, to this class of people through fear of their future crimes."

## WIFE SCORES IN THIS SUIT

New York, Aug. 26.—Justice Spring, of the New York supreme court, sitting in the appellate division, has handed down a decision in which he holds that gross extravagance and forgery committed by a wife to raise money do not in this state constitute a cause for action for a limited divorce, and

he, therefore, refuses to reverse the action of the lower court, which dismissed the complaint in a suit brought on the grounds mentioned. In discussing the case Justice Spring is quoted as having said: "Husband takes a wife for better or worse, and because she does not confine her expenditures to his notions of economy is not a ground for casting her from him."

## HOW LAND GOT LAM'S MONEY

Boise, Idaho, Aug. 26.—Chief of Police Francis has returned from Long Valley with a prisoner, named William M. Land, charged with forgery. It is alleged he secured \$100,000 on a draft that did not belong to him. The case is rather remarkable. The draft was sent from Harrisburg, Pa., by J. E. Lam, to his father, W. H. Lam. It arrived

here on June 25, and the letter was handed out at the post office to Land by his father. The latter, it is charged, changed the name Lam to Land, got F. Cobb, a merchant, to endorse it for him, and walked off with the money. The crime was not discovered until a week ago, when the draft was returned to the First National bank here and the amount collected from Cobb.

## N. P. TRAIN HELLED UP

### Explosives Failed and No Booty Was Obtained.

### Passengers Kept In Cars and Not Molested.

Spokane, Aug. 26.—The west-bound Northern Pacific passenger train No. 3 was held up at Sand Point, Idaho, sixty-five miles east of here, at 11 o'clock last night. The robbers, of whom there were seven, forced the engineer to stop the train, after which they uncoupled the baggage car. Then they compelled the engineer at the point of a revolver to pull up the track about three miles further, where they tried to wreck the baggage car with dynamite. The explosives failed to work for some unknown cause, and after spending fifteen minutes with the car the robbers decamped, allowing the engineer to go back to the train with his engine. Two other thugs had guarded the train, keeping the passengers inside by firing revolvers along the sides. No attempt was made to molest the passengers and after the engine came back the other robbers left and the train came on to Spokane. The train was heavily loaded.

special to the Dispatch says: The west-bound Northern Pacific passenger train No. 3 was held up by robbers near Athol, Idaho, at midnight. The plan adopted by the men was to board the train at Sand Point, and, when four or five miles out, to go through the express car. None of the passengers were interfered with. The men, after going through the express car and getting all they wanted, detached the engine and, mounting it, ran out four miles and left it. As the train came to a stop near Sand Point the passengers suspected that all was not right, and commenced to look out and to climb out. The robbers were ready for them, however, and fired several shots down the line. No one is reported injured. The men were all masked, and, after jumping off, ordered the engineer back to the train. The train passed Athol, a small station west of Sand Point, at a high rate of speed. It was near this point over a year ago that a hold-up occurred, and several passengers were robbed.

St. Paul, Aug. 26.—A Missoula, Mont.,

## A COLLISION AT ANOKA

### Northern Pacific Passenger Train Collided With Rear End of Freight, Killing Fireman and Breaking Engineer's Leg.

St. Paul, Aug. 26.—(Special to The Herald.)—Northern Pacific passenger train No. 7 crashed into the rear end of a freight train in the yards at Anoka, killing the fireman, Harry Hutchins, and delaying traffic. In clearing away the wreckage David H. Wilson, engineer of No. 7, was caught between two timbers and fractured his leg.

The passenger train was pulling into the yards, where a section uncoupled freight car had stopped on the main line. When it was seen that a serious collision could not be averted Hutchins leaped from the cab. In doing so his foot slipped and he fell head forward into the ground, striking the rail with his head and breaking his neck.

## IS UNCONSTITUTIONAL

### Judge Sanborn of the United States Court of Appeals So Decides In Relation to the Col- orado Statute of Limitations.

St. Paul, Aug. 26.—(Special to The Herald.)—Judge Sanborn, of the United States court of appeals, in deciding the case of Aaron Keyser vs. John W. Lowell, brought on an appeal from the circuit court of the United States for the district of Colorado, held that the Colorado statute of limitations is void in violation of the constitution of the United States.

The case dates back to 1885, when the plaintiff recovered judgment against the defendant in the Utah courts. In 1901 action upon the judgment given in 1885 was begun and judgment rendered in favor of the plaintiff for \$9,052.61. When the judgment was obtained the cause of action was barred by the Colorado statute of limitations. Judge Sanborn's decision was very lengthy and reverses the decision of the lower court.

## DRUNKEN TARS TEAR THINGS

New York, Aug. 26.—Several sailors who are said to have been indulging too freely in stimulants, have caused a fight on George W. C. Drexels yacht, the Alcedo, from Philadelphia, which amounted almost to mutiny, says a Halifax dispatch to the Herald. Several members of the crew became intoxicated and began smashing things on board. The captain called in a policeman, but he was powerless. Reinforcements were called, and

when they arrived the sailor who was the principal cause of the trouble retreated down a hatchway. The policemen went down with him and after putting him on his hands and knees to the deck. Then they started to handcuff another sailor. Meanwhile, the prisoner snapped the handcuffs, apparently as easily as if they were made of twine. The two prisoners finally were taken to the station. During the scuffle the policemen had their helmets broken and got many cuts. The prisoners were held off by the captain, and they will be arraigned in court.

## J. J. HILL IS ENTHUSIASTIC

New York, Aug. 26.—Fresh from a tour of the railroads in which he is interested, James J. Hill, president of the Northern Securities company, has returned to this city enthusiastic over the agricultural prospects. Mr. Hill visited the office of J. Pierpont Morgan, with whom he was in consulta-

tion for some time. During this consultation the position of the Northern Securities company is reported to have been discussed, and the status of the suits that are pending was gone over. In addition to this there were other matters discussed, about which neither Mr. Morgan nor Mr. Hill would talk. It was only incidentally that the coal strike situation was alluded to.

## ANOTHER STRIKE IN CHICAGO

Chicago, Aug. 26.—A dispute between the unions of carpenters and the electrical workers over the setting of certain moldings in the new Marshall Field building, has resulted in the board of business agents ordering a strike of all workmen on the building and

all but the carpenters walked out. About 250 men are involved. This is the first sympathetic strike in the building trades since the days of the Building Trades Council. Charles Rau, president of the board of business agents, claims that the contractors have violated the terms of their agreements.

## REV. SAM SMALL WAS DRUNK

Brattleboro, Vt., Aug. 26.—The collapse of Rev. Sam Small, the well known temperance lecturer, who was to speak for the no-license local option

party here last night, by Rev. Small's own admission today, was due to intoxication. Mr. Small says: "I was drunk. I have no excuse to offer."

## THE SCORES.

### Season Averages In the Gun Club Shoots.

The season contest for two of the finest trophies of the Central Gun club has closed.

William J. Pierce won the F. D. Day company trophy—one of the most expensive ever shot for in local competition. Mr. Pierce has been shooting in class handicap 21 during the season and since March 21 last he has won the Day trophy three times.

Maxwell Fulton and another member of the club have won it twice, but the rules for the shooting provided that it should go to the club member winning it the most times during the season. When the final shoot was begun four men had won it twice.

The score in the final shoot for this trophy was:

Class	Shot at	Score
Pierce	21	100
Fulton	21	98
Doer	21	95
Warren	21	92
Frank	21	90
Max	21	88

## TO SETTLE IT.

### Freimuths and West Duluths Dispute Amateur Championship.

For the amateur championship of Duluth, the Freimuth and West Duluth baseball teams will probably meet on the Onondaga Park diamond today.

There has been a great deal of talk about a match between Freimuths and West Duluth, but up to date this talk and counter charges to the effect that the one team or the other was afraid to play. Manager Sittler of the Freimuth team comes out today with a plain statement to the effect that he will play the West Duluths for the city amateur championship at Onondaga Park on Labor day for a purse of from \$25 to \$50 and the entire gate receipts, the purse to be placed in the hands of the referee.

It is now up to the West Duluth manager, who has been doing so much talking, to cover the proposition or else concede the championship to his rivals.

There is apparently no good reason why the game should not be arranged.

## RAILROAD RUMBLES

Northern Pacific Makes Demurrage Charges on Delayed Cars.

Two Dollars a Car After Twenty-Four Hours Has Expired.

Northern Pacific Telegraphers Get Raise—Settlers Coming.

The fall grain movement from the Dakotas and western Minnesota to the elevators and flour mills of the head of the lakes, will begin this week, and the northern lines that handle much of this traffic have decided to put into effect Sept. 1 the system of demurrage charges, which it is their custom to enforce rigidly each year in order to expedite the loading and unloading of cars by shippers and consignees.

Beginning on that date and continuing till further notice a charge of \$2 will be made on each car held more than twenty-four hours. The rule will apply to all stations not covered by a local car service association. The lines will place the distribution of cars among the various stations in the hands of the division superintendents as far as possible. Disturbances will be made in proportion to the daily average shipments of grain from such stations. Applications for cars will be filed in the order in which they are filed, one car to each applicant, afterwards in proportion to the amount of grain offered and awaiting shipment by each shipper. Loading must be completed within twenty-four hours after the car is delivered. All unfilled orders for cars will expire at 6 o'clock each Saturday night, when orders must be renewed. By these and other stringent rules the railroads hope to keep grain moving constantly, using the cars to the best advantage and doing away, in a large measure, with the danger of a car shortage.

**GET A RAISE IN PAY.**  
**Wages of Northern Pacific Operators Increased.**

Four hundred telegraph operators working for the Northern Pacific railroad will be much happier Sept. 1 by 400 increases in salary, one to each man. An order directing that the minimum salaries be increased has been made by the railroad, effective the beginning of the month. The increases range from \$250 to \$10 per month.

Superintendents O. C. Green, of the Northern Pacific railroad, stated that the advance would be graded according to the amount of business received by the road from the respective stations.

**HEAVY MOVEMENT.**  
**Great Northern Expects Many Settlers This Fall.**

Assistant General Passenger Agent "Cal" S. Stone, of the Great Northern, has just returned to St. Paul from a trip through the Eastern states occupying four weeks, and he said in an interview given upon his return that the September and October movement of new settlers into the Northwest will be heavy. He stated that he expected that after the Eastern farmers have harvested and threshed they will be ready to come West and seek out new locations. He found much interest in Michigan, Ohio, Indiana and Pennsylvania. Many of these prospective settlers will go through to the West coast, taking advantage of the fact that the roads will offer during September and October, but many others will stop in this section and acquire some of the thousands of available acres.

**The Clergue Road.**

The Algoma Central & Hudson Bay railroad, which the Clergue syndicate is building, has been completed ninety miles from front street to the Canadian Pacific. As the name of the road indicates it is projected through to Hudson bay.

The road is employing more than 2,000 men upon its various contracts, and it will take three years to complete the line. Vast stretches of virgin timber and valuable mineral lands will be opened by the road. The road will be helped out by immense land grants from the Canadian Pacific.

**No One Cent Letter Postage.**

The bill providing for the adoption of one-cent postage instead of 2 on all first-class mail matter will not become a law, because the loss of revenue to the government would be too great. It is good policy to guard against losses of any kind, but especially against the loss of your health. For this purpose Hostetter's Stomach Bitters should be taken, because it will strengthen the stomach, perfect the digestion and keep the bowels open, thus protecting you from all sickness. If, however, you have lost your health and suffer from headache, indigestion, dyspepsia, constipation or biliousness, you need the Bitters at once, because it is a specific remedy for these ailments, and will cure you. Try a bottle and see for yourself.

**HIS MISSION A SECRET.**  
 Wilkesbarre, Pa., Aug. 26.—Charles S. Vesey, the mysterious visitor who came to this city and held a two hours' conference with President Mitchell, of the Minn. union last night, returned to New York today. He declined to say who he represented or what his mission was. Mr. Vesey says Mr. Vesey's visit to town had nothing to do with a settlement of the coal strike.

## LOW PRICES.

In the true sense of the word are not those usually attached to the lowest grade of goods. Prices on such goods cannot be low enough to make them worth the buying. It is the steadfast purpose of this store to see that only worthy goods enter the stock and to place upon them low and reasonable prices. Under such conditions you have seen this business grow from a small beginning to the present size. What can better indicate the direction in which your best interests lie, when furnishing your house or any part of it. We offer at this season many goods greatly under price, as indicated by a few suggestions below.

## CARPETS.

Special offerings at extremely low prices are the rule throughout the Carpet department, and it will pay intending purchasers to anticipate their wants and have new carpets laid at a season when the work can be done promptly and with the best attention.

**Regular \$1.00 Velvet Carpets, per yard—62c**  
 A very durable fabric, which is shown in a variety of parlor and room patterns and also in hall and stair patterns.

**Regular \$1.50 Axminster Carpets, a yard 85c**  
 Several good patterns are being closed out at this price.

**Regular 95c Ingrain Carpets, a yard—58c**  
 These are extra heavy special weave—finest All-Wool Carpet, and there are six good patterns to select from.

All Goods Sold on Easy Payments.

## RUGS.

Many bargains are offered throughout the Rug Department. Large invoices of Oriental Rugs just received will be placed on sale Monday.

### INGRAIN ART SQUARES.

Size 6x9 feet	\$8.75
Size 7½x10½ feet	\$12.50
Size 9x12 feet	\$13.85

All Goods Sold on Easy Payments.

**SOLID OAK TABLES.**  
 Size 22x22 inches...\$1.25  
 Size 24x24 inches...\$1.50  
 Beautiful finish—about half the price asked in other stores.

**Dinner Sets.**  
 English semi-porcelain, with dainty blue decoration on a very attractive shape. A most desirable assortment, containing 56 pieces—  
**For \$3.58**

**\$1.95**  
 For this large size wicker and maple rocker. One of the most comfortable rockers ever built—and one that will give years of service. The sale is limited to the present stock of 34 pieces.

## AT WEST DULUTH

Manager Ullman, of the West Duluth hall team, is trying to arrange a series of two games with the Aitkin team at that city next Sunday and Monday.

Many of these prospective settlers will go through to the West coast, taking advantage of the fact that the roads will offer during September and October, but many others will stop in this section and acquire some of the thousands of available acres.

The West Duluth team is feeling particularly good over what he boys term a complete back down on the part of the management of the Freimuth team. Manager Ullman says his team has been ready to play the Freimuth's any time, for money, marbles or chalk, that the Freimuth management wanted to play for money at first, but qualified by saying "not too much money."

**SIMPLY TO TURN AROUND.**  
 It has been no little source of wonder to West Duluth people for a week past why a special train made up of the parlor and baggage cars of the different lines entering Duluth, should pass through West Duluth on the old St. Paul & Duluth short line of the Northern Pacific road, and then return about half an hour later to the city, the trains running empty both ways. For the first two days, said citizens nearly had

a case of heart failure, so sudden came the belief that the Northern Pacific road had established a regular passenger service to the Central avenue station, but it turns out that the cars are being run out to the "Y" and turned around, instead of being turned in the yards up town, where there is so much business at the present time that the company finds it more convenient to run trains to West Duluth to turn around.

**WEST DULUTH BRIEFS.**  
 Miss Evelev, of city-third avenue west, has returned from a visit with relatives at Fort Huron, Mich., and Canadiana.

Mr. and Mrs. C. B. Rodgers, of Wyomere, Neb., are making their annual visit among relatives here. Mr. Rodgers has been in the employ of the Burlington road for more than 25 years and is now superintendent of the St. Joe division, having in charge over 70 miles of the Burlington route in Missouri and Nebraska.

W. H. Sears, of Minneapolis, is in West Duluth visiting relatives for a few days.

Mr. Joseph Cassidy left this morning over the South Shore road for a visit with relatives in Marquette, Mich.

J. E. Steevers and his friends are smiling rather broadly today over the rather elaborate story of "his narrow escape from death, at the blast furnace yesterday afternoon." It is claimed that while Mr. Steevers has a large burn on one of his arms the facts of the case were not such as would warrant a thrilling story of a hairbreadth escape.

The West Duluth department will be asked to gather in youngsters, who are getting careless with the use of firearms. If the practice is not stopped, it is reported that a West Duluth citizen came near being hit the other day with a bullet from a gun in the hands of a careless boy.

William Dale, who is employed by H. F. Patterson, the liverman, has a bruised eye and a cut on his head, that he received in an accident while coming down the hill from Frodo's road the other evening. He lost control of the team while coming down a steep part of the hill and was thrown out. The wagon was also damaged.

The little 2-year-old son of Mr. and Mrs. Edward Hulse, of 9th St. and 1st St., died yesterday. Burial took place today in Calvary cemetery.

Richard Johnson, has returned to his home for some time spent in St. Luke's hospital.

Joseph Stuckney had a leg bruised yesterday between some logs at the Mitchell & McClure mill.

Mrs. Benjamin Wolter is back from a visit in Aberdeen, S. D.

Mr. Petruschke has built up a large business and has no intention at the present time of parting with it.

Miss Angie Gilley and Miss Rose Zingert have returned from Isle Royale. A son has been born to Mr. and Mrs. V. Rawlin.

School shoes at Lauermann's. Basket picnic, Zenith park, Labor day. No intoxicants sold on grounds. There will be big dance, good music, and refreshments. Take the steamship. Mary Mann at Sixty-first avenue west dock. Fare, 10 cents for round trip.

**CANDIDATES**  
**AT THE**  
**PRIMARY ELECTION.**

**For Auditor.**  
 ODIN HALDEN—The present county auditor, announces that he is a candidate for re-nomination, at the hands of the Republican voters of St. Louis county at the primary election to be held Sept. 16. During his services as county auditor he has made a record as a careful, conservative and reliable official, one who has done what he thought to be right without fear or favor, and in asking the voters to support him at the primary election, he rests his claims for support upon that record.

**For Register of Deeds.**  
 L. M. JOHNSON is a candidate for Register of Deeds. He is a member of the Typographical union, and is prominent in the West End of the city. He is a Swedish-American, and if nominated will bring strength to the ticket.

**County Supt. of Schools.**  
 SUPERINTENDENT ANDREW T. PARK asks your vote, Sept. 16, to make him the Republican nominee for county superintendent of schools.

**For Sheriff.**  
 JOHN T. ARMISTEAD desires to be sheriff of St. Louis county and is a candidate for the Republican nomination at the coming primary election. He respectfully solicits the favor of voters on the ground that he is and always has been a consistent Republican and a successful business man of the city of Duluth.

JOHN R. MEINING is a candidate for the Republican nomination for sheriff, and solicits the votes and support of all Republicans on his record as a persistent worker for the party and competent business man.

OLE LARSON is a candidate for the Republican nomination for sheriff, and is the choice of the labor organizations for this office. Vote for him Sept. 16.

WILLIAM J. BATES, of Duluth, at the earnest and long-continued solicitation of his friends, has become a candidate for the Republican nomination for sheriff of St. Louis county, and has resigned as deputy sheriff to enter the race. If he is nominated and elected he will devote his personal work to the discharge of the duties of the office, something that has not heretofore been done.

## EXTENDED FISHING TRIP.

## William Lounsbury Returns From Isle Royale.

William Lounsbury returned to Duluth today after two months fishing at Isle Royale.

His catch of a thirty-eight pound lake trout, with light rod and reel, still stands as the record-breaking performance among local anglers, though several lake trout weighing twenty pounds have been taken with rod and reel at various points along the north shore.

Mr. Lounsbury also recently made a rather remarkable catch of brook trout. He took sixteen, the lightest of which was three pounds and the heaviest five pounds.

The recent report that he caught a sea serpent stealing chickens from the light house near Tobin's harbor is said to have been exaggerated. The serpent was only 150 feet long, instead of 125 and it was painted green instead of Spanish red.

## Not Over-Wise.

There is an old allegorical picture of a girl scared at a grass-hopper, but in the act of heedlessly trampling on a snake. This is paralleled by the man who spends a large sum of money building a cyclone cellar, but neglects to provide his family with a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a safeguard against bowel complaints, whose victims outnumber those of the cyclone a hundred to one. This remedy is everywhere recognized as the most prompt and reliable medicine in use for these diseases. For sale at Boyce's Drug Store.

A. B. SIEWERT &amp; CO.

## JOHNSON WILL FILE

Clerk of Court Decides to Stand For Election.

Attorney General Has Ruled That Election Will Be Void.

J. Adam Bede to Begin His Speaking Campaign Thursday.

While he believes that there is no vacancy in the office of clerk of the district court this year, and that he holds for two years more, J. P. Johnson has concluded to file for the Republican nomination for that office.

He does this partly because a candidate on the Democratic side has offered to file for the office. He has the opinion of the attorney general of the state and of prominent local counsel that when he was elected in 1900 he was elected for four years, but they are only opinions, and it would take a supreme court decision to settle the matter definitely, and for that there is no time before the primaries.

Mr. Johnson therefore filed for the Republican nomination this afternoon. He has no opposition for nomination, and the Democratic county committee had not contemplated having a candidate for the office because of the uncertainty about the value of an election to it this year.

In reply Mr. Johnson wrote to the attorney general, setting forth the facts in the case and asking his opinion. The facts are about as follows: In 1898 G. F. Chester was elected, and he died after serving about a year and nine months of his term of four years. His deputy was appointed by the district court to hold until the election, as provided by law. The Republican county convention had been held and nomination made, so the county committee placed Mr. Johnson on the ticket as the Republican candidate for clerk.

In order to make it right Mr. Johnson also filed a petition. In all these proceedings there was nothing to show whether Mr. Johnson was elected for the unexpired term of Chester, or for the full four-year term that the law provides for.

In reply Mr. Johnson received an opinion from the attorney general's office, written by Assistant Attorney

General W. J. Donahoe, holding that there is no vacancy in the office of clerk of the district court this year, and that he holds for two years more, J. P. Johnson has concluded to file for the Republican nomination for that office.

He does this partly because a candidate on the Democratic side has offered to file for the office. He has the opinion of the attorney general of the state and of prominent local counsel that when he was elected in 1900 he was elected for four years, but they are only opinions, and it would take a supreme court decision to settle the matter definitely, and for that there is no time before the primaries.

## Passed Gravel Stone as Large as a Pea

Riversford, Pa., April 19th, 1902.  
Dr. Kilmer & Co., Binghamton, N. Y.  
Gentlemen:—I had been a sufferer from kidney trouble for about 8 years with pain in side, back and head, about 6 or 8 months ago I concluded to try a bottle of Dr. Kilmer's Swamp-Root. To my surprise I experienced a decided relief before I had taken half of the bottle, and one morning passed a gravel stone as large as a pea, which still have in my possession and will be pleased to show to any one who doubts the efficacy of this wonderful remedy. One month ago, finding some of the old symptoms returning I purchased a 50c bottle of Swamp-Root at Dr. Morey's Drug Store, and before I had taken one-fourth of it I found in the vessel which I had voided during the night, a teaspoonful of small gravel stones and sand, the passing of which was immediately followed by relief.

I am well acquainted with Mr. Butterfield and know that the above statement is true in every particular.  
DR. MORLEY, Druggist.

For a sample bottle of Swamp-Root by mail free, write Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., on every bottle.

General W. J. Donahoe, holding that there is no vacancy in the office of clerk of the district court this year, and that he holds for two years more, J. P. Johnson has concluded to file for the Republican nomination for that office.

He does this partly because a candidate on the Democratic side has offered to file for the office. He has the opinion of the attorney general of the state and of prominent local counsel that when he was elected in 1900 he was elected for four years, but they are only opinions, and it would take a supreme court decision to settle the matter definitely, and for that there is no time before the primaries.

Mr. Johnson therefore filed for the Republican nomination this afternoon. He has no opposition for nomination, and the Democratic county committee had not contemplated having a candidate for the office because of the uncertainty about the value of an election to it this year.

In reply Mr. Johnson wrote to the attorney general, setting forth the facts in the case and asking his opinion. The facts are about as follows: In 1898 G. F. Chester was elected, and he died after serving about a year and nine months of his term of four years. His deputy was appointed by the district court to hold until the election, as provided by law. The Republican county convention had been held and nomination made, so the county committee placed Mr. Johnson on the ticket as the Republican candidate for clerk.

In order to make it right Mr. Johnson also filed a petition. In all these proceedings there was nothing to show whether Mr. Johnson was elected for the unexpired term of Chester, or for the full four-year term that the law provides for.

In reply Mr. Johnson received an opinion from the attorney general's office, written by Assistant Attorney

General W. J. Donahoe, holding that there is no vacancy in the office of clerk of the district court this year, and that he holds for two years more, J. P. Johnson has concluded to file for the Republican nomination for that office.

He does this partly because a candidate on the Democratic side has offered to file for the office. He has the opinion of the attorney general of the state and of prominent local counsel that when he was elected in 1900 he was elected for four years, but they are only opinions, and it would take a supreme court decision to settle the matter definitely, and for that there is no time before the primaries.

Mr. Johnson therefore filed for the Republican nomination this afternoon. He has no opposition for nomination, and the Democratic county committee had not contemplated having a candidate for the office because of the uncertainty about the value of an election to it this year.

In reply Mr. Johnson wrote to the attorney general, setting forth the facts in the case and asking his opinion. The facts are about as follows: In 1898 G. F. Chester was elected, and he died after serving about a year and nine months of his term of four years. His deputy was appointed by the district court to hold until the election, as provided by law. The Republican county convention had been held and nomination made, so the county committee placed Mr. Johnson on the ticket as the Republican candidate for clerk.

In order to make it right Mr. Johnson also filed a petition. In all these proceedings there was nothing to show whether Mr. Johnson was elected for the unexpired term of Chester, or for the full four-year term that the law provides for.

In reply Mr. Johnson received an opinion from the attorney general's office, written by Assistant Attorney

## Sheriff Sargent in to the Finish.

It has been said at different times during the last few weeks that Sheriff W. C. Sargent will withdraw from the contest in the primaries. The following letter, which is certainly news to me and I have come to the conclusion, seeing that the rumors are so persistent, to tell you, as one of my personal friends, that I have never at any time entertained the idea of withdrawing. I filed my certificate in good faith, and in justice to my friends, I could not withdraw even if I wanted to. There is no reason why I should want to do this for my friends have lined up for me and I am going to win. I wish you would notify my friends and supporters as soon as you can, that I am in the race to stay and that they need feel no uneasiness over the rumors that I am about to drop out. I am improving in health rapidly and will return to Duluth the last of this week to prove the truth of the stories that have been circulated concerning me since I left Duluth. I hope this will set at rest this talk, which has never at any time had foundation.

"You will greatly oblige me by giving this statement circulation. Remember me to all and believe me, as ever,  
Yours very sincerely,  
"W. C. SARGENT."

report affects all of the other city departments that are under control of the Willcuts faction."

The Democratic committee did not have its ticket made up at a late hour this afternoon, but expects to have it ready for filing tomorrow. Two candidates filed this afternoon, Charles G. Miller, for sheriff, and John B. Connor, of Hibbing, who desires the nomination for commissioner in the Seventh district. He will oppose Commissioner Berdick.

James Gandey, of Hibbing, filed this afternoon for the Republican nomination for sheriff. He will oppose Commissioner Berdick.

"I should not like to state whether the Populists of this county will vote for Mr. Rosling, the Democratic candidate for governor, or for the Populist candidate."

J. Adam Bede will open his speaking campaign Thursday night at the Sixth Avenue theater, and he will speak pretty constantly from then until the close of the campaign before the primaries.

The opening meeting will be held at the Sixth Avenue theater, Thursday evening, and there will be a large attendance of voters of the Second ward, in which the hall is situated, as well as others from different parts of the city.

Friday evening Mr. Bede will speak at West Duluth Republican headquarters.

Within the next week he has two other speaking engagements, but neither of these are political. Thursday afternoon he will speak at the annual picnic of the Modern Woodmen of America at Lincoln park, and Monday, Labor day, he will speak at the same place.

The impression that Lee M. Willcuts is getting warmed up and is taking more active part in the Edison campaign than he has in the past is growing, and the report that he is taking this stand continues to come from reliable sources.

It is also reported that an attempt will be made to swing the entire city administration into the fold of action in behalf of Edison between now and the primaries.

"I am informed," said a prominent Republican this morning, "that every influence that can be brought to bear from the city hall will be worked to the fullest extent. I am told that the police department will be set to work to manipulate the saloon element for Edison, and that the fire department will have pressure brought to bear upon it from top to bottom. The same

will be done for the Edison campaign."

Under the approach of fall weather thoughts of school are in order. The public schools of the city will open September 15, and entrance examinations for those who come to the high school for the first time will be held the Thursday before school opens, which will be September 12. Those who have back work to make up will be given the opportunity to take examinations Friday, Sept. 12, at the high school, and the minimum to be passed is 100,000 tons a year with a royalty of 25 cents a ton. The first year 100,000 are agreed to be mined. Five-sixths of the lease runs for fifty years and one-third for twenty-five years. In case other minerals besides iron are found, the mine-owners get a royalty of 25 per cent of the market value of the mineral mined.

WOMEN AND CHILDREN KILLED. Bloomington, Orange River Colony, Aug. 26.—A shunting engine crashed into a train conveying refugees to Johannesburg yesterday. The front cars were wrecked and a number of women and children were killed.

A PIANO WRECKED. Fall From Second Story Window Makes Kindling Wood. A piano that was worth \$100 yesterday looked to be worth about 50 cents this morning, when it was swept up into bushel baskets on the cement sidewalk in front of 924 1/2 East Second street.

The piano was the property of the Duluth Music company, and it had been rented for a time by Herbert H. McSweeney, who had been in the second story of the building at the above address. He was through with it, and the music company had sent a dandy for it. This morning, as it was being taken out of a second story window, it broke loose from its fastenings and fell to the sidewalk below. While it was not literally broken to atoms, it was pretty badly scattered, and a number of the pieces were packed into baskets when it came to gathering up the wreck.

## CITY BRIEFS.

Tibbels, undertaker, 21 W. Superior St. Try a "Queen Culture" cigar, 10 cents. Parlor theater. All new features tonight. Don't forget it. Tickets 25 cents.

Tomorrow is the last day of filing notes of issue for cases to be tried at the September term of court. The calendar is about the usual length for the fall term. In the criminal line there are a large number of cases for trial. Included in the trial are two murder cases, while the remainder are for the most part of a trivial nature.

The Douglas May company will open an engagement at Moon Bros' theater this evening. The Douglas children, Master Robie and Little Lucille, are the features of the company.

The personal injury case of Nels Nyberg against the Chicago & North Western Railway company, has been transferred from district to United States circuit court.

The Norden Rifle club, of Two Harbors, which defeated the Viking club of Duluth Sunday, is anxious to meet the West Superior club.

William Orr, of Tower, has been discharged from bankruptcy. He is engaged in Shampoos, manicuring, face massage, scalp treatment. Miss Bacon, 2 West Superior street. Great show this week.

PERSONAL.  
Miss Clara Melning has gone to New York for a short trip.  
Mrs. E. J. Trevelyan has returned from a visit in Minneapolis.

Harold Burton, business manager of "The Gazette," a dramatization of Ogle Field's famous novel, which will start the season from Duluth, arrived last evening from New York. Mr. Burton says the members of the company will have the latter part of the week and that returns will begin next week.

Miss Margaret Beach, of Sioux City, who has been visiting in Duluth, has returned home.

William J. Bates, Republican candidate for sheriff, leaves for Tower and the Vermilion range this afternoon.

C. M. Purdon, N. F. Shatt, C. H. Harris and E. O'Brien, Minneapolis, passed through here today on their way home from the north shore and St. Louis.

Miss Anna Garrigle left this afternoon for the East over the Omaha.

Mrs. George H. Campbell, of the Sault, is in the city today.

H. Van Harcom, of Ely, is at the St. Louis today.

Frank W. Walker is a Two Harbors visitor at the St. Louis.

W. W. Brown, of Ellavick, is at the McKay.

C. H. Gallagher, of the Union Depot ticket office, has gone to Mt. Clemens for relief from rheumatism. Mr. Gallagher accompanied him as far as Chicago.

S. W. Gilpin, superintendent of the Virginia school, E. Eric, superintendent of the Ellavick school, A. E. Nelson, principal of the McKinley and Elina schools, N. A. Young, principal of the Southern school, and J. S. Johnson, principal of the Mountain Iron school, passed through the city today on their way to begin the work of the school year Tuesday.

Donald Irvine is out again after several weeks' illness.

Miss Grace Baird, sister of Lyman D. Baird, new bank inspector for Minnesota, is a guest of Mr. and Mrs. R. J. Dowdell, of 33 Fourteenth avenue east.

Washington, at the head of the hydrographic department of the United States, was in the city for a short time today, during which time he inspected the local office.

WANTS POSSESSION.  
Suit Involving Lot and Barn in Biwabik.  
William F. Merrill began action in the district court this morning against John C. McGilvray to secure the undisputed possession of a livery barn and lot 1, block 5, Carlton avenue, in Biwabik.

The plaintiff was in partnership with Charles Verrill and although they shared the profits equally, the former states that he had money in the business while the partner had none. In the fall of last year Charles Verrill retired from the firm. In February of this year, it is alleged that McGilvray knowing that Charles Verrill had no interest in the barn that belonged wholly to the plaintiff, procured an assignment of the contract from him, paying him, the plaintiff believes, the nominal sum of \$100, and thereupon went to the original owner of the lot who still had the title and procured from him a deed of the lot. The defendant is alleged to have paid only \$100, the amount due on the contract, and which did not include the buildings worth \$500.

For some time after the conveyance the plaintiff remained in possession of the premises, but business got dull and he retired. Then the defendant is alleged to have moved in and later rented the building to a third person. He knew, too, that the only right he had was to receive \$100 due to the original owner from whom he received the deed. This the plaintiff has been willing to pay. The plaintiff asks the court to declare him the owner of the lot with the buildings subject to the lien of the defendant, which should be diminished by the rents received by him.

FAILED TO ESCAPE.  
Covington, Tenn., Aug. 26.—Nineteen prisoners in the county jail here made an attempt to get out this morning in absence of the jailer and nearly succeeded. They had bored through the top of the cage and were about to break through the roof when the wife of Jailer Smith took a hand. She armed

a negro "trustee," and taking her husband's shot gun covered the prisoners and kept them until her husband returned. The prisoners were then forced to return to their cells.

MACARTHUR AT NEW LONDON. New London, Conn., Aug. 26.—Major Gen. MacArthur, commanding the department of the East, has arrived here accompanied by Gen. Harrison and his personal staff. The general declined to be interviewed regarding the army's part in the war maneuvers. He did say, however, that all the details would be perfected just as quickly as possible and the army would give a good account of itself in the game of war.

# This is

...in form and appearance, as well as may be shown by newspaper print. Its splendid qualities can only be known by actual trial. No picture can give a realization of its crystals of plant sugar---its crisp daintiness. The plant sugar is Dextrin---the power food.

In Apitezo there is also a great quantity of Protein---the muscle food,---and of Phosphates---the brain food. Most important of all, there is Plant Iron---the blood food. No food gives so much of it as Apitezo.

Apitezo is made of nothing but pure grain elements, yet it is much more strengthening food than meat. It is tempting, delicious, satisfying. It crumbles when cream is poured over it. It is usually eaten with cream,

but may be eaten by itself. Pictures and words can not give a very clear idea of its charm. Before you really know Apitezo you must taste it. DOCTORS COMMEND IT. GROCERS SELL IT.

## LABOR DAY PROGRAM

Order and Line of March For the Big Parade.

To Be Greatest Demonstration Ever Made In Duluth.

List of Sports and Prizes Provided For the Winners.

Duluth will devote next Monday to a recognition of the rights and dignity of organized labor. The celebration will undoubtedly surpass any similar demonstration since Labor day became a legal holiday in Minnesota nine years ago.

It is the sixteenth anniversary of the beginning of this celebration in the United States.

The general executive committee has announced Louis Nash, of St. Paul, as the orator of the occasion. Mr. Nash is a member of the Retail Clerks' union of that city.

The parade, in which probably 400 men will participate, will begin marching promptly at 1 o'clock Monday morning, over the following route and in the following order:

First division forms on Fifth avenue west, north of First street. Second division forms on Fourth avenue west, north of First street. Third division forms on Third avenue west, north of First street. Fourth division forms on Second avenue west, north of First street. Fifth division forms on First avenue west, north of First street. The parade will then turn east on First street to Fourth avenue east, south to Superior street, west to Thirteenth avenue, counter march to Fourth avenue west, south to Michigan street, and west to Union depot.

Chief Marshal--Henry Dworschak. Assistant Chief Marshal--George Smith. Platoon of Police.

FIRST DIVISION. Third Regiment Band. Typographical Union. Federated Trades and Labor Assembly and Building Trades Council. Licensed Teamsters' Association. Steamfitters' Union. Painters and Decorators' Union. Longshoremen's Union. Tailors' Union. Boilermakers' Union. Lathers' Union, No. 6 and No. 12.

SECOND DIVISION. K. of P. Band. Second Deputy Marshal--George A. Lindsay.

Team Drivers' Union and General Wagon Drivers' Union. Sheet Metal Workers' Union. Steam Engineers' Union. Cooks and Waiters' Union. Iron Molders' Union. Leather Workers' (Horse Goods) Union. Theatrical Stage Employees' Union. Brewery Workers' Union. Plumbers' Union. Freight Handlers' Union. Electrical Workers' Union.

THIRD DIVISION. Closest Eagle Cornet Band. Third Deputy Marshal--Henry Perault. Carpenters' and Joiners' Union. Machinists' Union. Sailors' Union.

Bridge and Structural Iron Workers. Typographical Union. Free Pressmen's Union. Cigar Makers' Union. Lumber Filers' Union.

FOURTH DIVISION. St. Perkins' Band. Fourth Deputy Marshal--Gordon O'Neil. Butchers' Union.

Builders' Laborers' Union. Bakers' and Confectioners' Union. Retail Clerks' Union. Plasterers' Union. Bricklayers' Union. Stone Masons' Union. Tug Firemen's Union. Grain Trimmers' Union. Stone Cutters' Union. Horseshoers' Union. Duluth Fire Department. Carriages.

SPORTS AND PRIZES. The sports will be run at the Fond du Lac picnic grounds. The following prizes are provided for the winners:

## IS LOST SIGHT OF

Most Important Thing Coming Up at Fall Election.

Proposed Constitutional Amendment Affecting Taxation.

Majority of All Votes Cast Necessary to Carry.

The most important thing about the fall elections is being lost sight of, and it probably will receive less attention throughout than will many less important matters.

That is the proposed amendment to the constitutional provisions on taxation, which the legislature submitted to the people for their votes this fall.

The constitution now provides that amendments to the constitution require a majority of the votes cast at the election, instead of a majority of the votes cast on the proposition. Under the old system any old amendment would pass, and under the new arrangement no amendment can pass without a vigorous campaign of education. Many voters do not understand the constitutional provisions, so they do not vote, and a failure to vote is as effective against the proposition as a vote against it.

The proposed amendments to the constitution include some very important features. Under it laws may be enacted taxing franchises in addition to the regular taxes; or in lieu thereof a gross earnings tax may be imposed on franchise-owning corporations. This tax must be apportioned between the state, county and municipality in the same proportion as the other taxes are apportioned.

A registry tax upon all mortgages may be imposed in lieu of other taxes. A tax may be levied upon the income of credits and upon the income arising from personal property, and also upon the incomes of all persons or corporations above \$10,000, not arising from such credits or such personal property, or from property not otherwise taxed in this state.

These income taxes are to be uniform throughout the state, and may be graded or progressive, or both, and the rates are not to exceed 10 per cent on credits or the income from personal property, and not to exceed 4 per cent on other incomes.

The constitution as amended if this proposition were passed would permit the personal property exemption to be increased from \$100 to \$300. Such exemption, however, cannot be allowed to more than one member of a family.

Another important feature is that the amendments would permit local option in taxation, in a measure, when there was no state tax to be levied. There is a possibility that the time will come when the state will no longer need to levy a tax, its full income being derived from fixed sources. In that event the only provision is that the valuation in the counties must be uniform only within the borders of each county. This would open the door to competition between counties and while the amendments do not permit local option it is understood by those who would like to try such things as the land tax, the latitude is pretty wide.

There has been almost no discussion

of the proposed amendment since the legislature adopted it at the special session last winter. Without thorough discussion few people will know whether the proposition ought to carry or not, and the chances are it will be voted down.

PREFER OUTDOOR WORK.

Finnish Girls Work in Fields Rather than at Housework.

With the settlement in Northern Minnesota and, particularly, Northern Wisconsin, of a large number of Finnish settlers, during the last two years, and Michigan during the summer months, there has been a noticeable fact that there are fewer Finnish servant girls at the head of the lakes than of other nationalities, and that the Finnish girls are more inclined to stay at home and work out of doors on the farms.

One of the head of the lake contractors whose business has frequently carried him through Northern Wisconsin and Michigan during the summer months, has been seen between 200 and 300 Finnish girls working in the hay fields. In Finland the employment of girls and women in the fields is not uncommon and many of the Finnish immigrants have brought their old country notions with them when they settled in the Northwest. It is claimed that in Northern Michigan some of the farmers have actually hired Finnish girls to go into the fields and work during a scarcity of men, and found them excellent farm hands. There is always a scarcity of men for farm work in the mining districts of Northern Michigan, and this season large numbers of girls, willing to work, were hired to do haying and other farm work. The girls are doing better than they do housework, although they seek domestic employment when winter comes.

Running high water has received a majority of the votes cast at the election, instead of a majority of the votes cast on the proposition. Under the old system any old amendment would pass, and under the new arrangement no amendment can pass without a vigorous campaign of education. Many voters do not understand the constitutional provisions, so they do not vote, and a failure to vote is as effective against the proposition as a vote against it.

## Flax Trading Was Active and the Market Weak.

TWENTIETH YEAR.

LAST EDITION.

THURSDAY, AUGUST 28, 1902.

TWO CENTS.

## VISITS NEW HAMPSHIRE

The President the Guest of the Granite State. Addresses G. A. R. Encampment at The Weirs.

Nashua, N. H., Aug. 28.—For the first time since beginning his tour of New England President Roosevelt last night slept aboard the train. He remained until a late hour talking over old times with "Burr" Sewall, his former guide, whom he insisted should accompany him to Ellsworth and back to Bangor. In all probability the president will return to Maine in October for a hunting trip. In his anxiety to respond to the greeting of the people of Concord, a small station, the president, who had not finished dressing, rushed to the door of his car wrapped in an overcoat and bowed to the little gathering.

At Wyndham Junction the populace was astir early and a rousing cheer went up as the president appeared on the rear platform of the car.

The train reached Nashua on time and the president and his party were escorted in carriages to the city hall. At the station and along the streets and massed around the platform which had been erected in front of the city hall, were thousands who cheered incessantly. Withdrawing from the platform the president and those who were with him proceeded to the Nashua Junction station. The ovation to President Roosevelt was continuous and as the train drew out prolonged cheers followed.

Manchester, N. H., Aug. 28.—A presidential salute by a battery of the New Hampshire state militia, mingled with the cheers of a great crowd, greeted the president as his train reached here. As many of the men on the reception committee here were personally known to the president, the exchange of courtesies was unusually cordial. The president was escorted on a drive through the industrial and business sections at once. The carriage was drawn by four handsome horses. On one of the bridges the two lead horses became unmanageable and had to be taken out. At a point opposite to Merrimack common the president's carriage was brought to a stop and the local camp of Spanish-American war veterans tendered the president a salute and their commander, Col. William Sullivan, stepped forward and presented him with a bouquet of roses. In accepting them the president spoke for

ten minutes. He was enthusiastically cheered at the close of his remarks, following which the line of march was taken up for the depot, where the president boarded his special train for The Weirs.

The Weirs, N. H., Aug. 28.—There was an immense number of people here today, drawn by the G. A. R. encampment and the president's visit. The president spoke to the veterans as follows:

"An American has the proper sense of relative proportion of things, must realize that to the men who fought for the Union in the dark days of the civil war, there is owing a greater debt of gratitude than to any others. That were the dead you did and vital the need of doing them."

"Many were the lessons taught the rest of us both by what you accomplished in the war and by the way in which, when the war was over, you turned to the work of peace with the same spirit which had led you to triumph on the battlefield. During the lifetime of our republic each generation has had its allotted task. We have moved forward swiftly or have stumbled and halted according as the work as a whole was well or ill done. We have encountered many crises of great problems, upon the right solution of which much of the nation's welfare depended. To you alone was given to face with valor the one crisis which more nearly threatened the nation's life than any other. To you it was given to solve the one problem which if not solved might have meant death to our people."

"All of the work of the men who founded this republic would have gone for nothing if you had not been there. It was the statesmanship of Lincoln, the leadership of Grant and the loyalty of those who upheld the arms of the one and followed the sword of the other which made permanent the work of Washington, of Marshall and of their successors. It would have profited little to us or to mankind at large if the experiment of free government by the people and for the people had been founded upon this continent only to go down in the history of the world as a failure. You saved the Union and you freed the country from the curse of slavery. From the worst of all tyrannies, from the worst of all wrongs, you did, there was hardly one of you who did not during those four years receive far less than he could have earned in safety at home. But you were driven from the land by the lash of your own hearts. You were spurred onward by the great and generous soul, you left instinctively that there were causes greater than anything that had to do with money or with worldly gain. You were willing to wage all at the price of death in righteous war."

(Continued on Page 8.)

## MILES TALKS OF TRIP

May Properly Be Called an Inspection Tour as He Will Endeavor to Visit Every Army Camp in Philippines.

Washington, Aug. 28.—Gen. Nelson A. Miles, accompanied by Mrs. Miles and his aides, Col. Whitney and Major, will leave Washington for the Philippines next Wednesday. Two short stops will be made in the journey to San Francisco, where the party will arrive in time to sail on the transport Thomas, which leaves on Sept. 16. Mrs. Miles may not go farther than San Francisco with the general, or she may conclude to accompany him across the Pacific ocean.

Gen. Miles discussed his trip briefly today. He had just arrived from his Eastern inspection tour, and said that there were so many things to do in arranging his office affairs that he had not as yet outlined in detail his trip after he should reach Manila.

"I regard the trip as merely a visit to the army there," he said. "It may be called an inspection tour and I shall make it a point to visit probably every army camp in the islands, though, as I have said, this matter has not yet been determined upon."

The general expressed regret that he could not be here during the Grand Army encampment. He says that his visit to the Philippines will consume from thirty to sixty days. Before leaving he will make his annual report to the secretary of war and unless a special report is made on his inspection tour it will not be reported on until a year from the coming October.

The transport Thomas, on which the general and party will sail, has recently been overhauled and fitted up, making her one of the most elegant and comfortable army transports. It is likely that the return trip will be made on her.

## MAY BE SWINDLER WATKINS

Billings, Mont., Aug. 28.—The Billings officers have a man under arrest believed to be the much-wanted Philip D. Watkins, who is accused of victimizing banks in San Francisco, Los Angeles, Seattle and other places throughout the West. The man answers the description of Watkins and has with him a woman supposed to be from Omaha. He appeared at Billings under the alias of G. W. Swaine, and it is alleged passed on the property of a hotel here a bogus check drawn on a Massachusetts bank. The fraud was discovered and he was apprehended with his companion at New Castle, Wyo. The Billings authorities have received a message from Sheriff Cadieux, of Seattle, saying that the prisoner was wanted at that place on a charge of obtaining money under false pretenses.

## FAILS TO SWIM THE CHANNEL

Dover, Eng., Aug. 28.—Montague Holbein failed in his attempt to swim across the English channel. He was taken out of the water when a mile from Dover. Holbein had to be helped out of the water, being too exhausted to struggle any longer against the west-

ward tide. He stayed in the water 22 hours and 21 minutes. Frank Holmes, of Birmingham, who started from Dover at 5 o'clock this morning in an effort to swim the English channel, was seized with cramps and abandoned the attempt when six miles out.

EDWARD A. CUDAHY, SLATED FOR THE MANAGEMENT OF THE NEW BEEF SYNDICATE.

Edward A. Cudahy, the millionaire beef packer of Omaha, is said to be slated for the management of the new beef syndicate. According to apparently well authenticated reports, Mr. Cudahy will receive a salary of \$100,000 a year and will remove his headquarters from Omaha to St. Louis. He is the gentleman whose son was once kidnapped and returned to him only upon the payment of \$25,000 in cash.

## ASK FOR ENDORSEMENT

A Large Number of Candidates For Congressional Nomination Have Filed and a Few Will Be Chosen on Sept. 16.

St. Paul, Aug. 28.—(Special to The Herald.)—Yesterday was the last day for filing petitions for nomination under the new primary election law and the party candidates for congress in the various districts will be chosen by the voters on the first registration day, which is Sept. 16. In the first district Congressman J. A. Tawney's desire for re-nomination is contested by State Senator T. V. Knott, of Albert Lea, while State Senator Peter McGovern, of Waukegan, will have the uncontested Democratic nomination. In the second district Congressman J. R. McCleary's re-nomination is unopposed in his own party, but C. N. Andrews, of Maquette being the only Democrat to file, will contest with him at the polls. Congressman Joel Heavole, of the third district, announced his desire to retire and seven other Republicans have filed as candidates for the Republican nomination while C. G. Kolars, of Le Sueur, is the unopposed Democratic candidate.

Congressman Fred C. Stevens, of St. Paul, has no contest for the re-nomination and his Democratic opponent will be John L. Gelsko, of St. Paul. In the fourth district Congressman L. J. Fletcher's re-nomination is contested while former Governor John Lind and two others are seeking the Democratic nomination. J. A. Dunne, of Duluth, is the only Republican to file in the fifth district. C. H. Buckman and Albert F. Foster are the only Democrats to file in the sixth district. Republican Frank Eddy, having retired, Speaker M. J. Dowling, State Senator J. J. Gorman, and Andrew J. Volner will be the only Republicans to file in the seventh district. In the eighth district, the Republican contest for party nomination in the new Ninth district, will be between former Congressman S. G. Constock, of Duluth, and Alex. McKinnon, Democrat, and Nels T. Moen, Populist, will oppose them at the polls.

## LASHED TO A GAS JET

Chicago Woman Commits Suicide By Placing Mouth Over Burner and After Tying Herself to Chandelier Turned on Gas.

Chicago, Aug. 28.—Apparently driven frantic by the fear that she might some time become insane, Mrs. John McCleary, a bride of less than three months, was killed today in a peculiarly shocking manner. Having untied herself from a nightgown, she climbed to the top of the

dining room table, and having placed her mouth over one of the gas jets, she fastened her head firmly by means of a cord, then she turned on the gas. When her husband came home he found her dead. Letters that the woman left behind led to the belief that she was mentally distressed. She was 28 years of age.

## FIRST RAIN IN THREE YEARS

San Francisco, Aug. 28.—Timely and abundant rains—the first for three years—have saved the southern end of the territory of lower California from becoming a barren waste. Passengers on the steamer Curacao from Cape San Lucas at the very extremity of the peninsula, report that over six inches

of rain had fallen during the last few weeks. The creeks and arroyos were full and many canyons which had been like furnaces for many months had running streams. Early this year there was a large exodus of people from the barren districts, only a few men remaining in order to guard their lands in the hope that rain would fall and prevent a total loss of their small holdings.

## PRISONER'S NOVEL ESCAPE

Chicago, Aug. 28.—A new plan of escape has been tried successfully by a Fort Sheridan prisoner, Frank Byer, of the Ninth battalion, who had been moving the lawn near a picnic party, ran among the picnicers and then into the cover of a

ravine. Guard George Breakley could not fire for fear of hitting some one in the picnic party. Byer had served only one day of his sentence of eighteen months in the guardhouse. Desertion was his offense.

## CASTRO WILL AWAIT ATTACK

New York, Aug. 28.—News from Venezuela, received by partisans of the revolutionary cause in this city is to the effect that President Castro maintains his lines from Guao to San Juan de Los Moros, but that it will be impossible for him to avoid the entry of the revolutionary forces when Gen. Luciano Mendoza and Gen. Segundo Riera join them. Gen. Matos occupies a parallel line from Sambrero, through Ortiz and Morrocoy, to Parí, ten miles north of San Juan de Los Moros, who have 4,000 men. Matos has with him 5,000 well equipped men, and holds very strong positions. He will not advance toward Caracas until the reinforcements arrive. Meanwhile he is ready for any attack which Castro may make upon him. The latest advices say Castro will not advance, and prefers to wait the attack from the revolutionary forces.

## CLASH WITH TROOPS

Striking Miners Surround Soldiers and Attack Them With Stones.

## NO CONTEST. A More Serious Outbreak of the Men Feared.

Arrangements For Division of Mrs. Fair's Estate Completed.

San Francisco, Aug. 28.—Although the heirs of the late Mr. and Mrs. Charles L. Fair have reached an agreement it will be six months or a year before all the legal arrangements can be perfected. The will left by the decedents will be filed in the year future for probate. There will be no contest over the estate, as the Fair children, Mrs. Anna H. Nelson, Abraham Nelson, Charles Smith and the other heirs desire to avoid litigation. All the terms of the adjustment will not be made public, but the attorneys state that the relatives of the decedents will receive the full value of her estate which has been estimated at \$38,000. The document by which the Nelsons relinquish all claims on the estate of Charles L. Fair is in the form of a quit claim, the consideration for which is stated to be \$10 to each child. By Mr. Nelson and her two sons convey to Mrs. Nelson and Mrs. Vanderbilt all their interest in nine-to-nine different pieces of Fair estate property in this county, including with thirteen in San Mateo county, three in Napa, four in Yolo and some in Calaveras county.

## MORE BITTER.

The Rospigliosi Controversy Spreading In Rome.

Rome, Aug. 27.—The Rospigliosi controversy is increasing in bitterness and nearly all the members of the sacred college have become participants. Prince Rospigliosi, under the advice of one of the cardinals, has formally protested to the pope against the act of hurling a stone at a car several soldiers jumped out and made an attempt to capture him. Marten offered resistance and the soldiers were compelled to fix their bayonets on the rifles of the soldiers. Marten was slightly wounded in the left side. The troopers started back to the motorcar on the first car made the discovery that the rails had been greased. The cars were stopped and the soldiers were sent ahead to place sand upon the rails. When this had been done it was possible by moving the cars slowly to reach the sandford safely. A mob had gathered there and for a time it looked like riot. At the first car was passing through the mob Capt. Gearhart was struck on the head, shoulder, by a stone. Several soldiers jumped from the car in pursuit of the stone thrower. After an exciting scuffle they captured Joseph McCann, a young miner.

Tamaqua, Pa., Aug. 28.—The first clash between the striking miners and the troops occurred this morning, and as a result five prisoners are in the guard house at the Twelfth regiment camp, and Capt. J. Beaver Gearhart of Company F, Twelfth regiment, is suffering from a wound on his shoulder made by a stone thrown by a striker.

This morning a report gained currency that the striking men were gathering in force to make a march on the No. 4 colliery, where the Lehigh Coal and Navigation company is mining and cleaning coal. The colliery is at the west end of the Panther creek valley, and the Governor's troop was ordered to that point. Companies F and K of the Twelfth regiment were placed on trolley cars and ran through the valley. When the cars reached Summit Hill they were surrounded by a mob of strikers, who hurled rocks at the soldiers and called them hard names. While Jimmy Marten, an Italian, was in the act of hurling a stone at a car several soldiers jumped out and made an attempt to capture him. Marten offered resistance and the soldiers were compelled to fix their bayonets on the rifles of the soldiers. Marten was slightly wounded in the left side. The troopers started back to the motorcar on the first car made the discovery that the rails had been greased. The cars were stopped and the soldiers were sent ahead to place sand upon the rails. When this had been done it was possible by moving the cars slowly to reach the sandford safely. A mob had gathered there and for a time it looked like riot. At the first car was passing through the mob Capt. Gearhart was struck on the head, shoulder, by a stone. Several soldiers jumped from the car in pursuit of the stone thrower. After an exciting scuffle they captured Joseph McCann, a young miner.

They proceeded again but had not gone far when another crowd was encountered and the soldiers were again taunted and stoned. Half a dozen soldiers jumped off and captured three men, who, it is alleged, were urging the crowd to attack the troops. The men gave their names as John King, Timothy King and John Kelly. They were taken to camp at Manila park, where, together with McCann and Marten, they were placed under a heavy guard.

The officers of the Twelfth regiment all agree that the situation is serious. They say the feeling against the soldiers is very intense in Coaldale, Lansford and Summit Hill.

Parkersburg, W. Va., Aug. 28.—Col. C. E. Morrison of this city, commanding the Second regiment, West Virginia National Guard, received orders this morning from Governor White calling his regiment to the New River coal fields. The officers refuse to state what is their destination, but it is supposed to be Red Ash, where the deputies were fired upon yesterday. The regiment is composed of nearly 1,000 men and the companies are scattered at several points in the coal fields. Huntington has three, Parkersburg two, Charleston, Milton and Bluefields each one company. A special train has been ordered out and the companies are assembled at their armories here awaiting further orders to move.

Huntington, W. Va., Aug. 28.—Mail James E. Verlander of the Second battalion West Virginia National Guard received orders from Governor White to proceed at once with the three companies of state militia here and one company at Milton to New River coal fields, where trouble is imminent. The companies have been assembled and will leave at once on a special train. Serious trouble is predicted.

## IMPAIRED.

Triple Alliance Not as Strong as It Was Once.

New York, Aug. 28.—Detailed accounts of the reception of the king of Italy at Potsdam are printed here with perfunctory comments upon the stability of the triple alliance, cables the London correspondent of the Times. Neither the German foreign office or the Italian foreign minister can it is declared, remove the impression that the triple alliance has been impaired by the independent action of the government at Rome in promoting dynastic relations with France and improving relations with Italy. European coalitions are not what they were in Bismarck's time. They are described by practical diplomats as rival trusts, which have established working relations with each other and may ultimately introduce economics in the direction of disarmament.

## AROSE EARLY.

Municipalities League Delegates See the Sights.

Grand Rapids, Mich., Aug. 28.—After the 18th session that lasted until midnight, many of the delegates to the convention of the League of American Municipalities arose at 4 o'clock this morning and went to the city market place in active operation and to witness the great peach sale on the city market. The delegates were content to wait until 8 o'clock before visiting the two institutions. Demonstrations of machinery and the like occupied the league until 10 o'clock when the convention again assembled. It was arranged to crowd all the business of the day into the morning session owing to the entertainment plans of the afternoon.

## YACHT IN COLLISION.

The Kanawha Runs Into a Ferry Boat.

New York, Aug. 28.—The steamer Kanawha, owned by H. H. Rogers, of the Standard Oil company, was in collision today off the foot of Grand street, east river, with the Long Island railroad ferry boat Rockaway. The yacht's bow, carried off the top of the ladies' cabin of the ferry, was torn from its axis. The yacht continued down the river and the Rockaway proceeded to Long Island City after only a few minutes delay.

## SPECKLES IN MONTREAL.

Montreal, Aug. 28.—Chas. Spreckels, president of the Federal Sugar Refining company, and his consort, have arrived here. It is understood that they contemplate the organization of a Canadian company with a capital of \$5,000,000. Beyond the fact that papers for the incorporation were signed and forwarded to Ottawa nothing could be learned.

## FIRE AT BETHLEHEM, CONN.

Watertown, Conn., Aug. 28.—A report reached here that the village of Bethlehem, ten miles north of Watertown, is in danger of being destroyed by fire. Aid has been asked for from the town of Watertown. Telephone communication has been off by the fire. The town is a farming community of 800 inhabitants.

## FOREIGN AID TO MINERS.

London, Aug. 28.—At a meeting today of the British Miners' Federation a resolution it was decided to forward \$5,000 to aid the striking miners of the United States.

## OUTLOOK IS NOT BRIGHT

Early Resumption of Mining In Pennsylvania Coal Fields on Former Scale, Is Not Expected For Weeks.

Pittston, Pa., Aug. 28.—The chances for an early resumption of mines in the anthracite coal fields, on the same scale as they were operated previous to the strike of the mine workers, are not very good, according to the outlook here. The superintendents of the coal companies practically admit that at the present rate there is no chance of getting the collieries open for many weeks.

Several of the collieries have been started, but not one is working at anything like its capacity. At each of these mines, it is admitted by the companies, they have only about 100

men at work, but the claim is made that they are getting more every day. The collieries working are the Oxford of the People's Coal company; the Von Steiner and Dickson, of the Delaware & Hudson; the Cayuga, Dodge and Hampton, of the Delaware, Lackawanna & Hudson; the Erie, Erie and the Avondale, of the latter company, at Kingston. The normal tonnage of these mines during regular working time is 1,000 tons per day, while at present they are turning out about 300 tons.

While an average of 3,000 tons of mined coal is being daily prepared in the district, the average for 1900 when but 174 ways were worked during the year, was 28,985 tons per day.

## THE COUNSEL EXPELLED

Minnesota High Court of the United Order of Foresters Voted to Remove S. C. Olmstead From the Order.

St. Paul, Aug. 28.—(Special to The Herald.)—The Minnesota high court of the United Order of Foresters after a lengthy investigation voted to expel Supreme Counsel S. C. Olmstead, of St. Paul, from membership in the order.

It was charged that acting in his official capacity he loaned money of the order on real estate which could not under any circumstances be made to realize the price of the loan. The charge was sustained by a vote of 33 to 2.

The investigation extended throughout the day and until late in the evening. The unusual nature of the proceedings excited attention.

Mr. Olmstead declined to make any statement after the session. Some of his friends were more outspoken, however, and claimed that the investigation was the result of factional differences, that had arisen at the time of the session at Duluth.

The resolution passed by the state court will be forwarded to the supreme court, and in the event it is ratified the exclusion order will become effective.

## HALF DEAD FROM STARVATION

New York, Aug. 28.—Thomas Donohue, 30 years old, who said he had no home or occupation, has been found half dead from starvation on a North river pier. He was so emaciated that he did not weigh it is said more than 60 pounds. He had been

locked in a box fifteen days, he said. The box in which Donohue was found was a large one used for storing sawdust. A watchman discovered the prisoner who was found lying against the door of this cell in an effort to escape. How he got in the box, is not known.

## ARIZONA HAS A BAD STORM

Jerome, Ariz., Aug. 28.—This place has just passed through the worst storm in its history. Water poured down the mountain sides in torrents, depositing debris and boulders in the United Verde plant to the depth of from eight inches

to two feet. A thirty-five foot embankment on the Jerome railroad washed out, which will necessitate the transfer of traffic for several days until the damage can be repaired. The property loss is estimated at many thousands, but no lives were lost.

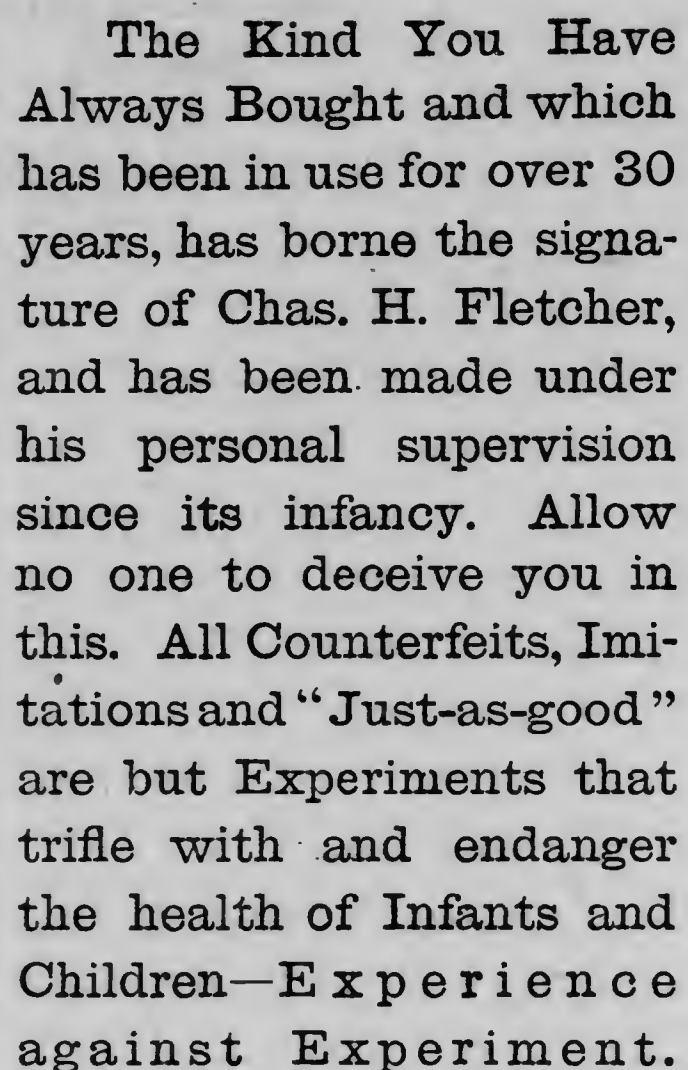

**C**ASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: *First*—The indisputable evidence that it is harmless: *Second*—That it not only allays stomach pains and quiets the nerves, but assimilates the food: *Third*—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—*Hall's Journal of Health.*

**GENUINE  
CASTORIA**  
Bears the Signature of

Dr. W. L. Leister, of Rogers, Ark., says: "As a practicing physician I use Castoria and like it very much."

Dr. W. T. Seeley, of Amity, N. Y., says: "I have used your Castoria for several years in my practice and have found it a safe and reliable remedy."

Dr. Raymond M. Everts, of Santa Ynez, Cal., says: "After using your Castoria for children for years it annoys me greatly to have an ignorant druggist substitute something else, especially to the patient's disadvantage, as in this case. I enclose herewith the wrapper of the imitation."

Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in the heartiest recommendation of Castoria."

Dr. W. F. Wallace, of Bradford, N. H., says: "I use your Castoria in my practice, and in my family."

Dr. Wm. I. McCann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine and aside from my own family experience, I have, in my years of practice, found Castoria a popular and efficient remedy in almost every home."

Dr. Howard James, of New York City, says: "It is with great pleasure that I desire to testify to the medicinal virtue of your Castoria. I have used it with marked benefit in the case of my own daughter, and have obtained excellent results from its administration to other children in my practice."

Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."

Dr. B. Halstead Scott, of Chicago, Ill., says: "I have prescribed your Castoria often for infants during my practice and find it very satisfactory."

Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that I so fully place."

Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."

Dr. Channing H. Cook, of Saint Louis, Mo., says: "I have used your Castoria for several years past in my own family and have always found it thoroughly efficient and never objected to by children, with good consideration in view of the fact that most medicines of this character are obnoxious and therefore difficult of administration. As a laxative I consider it the peer of anything that I ever prescribed."

Dr. L. O. Morgan, of So. Amboy, N. J., says: "I prescribe your Castoria every day for children who are suffering from constipation, with better effect than I receive from any other combination of drugs."

Dr. H. J. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. Wm. L. Bosserman, of Buffalo, N. Y., says: "I am pleased to speak a good word for your Castoria. I think so highly of it that I can only recommend it to others, but have used it in my own family."

Dr. F. H. Kyle, of St. Paul, Minn., says: "It affords me pleasure to add my name to the long list of those who have used and now endorse your Castoria. The fact that the ingredients being known through the printing of the formula on the wrapper is one good and sufficient reason for the recommendation of any physician. I know of its good qualities and recommend it cheerfully."

# ASK YOUR PHYSICIAN

# EAGERLY SCANNED EVERY BY THE LARG- EST AUDIENCE OF READERS at the Head of the Lakes---The Duluth Evening Herald's Want Page.

## FOR SALE--REAL ESTATE.

TWO CENTS.

## COLOMBIA IS ANGRY

**Demands Explanation of Nicaragua's Action.**

**To Back the Demand With An Aggressive Force.**

Washington, Aug. 28.—Colombia will formally demand of Nicaragua an explanation in regard to the latter country's alleged participation in the revolution against the Colombian government and lack up her demand with the most formidable land and naval forces she can muster, as soon as the present rebel activity on the isthmus has been crushed. Information to this effect was received from an authoritative source in Washington today.

The above intelligence caused considerable surprise in diplomatic circles, but a few weeks ago it was announced that Mr. Concha, the Colombian minister and Mr. Corea, the Nicaraguan minister, had established an entente cordiale between their respective governments; that by-gones were to be regarded as by-gones; that the time was ripe for a satisfactory understanding by the two governments. It is now learned that the initial move toward the establishment of an amicable understanding between Nicaragua and Colombia was made by Mr. Corea, who also proposed to Mr. Concha an adjustment of the difficulties which have so long been pending over Colombia's claim to the ownership of a strip of what is

claimed by Nicaragua to be part of her coast line. Minister Concha declined to accede to the latter proposition, declaring that a claim which Colombia had brought forward for so many years could not be adjusted, or, in fact, brought to any material degree toward adjustment by the methods suggested by the Nicaraguan minister. However, Mr. Concha was entirely willing to join Mr. Corea in the establishment of an entente cordiale.

Shortly after Minister Corea arrived in Nicaragua, where he went some weeks ago on leave of absence, the Colombian officials here, it is stated, received information to the effect that arms and ammunition for the Colombian rebels on the isthmus were being shipped from Colombia.

It is not anticipated that the affair will lead to an actual war with Nicaragua, but nevertheless Colombia is making preparations to back up her representations with a reinforce army and navy. It develops that the purchase of the well known ship Seattle, as well as several prospective purchases of war ships for the Colombian navy have Nicaragua rather than the present troubles on the isthmus in view.

## NOT FROM OPERATORS

**Adjutant General of West Virginia on Hand to Preserve Order and Not Take Instructions From the Coal Companies.**

Charleston, W. Va., Oct. 29.—When the state troops reached Thurmond to preserve order and protect property in the mine region a request was made of Assistant Adjutant General Watson in command, to report to the operators at Rush Run for instructions. He refused point blank and said he was there with troops to act under instructions from the sheriff of the county to preserve order and not to take instructions from operators. Sheriff Daniel then took three companies and

the signal corps to Rush Run to guard the public roads and protect people. The remainder of the troops bivouacked at Thurmond. No outbreak of any kind occurred today. The governor's private secretary, Gen. Boggs, reported to the governor at noon that the utmost quiet is prevailing, but he confirmed the necessity for troops on the ground. The entire strength of the regiment now at Thurmond is not known. It would be entirely inadequate in case of violence. The output in the New River field yesterday was thirty-eight hundred tons, about one-tenth of the usual amount.

## TRYING TO STOP FIGHT

**Letter to Henry Watterson From Connecticut Suggests That the McGovern-Corbett Mill Should Not Be Allowed There.**

New Haven, Conn., Aug. 28.—An open letter in regard to the proposed contest at Louisville, Ky., between Terry McGovern and Young Corbett, was sent today to Col. Henry Watterson, of Louisville, by S. E. Thrasher, of this city, secretary of the Law and Order League of Connecticut, and the agitation against it together with the measures taken to prevent the intended meeting between McGovern and Corbett at New London.

The letter suggests that Louisville should not be regarded as a dumping ground for pugilists shut out from New York City. It is suggested that the McGovern-Corbett fight should be held in some place where it would be a fair prize fight, and that the McGovern-Corbett fight should be held in some place where it would be a fair prize fight, and that the McGovern-Corbett fight should be held in some place where it would be a fair prize fight.

## GIVE FAIR HEIRS A MILLION

San Francisco, Aug. 28.—By the terms of the agreement made between the heirs of the late Mrs. Charles L. Fair and Mrs. Herman Oelrichs and Mrs. W. K. Vanderbilt, Jr., the former are given more than \$1,000,000. Of this sum \$300,000 in gold coin has been paid by Herman Oelrichs, on behalf of his wife and sister-in-law, to Mrs. Nelson. The money was deposited in the First National bank, where it now stands in the name of Mrs. Nelson. Within a month the balance will be handed over to the heirs of Mrs. Fair, who will

have in their own right more than \$1,000,000. In addition to this amount there is still a considerable sum represented in the personal property of the late Mrs. Charles L. Fair, the value of which cannot be determined until her estate is appraised. It is, however, estimated by both parties to be worth between \$500,000 and \$600,000. According to A. R. Cotton, attorney for Mrs. Nelson, the personal property will be distributed by the probate court in four months. This is the settlement made by the heirs, as stated by Charles J. Smith and Abraham Nelson, brothers of Mrs. Charles L. Fair.

## HELD UP CHIEF OF POLICE

Spokane, Wash., Aug. 28.—Chief of Police Reddy was a passenger on a street car that was held up last night by a highwayman. The car, on the Astor street line, had stopped for a railroad crossing when a man, who was armed with a revolver, in each hand, jumped aboard and compelled the conductor to give up the cash. Then

brandishing his long gun he commanded the passengers to contribute. Chief Reddy says he was unarmed and says he was powerless. Twenty minutes later another car in the neighborhood was halted by a masked robber, but the notorman threw on full throttle and the car ran by the thief.

## POWER CASE ENDS ABRUPTLY

New York, Aug. 28.—The hearing before Special Examiner Mabey in the Peter Power suit, brought to prevent the turning over of the stock of the Northern Pacific railroad to the Northern Securities company, was brought to an abrupt conclusion today when D.

W. Guthrie, counsel for the railroad, interested, asked for an adjournment sine die. No testimony was taken today. Under the ruling of the court the testimony taken in the case has to be filed with the clerk of the United States circuit court in Minnesota on Monday next.

## WITH CLUBBED GUNS

**And Fixed Bayonets Soldiers Resisted a Strong Attack By Strikers.**

Tamaqua, Pa., Aug. 28.—In an encounter between troops and strikers at Lansford this morning Capt. W. H. Hein of Company K, Twelfth regiment, was slightly injured. A half dozen strikers were bayoneted by the soldiers as a result of the fracas. Maj. Gearhart, in command of the troops here, states that he will appeal to the military authorities to put the town of Lansford under martial law.

From daybreak the troops were active in quelling disturbances and protecting non-union men while on their way to work. As has been the case for the past few days, the troops were loosed wherever they went. The officers repeatedly admonished the crowds not to insult or molest the soldiers, but their words had but little effect.

At 5 o'clock Companies K and F were placed in two tritoy cars. One of the cars was run in front of the car which carried the non-union men to work and the other in the rear. While passing through Coaldale and Lansford the soldiers were hooded.

At Summit Hill about double the usual number of men availed themselves of the protection of the soldiers and went to work. The pickets of the strikers made efforts to stop them, but the warnings of the soldiers held them at bay. When the workmen had been loaded onto the cars the return trip through the valley commenced. The word that more men than usual was reported for work spread through the lower part of the valley, and in a short time the streets were almost packed with people. When the corner of Center and East Berth streets was reached the cars stopped to allow several non-union men to get off. As the men stepped to the ground the mob made a rush for them. A half dozen soldiers sprang off the car and with leveled guns forced the strikers back

and made a passageway for the non-union men. When the soldiers returned after escorting their charges to a place of safety, the mob commenced to close in around the cars. The strikers were in an ugly mood, and when ordered to disperse, merely yelled louder and pressed closer. As Capt. Hein of Company K was about to jump from the car he was seized around the legs and thrown to the ground. A half dozen strikers followed him were roughly handled. One of the men had a portion of his shirt torn off, and, according to the enlisted men and the officers, a number of blows were struck. Maj. Gearhart, who was in command of the two companies, then ordered his men to dismount.

With clubbed guns and fixed bayonets the soldiers forced the crowd back. Many of the strikers stood their ground and would not move until the soldiers jabbed them with their bayonets. Some of the strikers, fearing that the troops would fire rushed into the opera house on the corner, and for a time a wild scene of confusion reigned. In about five minutes the crowd had been pushed back to the curb. In the melee several of the strikers were knocked down, while others suffered slight wounds. Capt. Hein was severely bruised by his fall.

Last night a carload of timber which was standing on the Lehigh Coal and Navigation company's tracks at Summit Hill was started down the steep stretch of road which leads to Lansford. The car leaped the track at a sharp curve and was hurled to the bottom of a mine branch. At midnight the Governor's troop, Capt. Weaver, was sent to Summit Hill to protect the home of William Henry, a non-union man. It was reported that the strikers were firing on the house. A part of the troop remained on guard there all night.

Wikebarre, Pa., Aug. 28.—Serious trouble was threatened at the Prospect and Dorrance mines of the Lehigh Valley Coal company this morning. The strikers heard a rumor last night that the company intended to concentrate all its employees at the various mines into one working force and operate the Dorrance colliery. It is said the company has, all told, about 250 experienced men in its employ. If this number be placed in one colliery, like the Dorrance, the mining of coal could go on without difficulty. The strikers determined to frustrate the plans of the company, if possible, and it is claimed that over 1000 men turned out and patrolled the roads leading to the mines. The officials of the coal company recognized the serious condition of affairs, and Sheriff Jacobs was routed out of bed at an early hour. He went to the scene accompanied by a large number of deputies, but no attempt was made to place any additional men in the Dorrance mine this morning, and the strikers made no demonstration, many of them withdrawing to their homes.

## PREPARING FOR WAR

**Big Fleet of Warships Is Getting Ready For Mimic Fight With Army.**

On board the United States steamship Alabama, off Menomasha light, Martha's Vineyard, Mass., Aug. 28.—With the first period of the war maneuvers in which the white squadron is to contend against the army, arranged to begin at midnight tonight, this day was the scene of much activity on board each warship of the fleet. Just when the battleships, cruisers and other boats will leave this anchorage is not known, except possibly by Rear Admirals Higginson and Coghlan, the officers in command. Although the period which starts at midnight is known as the period of preparation, it is believed that very soon after the opening hour will get under way and proceed to an investigation of the situation in the "enemy's" country. It is understood that during the period of preparation there may be actual bombard-

ment or feints, for the purpose of testing the efficiency of each part of the line of forts.

The squadron was augmented last night by the arrival of the converted yacht Mayflower, the Gloucester and the Leyden.

The 250 or more marines, who have been camping on Martha's Vineyard returned to their ships today. Tests have been up since Monday and the shore service has put the men in excellent condition. The army observers who are to co-operate with the navy umpires in rendering decisions as to the results of the various maneuvers also joined the fleet today. About fifteen observers were reported in all, and under orders from Admiral Higginson they were distributed among the various ships.

In the midst of the preparation today a 3-mile boat race, arranged as a pleasant recreation for all before the beginning of "hostilities," took place between crews from the Massachusetts and Kearsarge. The race went to the Massachusetts, though the winning crew was only a quarter of a length ahead. The scene at the finish of the race almost rivalled a university regatta.

## ORE PRICES ADVANCED.

Cleveland, Aug. 28.—The Iron Trade Review says: Prices of non-Bessemer ore have advanced from 20 to 25 cents per ton and an advance in Bessemer ore is expected. Sales are in large, but there is a fair demand for this time of year. It is expected that the shipment of ore will be about 400,000 tons. Dispatch at present is slow. The secretary of the Lake Superior union has announced that beginning Sept. 1 wages will be generally advanced on vessels all over the lakes. The demands of the men will be granted. As predicted last week, the rate of 30 cents from upper lake ports has not been established by vessel men, but the 30-cent rate from Escanaba is maintained.

## BIG STRIKE.

**Eighteen Hundred Men Go Out at Lebanon Plant.**

Lebanon, Pa., Aug. 28.—A committee of striking employees of the American Iron and Steel Manufacturing company, called at the office of General Manager Lord today and demanded that the colored non-union workmen from Reading and other places who had been sent here be removed and the old hands be taken back. This was refused. The committee then returned and reported the matter to their leaders and a few moments later the men still at work some 200 were told to come out. The order was obeyed almost to a man and promptly carried a small American flag. When the men filed out they were greeted by their friends on the outside. In the crowd were a large number of women. Much excitement of a subdued character followed the action of the men. Only the foremen of the different departments and a few blacksmiths remained at work. The plant, when in full operation, employs nearly 3000 men and boys. When the first strike occurred, sixteen weeks ago, about 800 men quit. The others remained at work. Now the plant is left with the exception of that portion manned by the newcomers.

## SPRECKELS' SCHEME.

Ottawa, Ont., Aug. 28.—Letters of incorporation have been granted to the Federal Sugar Refining company, with headquarters in Montreal and a capital of \$5,000,000. The applicants were Claus A. Spreckels, William Cook, of New York; R. B. McGibbon, T. Chase (Cashier), and E. F. Survevor, of Montreal. The chief feature of Mr. Spreckels' scheme is the purchase of the sugar refinery in Montreal controlled by Senator Drummond and the Redpath estate and the establishment of a refinery in British Columbia.

JOHN CLEVELAND OSGOOD, WHO DEFEATED JOHN W. GATES IN THE BIG COLORADO FUEL AND IRON DEAL.

## MULES ARE RETURNING

**Significant Movement of the Coal Operators.**

**Indications That Mines Will Soon Resume.**

Philadelphia, Aug. 28.—While both mine operators and officials of the United Mine Workers state that the strike situation in the anthracite field remains unchanged, it is evident that there is greater activity at present in the coal region than at any time since the inauguration of the strike. Coal is daily being shipped from various sections of the field, and several washeries are in operation. It is also known to be in operation.

It does not follow, however, that any of the companies are cutting coal. When the strike was declared a large quantity of cut coal was left beneath the surface by the special deputies, foremen and others employed about the collieries during the progress of the strike. It is also said that big coal-carrying reserves are now drawing on their reserve supply to satisfy the more pressing demands.

The Pennsylvania rail-road, through its selling agents, has been sending out shipping small quantities of coal almost daily since the strike began, securing its supplies from some 60,000 tons in storage. This supply has been exhausted, however, and what little coal the company is now sending out is being shipped back to the coal regions. The return of many mules from pasture to the mines. Hundreds of mine mules were taken to the Lancaster and Chester counties soon after the strike began and put out to graze. These are now being shipped back to the coal regions, of oil a day.

On the other hand, reports from the Schuylkill region, where the Reading company's mines are located, state that the shipments of anthracite from that section are daily increasing. Within the past few days 500 cars of hard coal have passed through Reading. It came from the washeries and the storage yards at Landingville and St. Clair. The washeries established along the Schuylkill river in Northern Berks and Lower Schuylkill counties are in operation night and day, and as high as 100 cars are shipped in a day. What is considered a significant move on the part of the operators is the return of many mules from pasture to the mines. Hundreds of mine mules were taken to the Lancaster and Chester counties soon after the strike began and put out to graze. These are now being shipped back to the coal regions, of oil a day.

## LARGEST IN THE FIELD

**Ex-Senator Towne Is Arranging an Amalgamation of Oil Companies, Making the New Concern One of Large Operation.**

St. Paul, Aug. 28.—A Pioneer Press special from Beaumont, Texas, says: Ex-Senator Charles A. Towne arrived here direct from New York, and was in a conference a day with Governor Joseph S. Hogg and other members of the Hogg-Swayne syndicate in an effort to close up the amalgamation of the Export Oil and Pipe Line company with some companies owned by the

Hogg and Swayne people. It is the purpose to elect Hogg a director of the Export company, of which Mr. Towne is president, and to make the company the largest in the field, with twelve mills in operation. The new company will utilize most of its products in furnishing the Country Asphalt and Refining company, of which Senator Towne is the head, with 7,500 barrels of oil a day.

## FELL INTO THE SUBWAY

**Public Automobile Pitches Thirty Feet Into a Big Hole on Broadway, New York, Fatally Injuring the Chauffeur.**

New York, Aug. 28.—A heavy public automobile fell into the Rapid Transit subway in Broadway between Forty-third and Forty-fourth streets, falling thirty feet and flinging the chauffeur, Edward Morris, into the trench. Morris was internally injured and will die. Some witnesses said that a Broadway car crashed into the automobile and jammed it into the subway.

Morris was driving along Broadway, when he saw the car bound northward. He tried to swing out of its way, but as the machine crossed the track the rear wheels slid on the rails. Morris was then alongside the subway, and the machine careened, then tilted and went over with a crash into the darkness below. Hundreds of people from the theaters and dinner several restaurants gathered about the trench. Workmen in the tunnel at Forty-second street ran up the subway and the trucked automobile first, and then saw Morris in agony twenty feet away. Four workmen carried him to Forty-second street, and he was hoisted to the street level. By this time nearly 3,000 people, men and women, had gathered about the trench. They leaned against the railings with such force, that timbers cracked. The women screamed with fear and with their escorts fled for safety, but nothing serious occurred.

## MYSTERY CLEARED UP

**Man Who Was Supposed to Have Been Murdered Thirty-Three Years Ago Has Been Living in Minneapolis.**

New York, Aug. 28.—Mystery surrounding a supposed murder, believed to have been committed near here thirty-three years ago, has been cleared up, says a Watertown, N. Y., dispatch to the Herald, by the discovery of the "victim," hale and hearty, in Minneapolis, Minn. He is now on his way from that city to join the remaining members of his family. Thomas Frederick was a lad of 15 thirty-three years ago when he was

employed on the farm of Charles Pickett, near Redwood. After a dispute over milking, Pickett knocked the boy down. Frederick disappeared. There were no witnesses of the occurrence and no arrests were made. Pickett grieved over the suspicion directed against him and died a few years later. His widow survived him only a few years. The boy's parents also are dead and his brothers and sisters only recently learned of his whereabouts through a letter which he had addressed to the postmaster at Redwood.

## CARMEN WILL ARBITRATE

Chicago, Aug. 28.—By a unanimous vote the members of the street car men's union of the North and West sides last night decided to submit to arbitration their differences with the union and consolidated traction companies. Attorney Clarence Darrow was named as arbitrator of the union. The conduct of the entire matter was

left in the hands of the executive committee, which will meet today to draw up the schedule of grievances to be submitted to the board of arbitration. President John Roach of the street car lines will select an arbitrator for the company and the two will name the third member. The time and place for the meeting of the board will then be arranged.

Monday is Labor Day, and in honor of the day, this store will be closed so that all our employees can take part in the celebration.

**New Fall Hats**  
Union Made  
\$1.50 to \$3.50  
Open Saturdays Until 10:30 p. m.

**New Fall Shoes**  
Union Made  
Price is \$3.50  
Open Saturdays Until 10:30 p. m.

M. S. BURROWS.

## The August Clearance Sale Ends Tomorrow Night. That's Positive! Your Last Chance.

This great clearance sale of ours—the greatest sale of the season—is scheduled for only one more day. Saturday night ends August—ends the summer, commercially speaking—and we must immediately give our attention to the presentation of the Fall stocks. But for your part, there are many weeks of service for these sacrificed lines ahead of you yet.

It is studying the truest economy to take advantage of a saving of nearly half the regular price—which is what you actually do save. While naturally, sizes are broken, the values stand out as incomparable as Burrows values always do. Every department contributes its quota to this sale.

## Men's Suits

Your Choice of Any Summer Suit—the finest imported and domestic worsteds, chevots and tweeds—suits that sold earlier at \$22 and \$25—pick out the best in the lot for

**\$14.55**

Your choice of 1000 Men's fine union made summer suits—perfect fitting—that sold earlier for \$10 and \$12—the best now.

**\$5.55**

Your choice of 600 Men's Summer Suits—Tweeds, Scotch and Cassimeres, faultless in finish—tailored to a turn. Sold earlier for \$16.00. Now selling at

**\$9.55**

**New Fall Styles**

Trousers, worth up to \$5.00, for **\$3.33**  
Trousers, worth up to \$4.00, for **\$2.22**

Burrows Regent Shoe for men and women; unionmade; fall styles now ready

## PIE A LA PUMPKIN

The Crisp, Spicy, Luscious Dessert Is Now In Order.

First of Yellow Fruit of the Fields In Market.

Sweet Potatoes Also Arrive From Jersey and Virginia.

New varieties of vegetables have appeared in the market during the past week.

The first of the pumpkins were received and the day of the pie like mother used to make is upon the land. The pumpkins are Minnesota grown and are selling on Michigan street for \$1 to \$1.25 a dozen. The size of the vegetable is responsible for the difference in the price.

Sweet potatoes are in and with them come small pickling onions and green peppers. The best sweet potatoes from Jersey are selling for \$6 a barrel, while the Virginia grade is \$2 less. The Jersey potatoes are the best grown. The price is about normal for the opening of the season. They will get some cheaper, but not a great deal. Green peppers can be purchased from the commission men for 30 cents or 31 per bushel. The Italians use many of them and a favorite way of serving them is after pickling.

While cucumbers can be purchased for less money than they could a week ago there is also a higher grade. They are selling from 60c to \$1.25 a bushel. There seems to be no way of checking the decline in potatoes. Three cents more were topped off the selling price this week and they are now obtained by the storekeepers for 32 cents a bushel. There is no question that the potato crop this year is a bumper one and the people will be benefited generally. It is not expected that the price will go any lower, but there is no telling where it is going to land.

Some fruits are missed in the market this week. While a bad apple in price is noticeable in the others. Those who have bid farewell are California apricots and lemons and pineapples. California peaches are selling from 55 cents to \$1 per box, and plums are being sold all the way from \$1.10 to \$1.40. Spring chickens, which have been soaring only in the high places for the past few weeks, had a kink put in them during the last couple of days, and a drop of 4 cents a pound is noted. On Monday they declined from 15 and 17 cents to 13 and 14 cents, and yesterday they fell off another cent. The reason is given that the farmers are now saving their hens to relieve the egg market and shipping springs almost entirely. Eggs are selling at 17 cents, a cent lower than last week. Mutton took a drop of one-half cent the first part of the week. It is now selling at 17 cents. Pork chops also dropped a little, going to 11½ cents. No change is noted in the beef prices, but quoted here is rather low for a pound by the packing houses. However, the beef for the most part being received here is rather low for a pound by the packing houses. No change of that kind has been noted by the retailers although the wholesalers say that it should come. But little corn-fed beef is being received now and what there is comes high.

mand for coal mining in North Dakota. This is practically a new order, for while there have been demands from North Dakota for men for the harvest fields or for railroad contract work. The National Employment agency of this city has received an order for 10 men to mine coal, but owing to the scarcity of men great difficulty is encountered in filling the order.

Yesterday one of the representatives of the employment company returned from Sault Ste. Marie, Mich., with a crew of thirty men that has been forwarded to the North Dakota mines and others were to be sent today. The Italian laborers have been engaged in the work on the Clergue power canal and with the completion and operation of the canal they were out of work. This class of men is said to make good mine workers and the Great Northern Railway company, which has had several hundred Italians engaged in building new tracks at various points in Minnesota.

## TALK TURKEY.

The Freimuth Ball Club Speaks Directly to West Duluth Team.

The West Duluth team must either play ball or keep quiet, according to the Freimuth team.

The keen rivalry between the West Duluth and Freimuth baseball teams over the local championship and the attendant charges, recriminations and customary bluffs fairly reached a climax today when Manager Sattler of the Freimuth team issued a blanket challenge to play West Duluth for anything they would have on their backs.

In speaking of it Mr. Sattler said to The Herald: "The West Duluth suggestion has bluffed at having a game with us all the season. First they wanted to play us, and when we said that we would play for \$200 and the state receipts they made the bluff that it was too late and that they had accepted a game from outside teams."

"Now I understand that they are to play the Hub team. Of course everyone knows that they have a better show of winning a game from any of these teams than they do from us, which accounts for their desire to get out of meeting us. This is the last proposition I shall make to them. We are well enough known to have all sorts of offers to play, having had chances for engagements from St. Paul and Eau Claire, Wis. We can get all the games we want but I would like to give them the drubbing they deserve. We will play them for the above amount and wait them at that. If a game can be arranged for Labor day it will be a good day to let the Duluth public see what a first class ball team can do to a lot that are depending on their bluff and nerve to carry them through."

## The Alaska Central Railway

5 per cent preferred stock, now \$10.00 per share. It stands the record for the highest investment and will earn a fortune to those owning stock. Fully will be paid the coming spring, being the first railroad to open the United States Alaska to civilization. Buy now. For official information inquire of CLAS. B. ASKE, 16 East Superior street. Both phones 23.

## Benefit For Y. W. C. A.

Below is the program which will be given for the benefit of the Young Women's Christian association. Saturday evening at the First Presbyterian church. A good attendance is assured on account of the high rank of all who take part as well as the worthy cause for which the concert is given. The program follows: Piano duet—Ballet music, Misses Kowalewski and Miss Peck. March—Waltz, Misses Kowalewski and Miss Peck. Aria for tenor—"Lord, Let Me Tell Your Aids."

John H. Martin. Reading—"The Song of Autremont."

Contralto songs: "And Me to Live," Misses Kowalewski and Miss Peck. "The Daisy Chain," Misses Kowalewski and Miss Peck. "The Daisy Chain," Misses Kowalewski and Miss Peck.

March—Waltz, Misses Kowalewski and Miss Peck. March—Waltz, Misses Kowalewski and Miss Peck.

March—Waltz, Misses Kowalewski and Miss Peck. March—Waltz, Misses Kowalewski and Miss Peck.

March—Waltz, Misses Kowalewski and Miss Peck. March—Waltz, Misses Kowalewski and Miss Peck.

## CANDIDATES AT THE PRIMARY ELECTION.

**For Auditor.**

ODIN HALDEN. The present county auditor, announces that he is a candidate for re-nomination at the hands of the Republican voters of St. Louis county at the primary election to be held Sept. 16. During his services as county auditor he has made a record as a careful, conservative and reliable official, one who has done what he thought to be right without fear or favor, and in asking the voters to support him at the primary election he rests his claims for support upon that record.

**For Register of Deeds.**

L. M. JOHNSON is a candidate for Register of Deeds. He is a member of the Typographical union, and is prominent in the West End of the city. He is a Swedish-American, and if nominated will bring strength to the ticket.

**County Supt. of Schools.**

SUPERINTENDENT ANDREW T. PARK asks your vote, Sept. 16, to make him the Republican nominee for county superintendent of schools.

**For Sheriff.**

JOHN T. ALLEN is a candidate for the Republican nomination for sheriff at the coming primary election, and solicits the favor of voters on the ground that he always has been a consistent Republican.

JOHN R. MEINING is a candidate for the Republican nomination for sheriff, and solicits the votes and support of all Republicans on his record as a persistent worker for the party and competent business man.

OLE LARSON is a candidate for the Republican nomination for sheriff, and is the choice of the labor organizations for this office. Vote for him Sept. 16.

WILLIAM J. BATES, of Duluth, at the earnest and long-continued solicitation of his friends, has become a candidate for the Republican nomination for sheriff of St. Louis county, and has signed as deputy sheriff to enter the race. If he is nominated and elected he will devote his personal work to the discharge of the duties of the office, something that has not heretofore been done.

**For County Commissioner.**

LOUIS B. HELDING announces his candidacy for the Republican nomination for county commissioner in the Second district. If nominated and elected, he pledges himself to devote his attention to a careful, economical and judicious administration of the county's funds, that the best results for the people may be secured with a minimum expenditure of public money.

## GROOM QUILTS

**Bride at St. Paul After Marriage Ceremony Was Performed.**

St. Paul, Aug. 28.—The girl's insane, and only a short time ago tried to commit suicide by cutting her throat, she has no right to marry. This was the statement made to the marriage license clerk in the clerk of court office yesterday.

Lavene A. Clark, when application was made for a license to the marriage of herself to Miss Nettie Brown.

Then the prospective bride, who was accompanied by her attorney, stepped up to the window to explain.

"I never was crazy," she said, "but once I got drunk and my sister had me put in jail for seven days. While I was drunk I might have tried to kill myself, but I wasn't used to drinking and didn't know what I was doing."

Then the attorney paid for the marriage license and the trio went over to the office of Justice of the Peace Mills, who performed the ceremony.

The groom was attired in his working trousers, was minus his coat and vest, and wore his hat during the ordeal.

As soon as the justice pronounced them man and wife Clark said he must get back to his work, as he had already lost too much time over his monkey business.

He left the room and his bride without having spoken to her during the entire time. The bride left the scene of her wedding unattended.

The contracting parties are young people, both of whom recently came here from some town in Wisconsin.

Brown said her ex-husband had transferred his affections to another girl since coming to St. Paul, and she was bound he was to marry her no one but her.

Our bodies are protected, the face and hands neglected, no wonder the complexion proves, rosy, clear, using Satin-Skin Cream and Satin-Skin Powder. 2c.

## WAS MODEST.

**A Crazy Man Asked Station Agent For \$80,000.**

Eighty thousand dollars was the modest sum Peter Homberg demanded of the station agent at Iron Junction yesterday. The railway man was undecided just what to do, but came to the conclusion that he had better humor him. Homberg was strong in his demand, but instead of giving him the money the agent went to the telegraph instrument and sent a call in here for an officer. Deputy Sheriff Magle was aboard the train going to Excelsior and he stopped off and got the man, bringing him to this city. Homberg will appear in probate court today as to his sanity, when he will be called upon to explain what his claims were to the \$80,000.

**NEW WEATHER MACHINES.**  
Several Devices With Long Names Being Installed.

Most of the new apparatus for the experimental weather station has arrived, and it is expected that the station will be in operation within a month. All of the apparatus has not yet been received, owing to the fact that it can be put out it will be shipped here.

Among the fixtures already received are several thermometers, an anemometer,

an instrument for recording the velocity of the wind, and a thermometer, which records automatically the temperature of the air by tracing lines on paper.

Within a few days it is expected that a ceranograph, or lightning recorder, will be received. This, however, will be placed in the weather bureau in the federal building and not in the experimental station.

## POISON IVY.

**Many Met It on Minnesota Point This Year.**

It is claimed that fully twenty to twenty-five people at the head of the lake are suffering this summer from the effects of poison ivy encountered on Minnesota Point. Every year there is more or less complaint of the poison ivy on the city's health resort and pleasure grounds, but this year the complaint is more numerous than in any other year. Several parties of late have been well peppered with the irritation resulting from the plant. Particularly in this case the case in West Superior, where most of the people visiting the point have picked up the lower end of the plant. Several parties of late have been well peppered with the irritation resulting from the plant. Particularly in this case the case in West Superior, where most of the people visiting the point have picked up the lower end of the plant. Several parties of late have been well peppered with the irritation resulting from the plant. Particularly in this case the case in West Superior, where most of the people visiting the point have picked up the lower end of the plant.

known, but several of them are now under the treatment of the city physician. Some people are more susceptible to the effects of poison ivy than others and numerous instances might be cited where one person has handled the plant with impunity, while another has been put under a doctor's care from the mere brushing of an ankle while passing through poison ivy plants.

Means of riding the point of poison ivy has been discussed time and again by the regular campers for the reason that the pleasure of those with families is spoiled all summer for fear that children will get next to poison ivy. Not many plants would thrive in the sand of Minnesota Point, but poison ivy seems to be one of those specially adapted to that kind of soil.

**FAVORS CONNORS' POINT.**

**Superior's New City Dock May Be Located There.**

The committee appointed from the One Hundred Thousand club of West Superior, to locate a site for a city dock, favors a location on Connor's Point, on Superior bay. The site in question is just northwest of the West Superior lumber company's sawmill, and it is 100 feet long and 50 feet wide, extending some distance into Howard's pocket, where the shipyards are located.

The site is owned by the defunct Bank of Superior, which owes the city \$400, and it is thought the claim against the bank could be turned over in part payment and the city would need to expend but \$500 in cash.

The proposition of the committee is that with a city dock at the location named, boats coming to Duluth through the Duluth entry could also run to the West Superior dock, without the need of tugs and without passing any bridges. Then, if desirable, they could leave the harbor by way of the Superior entry. At the present time any of the boats to reach points in St. Louis bay have to pass through one of two bridges.

Another advantage that a city dock at

the site selected would be to the people of Superior would be a regular ferry service to Minnesota Point. This service would be assured providing a city dock is established on Superior bay with facilities for people to reach it. Certain Duluth parties are already figuring on a large ferry steamer for service between Duluth and Park Point, providing good dock facilities can be secured on the Wisconsin side of Superior bay.

## HE OBJECTS.

**Sheriff Sommer May Test Change to Salary Basis.**

Sheriff Sommer, of Douglas county, Wis., does not take kindly to the action of the county board in fixing his salary at \$200, and it is understood that he will bring suit to test the legality of the board's action.

The sheriff was receiving but \$100 a year in salary, but he received fees for work outside the state that would bring his compensation much above \$200. Under the salary arrangements adopted under the board, the sheriff will now be cut off from the fees for service outside the state. Many members of the board are not adverse to having their proceedings taken to the supreme court for a decision, for there has been a difference of opinion among the Douglas county lawyers as to whether the action of the board was legal or illegal.

One of the points raised is that the law of 1901 only provides for changes to a wholly salary system where the county sheriff on a fee system, and that Douglas county heretofore has paid the sheriff a salary for the work done within the county. Another point is that the law of 1901 compels that when the salary is fixed, under such salary must cover not only the services, but also the expense of the office.

## COAL MINERS.

**A New Field of Work For Duluth Laborers.**

There is a much wider range to the demand for labor in the Duluth market this year than formerly. Every year new localities in the Northwest are reached through the medium of the Duluth and Superior docks, providing good dock facilities can be secured on the Wisconsin side of Superior bay.

At the present time there is a large de-

mand for coal mining in North Dakota. This is practically a new order, for while there have been demands from North Dakota for men for the harvest fields or for railroad contract work. The National Employment agency of this city has received an order for 10 men to mine coal, but owing to the scarcity of men great difficulty is encountered in filling the order.

Yesterday one of the representatives of the employment company returned from Sault Ste. Marie, Mich., with a crew of thirty men that has been forwarded to the North Dakota mines and others were to be sent today. The Italian laborers have been engaged in the work on the Clergue power canal and with the completion and operation of the canal they were out of work. This class of men is said to make good mine workers and the Great Northern Railway company, which has had several hundred Italians engaged in building new tracks at various points in Minnesota.

## DECORATE LABOR DAY

Movement on Foot to Drape Dwellings and Shops.

Considered a Proper Tribute in Labor's Only Holiday.

Outlook Is Most Promising For Labor Day Exercises.

On Labor Day—decorate and celebrate.

A movement is on foot to have dwelling and business houses decorated for next Monday's big union labor demonstration.

The idea seems to be meeting with favor and many dwellings will be swathed in bunting.

Flags on federal, county and municipal buildings will wave the same on Independence day.

This decorating feature will be an innovation in Duluth's annual tribute to the dignity of labor, and one which will be greatly appreciated by the 4,000 or more toilers who consider the day particularly their own.

Henry Dworschak, president of the Federated Trades assembly, and chairman of the general labor day committee, says:

"We request all persons having a flag or a piece of bunting to fling it to the breeze on Labor Day and give to our city the gala day appearance it should have on such an occasion."

"I know of no handsomer compliment that can be paid the wage earners of our city than their only annual holiday, then for the business men and citizens generally to decorate their buildings and dwellings Monday."

"Even if you only have a 5-cent flag, let it be unfurled. We decorate on other holidays; why not decorate on this?"

The outlook for the labor day celebration continues to give the most enthusiastic encouragement to the promoters of the grand demonstration.

Forty-four unions will be in the procession, the average membership of each being 100. Nearly all these unions will be in uniform. There will be plenty of music, the committee having arranged for the Third Infantry band, the Lenners band, the Clouet band and the St. Perkins band.

## FINALS

Will Be Played Between Anthony and Alexander.

Chicago, Aug. 29.—Miss Bessie Anthony, the star golf player of the Glenview golf club, and twice Western champion, will defend her title against Mrs. W. A. Alexander, of Exmoor, tomorrow, in the finals for the championship and Governor's cup, as a result of today's playing in the semi-finals on the links of the Onwentsia club at Lake Forest.

From the start Miss Anthony had everything her own way in her match against Mrs. C. L. Deering, of Midlothian, and she easily defeated her opponent by the generous score of 6 up, 4 to play. Her play was consistently good, having at 9 holes made the lead of 6. Probably more interest centered about the play of Mrs. Alexander, who by no means had as easy a task as did Miss Anthony in taking her match from Miss Louise Gaylord, of Onwentsia, in one up. Miss Gaylord was somewhat nervous early in the game and allowed Mrs. Alexander to get a lead of 4 up at the twelfth hole.

As the match neared the finish Miss Gaylord took a good brace and held Mrs. Alexander to a close score. Weather conditions were perfect and a large gallery followed the players.

## IMPORTANT

Papers Are Presented to League of American Municipalities.

Grand Rapids, Mich., Aug. 29.—The final session of the convention of the League of American Municipalities today was the busiest. Important papers and discussions, elections and incidental business took up the time of the delegates. One of the features of the morning was the paper of City Engineer F. P. Foster of Baltimore on "Street Paving." In it he suggested that the league take action to secure a coming among the cities of the United States against the so-called asphalt monopoly. The plan he proposed was to have the cities fix by ordinance the minimum price to be paid for street paving, as a means of reducing taxation.

Mayor Ignatius Sullivan of Hartford, Conn., advocated municipal ownership of public utilities, especially the street railways, as a means of reducing taxation.

C. E. Campbell of Des Moines, Ia., reviewed the German method of governing municipalities.

A paper on "The Fire Department of Our Cities," read by Fire Commissioner John H. Storch of Baltimore, completed the program of papers and addresses.

## CITY BRIEFS.

Thibault, undertaker, 31 W. Superior St., has a "house culture" class. The first annual reception of the Duluth Yacht club will take place this evening in the auditorium. The club has had a successful season and will hold its summer and autumn regattas in the harbor.

Soft coal will advance next Monday, Sept. 1, according to the Duluth market. It is expected that the price will be 15 cents and Pocahontas 25 cents. The former is the standard and the latter is the standard.

The first consignment of oysters arrived on the market from Baltimore yesterday. The oysters are of the bulk grade and are of the finest quality. They are expected to be a success.

## ORIENTAL ROMANCE

Tale of Will Sing and His Su'a Hop Lee.

They Play an Engagement in Duluth Police Court.

Judge Windom Has Regular Prescription For Wife Beaters.

A slinky little slant-eyed Oriental Mongolian mogul got tangled up in a palpitating police romance last evening.

A breezy, blithesome, blivvy, bubbling, blonde beauty enamored him with one long, lingering, languorous look.

When arrested he told a police lieutenant that his name was Will Sing and that the fluffy person was none other than his Su'a Hop Lee.

The girl, however, with the air of one really imparting information, murmured that she was Emma Anderson.

The Mongolian was inclined to be sentimental about her. When the lieutenant told him that her object was not altogether matrimony, sang he this weird song:

"Not even the sweep of the sharp, snicker-snee  
Can ever dissolve the soul of me,  
From the soul of my beautiful Su'a Hop Lee."

My tea never steams without bringing me dreams  
Of the sweet little, neat little, Su'a Hop Lee.

My dog never flaps, but my mind must relapse  
To thoughts of my Su'a Hop Lee;  
And I never could, not even if I tried.

From a wish to have her for a Chinky-Chink bird,  
And to howl away with my Su'a Hop Lee.

To where the police don't pinch me  
Chinese.

John Hughes came down from Proctor street yesterday to have some teeth pulled. He succeeded in getting himself pulled, and his pull was good for ten days.

William Burns was arrested for endeavoring to rob the nameless man, but he was not having a hot time, burning much of the circulating medium, catching only high elevations, and putting sundry little crimes in society. He did not set the world afire for ten days.

20, and the average date on which the last "killing" frost has occurred is May 6.

The precipitation, consisting of rain and melted snow averages for the month 3.86 inches. The average number of days with .01 of an inch or more is thirteen. The greatest monthly precipitation was 15.52 inches in 1881, and the least was .32 inches in 1892.

The greatest amount recorded in any twenty-four consecutive hours was 2.96 inches, Sept. 24, 1877.

The average number of clear days is the same as the average number of cloudy days—nine—while twelve is the number given of partly cloudy days. Prevailing September winds have been from the northeast, and the highest velocity of the wind was 78 miles from that direction, on Sept. 16, 1881.

The sale is ordered from the department at Washington, and whether a dollar will be realized on it is a question of no interest to the department. The last named might be of some value to the vessel inspectors for years will be brought out and knocked down.

One man said yesterday that he wouldn't give five cents for the whole bunch of stuff, and it is a question whether any outsider who knows their actual value would give any more.

In the steamship inspector's office such articles as these are to be placed upon the block and knocked down to the highest bidder. Auctioneers will be of the interrogations that would be asked.

Then there are several hundred stoves from licenses issued during a dozen years back. The documents are also bulky of no interest and have no intrinsic value. In the customs office passengers lists from boats sailing to foreign ports will be put on auction.

These are also somewhat antiquated and have lain in the store room until covered with dust.

N. A. Lindberg, special deputy collector, will do the auctioneering in his place, as one has been selected to dispose of the trophies hoarded in the vessel inspector's office.

What money is derived from the sale goes to the treasury department and the remainder of the holdings will be burned.

There is another sale scheduled for the latter part of next month, by the federal authorities, that will excite much interest. It is the sale of miscellaneous goods unclaimed or seized by the customs house officials. In the list are a number of bottles of medicine, No. 10, which is a very valuable article.

These are also somewhat antiquated and have lain in the store room until covered with dust.

N. A. Lindberg, special deputy collector, will do the auctioneering in his place, as one has been selected to dispose of the trophies hoarded in the vessel inspector's office.

## THE YACHTS.

### Results of Championship Races Held at Waukesha.

Waukesha Beach, Wis., Aug. 29.—The championship race was postponed yesterday morning until afternoon, and a good breeze having sprung up, the judges decided to hold two races of twice around the course. Breta, of Cedar Lake, took the first event, and Maria, of Pletake, the second.

In class B, the Nokomis, of Geneva, won the first race, and Jim Crack, of White Bear, the second. Summary of first race:

Start class A, at 1:30 p. m., finishing: Breta, Cedar Lake, 2:48:31; Minnow, Oconomowoc Lake, 2:51:08; Aderyn, Pine Lake, 2:52:38; Aspirant, Neauwicksa, 2:56:14; Crusader, White Bear, 2:57:06; Emsworth, Oconomowoc, 2:57:24; Anita, Neomah, 2:58:35; Maria, Pletake, 2:58:49; Caroline, Oshkosh, 3:00:01; Comet, Pewaukee, 3:00:15; Challenge, Spring Lake, 3:04:35.

Class B, start at 1:40, finished: Nokomis, Geneva, 2:59:45; Jim Crack, White Bear, 3:01:19; Sorapis, Pine Lake, 3:01:42; Geronimo, Fox Lake, 3:01:53; Spray, Oconomowoc, 3:03:35; Dora, Pewaukee, 3:04:35.

## ANTI-PALMA

### Papers at Havana Are Opposed to the President.

Havana, Aug. 29.—President Palma finds himself without the support of a single newspaper controlled by Cubans. The editorials published in the Cuban press are, considered collectively, remarkable for their bitterness and outspoken opposition of the chief executive. The only paper which supports the president is the Diario de la Marina, formerly the organ of the Spanish government and at present representing the Spanish colony in Cuba.

One of the principal causes of opposition seems the grant of the Castaneda concession for the establishment of an electric light plant at Havana. This concession has been a subject of bitter discussion in the house of representatives, and some members of the house are demanding Senor Palma's impeachment unless the concession is rescinded.

The impeachment matter has been on the table for the past week. Both houses of congress have become badly disorganized over this question, and

## HIBERNIANS

### Elect Officers of the Fraternity and Insurance Fund.

Minneapolis, Aug. 29.—Both sections of the Ancient Order of Hibernians met yesterday morning in the phoenix club hall, the fraternal order session preceding that of the insurance section. Business was cleared away in time to reach the election of officers last evening.

The election of the regular state officers resulted as follows: J. J. Hegan, St. Paul, president; Judge Moran, Minneapolis, vice president; Thomas Connolly, Minneapolis, state secretary; John Flood, Duluth, state treasurer.

The election of officers of the insurance fund resulted as follows: R. J. Clark, St. Paul, president; Daniel Clark, Brainerd, vice president; John Mahoney, Minneapolis, secretary; John Sheehy, Monticoney, treasurer.

Dr. W. Buckley, of St. Paul, was elected state medical director.

The new directors of the organization are: J. J. Dalley, Minneapolis; John D. Quinn, St. Paul; John McGarry, Sillwater, and P. J. Scallen, Rochester, Minn.

### Butte and Return \$34.50.

Aug. 22, 23, 24 and 25 the Northern Pacific railway will sell tickets to Butte and return for \$24.50 account International Mining congress. Tickets good returning thirty days from date of sale. For full information and tickets call at City office, 332 West Superior street or Union depot.

## COURTSHIP BY WIRE

### That Will End in a Happy Wedding in Chicago.

### Chief Telephone Operator to Wed a Millionaire Doctor.

### Their First Greeting Was of Warm, Wordy Character.

Toledo, Ohio, Aug. 29.—When Miss Mayme Craig, who for the past six months has been chief operator at the office of the Central Union Telephone company here, handed in her resignation this morning to take effect Sept. 1, there was much surprise expressed, but later in the day, when the real reason leaked out, Miss Craig was showered with congratulations. It is said that the physician, who is the wife of Dr. John Sherman, of Chicago, one of the millionaires of the Western metropolis.

The marriage of Miss Craig and Dr. Sherman will take place in Chicago on Sept. 1. The young lady is thoroughly business from the ground up, and will continue to discharge her duties as chief operator of the local telephone exchange until two days before her coming marriage, and immediately upon her arrival in Chicago next Monday will be married to the man whose several months ago.

The story of the first few minutes' acquaintance and introduction between Miss Craig and Dr. Sherman is related by one of Miss Craig's dear friends here, showing that the beginning was not an auspicious one in any means. In fact, the greeting between the two over the wire was of such a warm, wordy character that it threatened to melt the wires. The story is that while Miss Craig was exercising stern authority over a large number of telephone girls in the Chicago telephone exchange, she found one of them wasting the company's valuable time and patrons' patience in a harmless talk with the physician. This Miss Craig, the chief operator, swooped down like a falcon on the luckless phone girl talk, and Miss Craig also took it upon herself to severely chastise Dr. Sherman, whom she did not know at all then, for his audacity in taking up the time of the girl in senseless talk.

The doctor was not tongue-tied himself, and replied with an eloquence that made Miss Craig's ears tingle. Back and forth they went, each insisting on having the last word, and each passing at linguistic arguments, the doctor's curiosity, and beneath all the severity of the exchange there lurked a desire to find out who the girl was that stood on her rights.

It was that Dr. Sherman would call up the chief operator ostensibly to find a person's number, when he could have obtained the information from the catalogue. In course of time the asperity of the first "meeting" wore off, and the talks between Miss Craig and Dr. Sherman drifted away from business affairs gradually, and in due time it came about that the chief operator looked for at least one call a day for information from Dr. Sherman. The information required was of a business nature and soon became a great pleasure to Miss Craig.

In the course of a few weeks' telephone "meetings" a personal meeting between the two was arranged. They met at the home of a mutual friend, and after a formal introduction enjoyed a good laugh at the stormy introduction over the telephone some weeks previously. Then the telephone no longer answered, and the two were in course of time they drifted from telephone operator and physician to lovers, and when Miss Craig left Chicago six months ago to become chief operator of the Toledo exchange she was the betrothed of Dr. John Sherman. She is now going back to fulfill her promise and become the wife of the man she has learned to love.

From an expert telephone girl to the wife of a millionaire, and through all, but Miss Craig has leaped the chasm, and congratulations are pouring in on her in all directions. It is enough that Miss Craig will be succeeded by Miss Nellie Shea, at present traveling assistant service manager of Ohio, with headquarters at Columbus.

And now all the other telephone girls here are wondering if they will meet with as good fortune over the phone as did Miss Mayme Craig in her first encounter with Dr. Sherman.

## NEW INDUSTRY

### Created by Californian For New Orleans Boys.

New Orleans, Aug. 29.—Three weeks ago a man arrived here from California, who visited the several bird fanciers' stores and bought up all the small lizards and chameleons that were for sale. The bird and animal fanciers always carry some lizards in stock, but not many. The visitor announced that he was willing to take all he could get at \$1 per 50. The stock was sold in a few minutes, and the man has set to work to meet the demand by advertising for lizards to catch lizards.

The task is easy enough. There is scarcely a garden in New Orleans but hides hundreds of lizards, and this is especially the case with the groves of the creole section of the city, "down town" as it is called, where the wild wealth of vegetation and the warm sun and the lizards the very home they want. These are wandering about in the tall grass, well concealed, save from the boys, by their colors, for they are brown when on the fence and green when on the bushes. They are an easy mark for any active boy, and perfectly harmless. They neither sting nor bite, but they are very delicate and brittle, especially about the tail, which frequently breaks off in hand, but they do not matter to the boy in the least to the lizard.

Nearly half the boys in "French town" are catching lizards and making good pocket money by doing so. They started at 25 cents a 50 and found many boys willing to catch them at that low figure, but the price has lately gone up to 50 cents a 50.

The reason for the heavy purchase and shipment of lizards to California has leaked out. It is to the pet of the children for the Indian, nor as dainty dishes for the Chinese, but as protectors of the orchards and gardens of the fruit from its insect enemies. The chameleon lives

## Makes New Red Blood—Makes Old Blood Red

**Anker-Pina Colada**  
the Iron food

Crisp, dainty biscuit of selected grain and vegetable elements. With cream or without. In each crumb and mouthful every element of human strength and health. Thoroughly digestible—a food of complete utility.

More than mere cereal. More than meat. More than any other food.

entirely on insects, and is the best insect catcher in the world. Its green color lies on the plant, deceives the average insect, and when it shoots out its long pink tongue, it never fails to hit the mark and capture its prey. To them is also the protection afforded New Orleans gardens from the swarms of insects that prey on the plants.

The value of the lizard in keeping down and destroying insects has long been recognized, and the dealers say they have done a considerable business in lizards for years, particularly in the East.

Found best by test Satin-Skin Cream and Satin-Skin Powder, 25c.

## CHINESE DOCTOR ASSAULT

### Is a Candidate For Governor in Leavenworth, Kansas. Committed By Minister's Son Gets Him Into Trouble.

New York, Aug. 29.—Charged with a murderous assault on Edward Fortescue Wright, inspector general of police, at Montauk bay, Jamaica, B. V. I., Ralph Thompson has been arrested in this city, at the instance of the British government, and is in Ludlow street jail, awaiting extradition papers.

Thompson, a native of Scotland, a minister and was educated in Glasgow. On April 6 there was an uprising in Montauk bay, and during the riot which followed young Thompson is charged with having singled out Inspector General Wright for an attack. Thompson was leading a party of the rioting blacks. In the excitement following the riot Thompson escaped, arriving here on Aug. 19. Dissatisfaction over increased taxation was the cause of the rioting.

PITCHER GETS GAY.  
Chicago, Aug. 28.—Pitcher Virgil Garvin of the Chicago American league baseball team made an attack on a policeman last evening, whom he knocked senseless by a blow with his revolver, with the same weapon he lodged a bullet in the shoulder of Lawrence Flanagan, a saloonkeeper, inflicting a slight wound, and then made his escape. The performance is said to have followed an unsuccessful attempt to borrow money from Flanagan, which was made after a tour of half a dozen saloons.

The Minnesota State Fair  
At Hamline, Sept. 1st to 6th promises to be the best ever held west of the Mississippi river. Good roads exhibition, free wonderful attractions every afternoon and evening, unparalleled list of entries for races, grand exhibition of fireworks every evening. The Great Northern railway will take you from Duluth to the Twin Cities and return, including admission to fair grounds, for \$1.50. Tickets on sale from Aug. 29 to Sept. 8, inclusive. Full information from L. D. Kitchell, agent, Great Northern railway, corner Spaulding hotel.

## Extra Special.

Men's Shirts—Wilson Bros.' \$1.15 | Men's Shirts—Wilson Bros.' 79c  
\$1.50 brand

Store closed all day Monday, LABOR DAY. Every salesman in our store will be in the big Labor Day parade.

See our large east window! Every suit, overcoat, pants, shirt, hat, shoe, vest, and in fact every article in this window bears the union label.

## MONDAY, LABOR DAY, THE DAY WE CELEBRATE!

### THE BEST CLOTHES FOR YOU

There's only one kind of clothes better than ours—made by a few exclusive tailors, \$5 to \$50 for the suit. The average custom tailor—city or country—doesn't make anything to compare with ours. We buy the best fabrics made—all wool—and a lot of them. We examine every garment for flaws. All goods are shrunk three times by a steam shrinking process. The goods are cut to the most perfect designs in the latest styles and tailored by hand—better tailored than the average custom tailor does. We can do it. There are economies in cost at every step; they appear as price economies to you. If you cannot afford the exclusive tailors' prices you cannot afford to miss our quality. Merchants, bankers, professional men, whose good appearance counts considerably for their business, to the ordinary custom tailor, and buy them of up-to-date merchants. New Fall suits, largest assortment at the head of the lakes, of the very best make in America; at from 15 to 20 per cent less than any other store in the city.

### We want every Mother to visit Our Boys' Department

Before purchasing their Boys' Suits, Overcoats, Shoes, Underwear, Shirts, Caps—for we are prepared to supply them all this fall. We have the largest assortment at the head of the lakes, of the very best make in America; at from 15 to 20 per cent less than any other store in the city.

## Kenney, Anker & Denny,

409-411 West Superior Street, Duluth.

## ANOTHER BIG DEAL

Republic and Cambria Companies Buying New Iron Lands.

They Are Said to Contain 15,000,000 Tons of Ore.

Location of Purchases Not Yet Given Out.

Another big mining deal will be consummated within a few days. Negotiations are about closed whereby the Republic Iron and Steel company and the Cambria Steel company jointly acquire new Mesaba properties from which experts estimate that 15,000,000 tons of ore will be mined.

The locations of these properties will be made public till the deal is finally closed but it is currently reported that several Duluthians will share in the wealth materially increased in the transaction.

The Republic Iron and Steel company now has an interest in the Mesaba range and much of it is on the Mesaba range. In his recent semi-annual report to the stockholders, President Thompson announced that it would be the policy of the corporation to acquire the Mesaba range in Minnesota iron properties whenever possible.

The big deal now being closed up is said to cover properties that have never been mined and which have not, it is claimed, been developed by mining men, but have been owned by the Republic company.

The policy of the Republic company to buy Mesaba range property jointly with the Cambria Steel company is nothing new. A few years ago this same concern made a big purchase with the American Steel Hoop company which led to the consolidation of the two companies.

The interests only consolidated to the extent of acquiring the ore property, however.

### AMUSEMENTS.

"THE CONVICT'S DAUGHTER." Very few plays of the present day have jumped into such popularity as "The Convict's Daughter." The play is a complete production of wonderful mechanical devices, startling electrical effects, and a wealth of beautiful scenery, but it is the happy combination of all these that gives the result, and with a cast of unequalled ability an evening's entertainment is an assured fact. Southern homes are noted for their picturesque

## MORE STOCK.

The Illinois Central Railroad Issues a Large Block.

Chicago, Aug. 28.—Stockholders of the Illinois Central Railroad company, at a special meeting in the general offices of the company today, increased the capital stock of the company by an issue of 100,000 shares of \$10 each. This makes the total capitalization of the company \$10,000,000. The new stock is for the purpose of providing the means for further improvement to the company's lines. Two-thirds of the stockholders were represented.

It is understood in financial circles here that the increase may be for other purposes than the track improvements mentioned by the directors. Oct. 15 there will be another meeting to consider taking over many of the roads now leased or operated by the Illinois Central, and it is possible that some of the money raised by the new issue will go for that purpose.

—SI PERKINS.—A traveling drama organization which carries two distinct sets of musicians, a band and an orchestra, must do business and lots of it to keep going. "Si Perkins," the celebrated rural drama has been going for seven years and for seven years has made money for its managers. On next Monday the play will be presented at the Lyceum tomorrow for mad and evening performances.

—DOUGLAS-MAY COMPANY.—Moon Bros' canvas theater held a large crowd last evening to witness the Douglas-May company's presentation of "The Count of Monte Cristo," and with the special scenery carried by the company, a fine presentation was made of it. The play is a story of a man who is wronged and who, after many years, returns to avenge himself. The play is a very popular one and is being given in many cities.

**MUCH WANTED MAN.**  
Many Inquiries Are Made Concerning Watkins.

Billings, Mont., Aug. 28.—Chief of Police Jackson has received a telegram from Chief of Police Charles Elton, of Los Angeles, Cal., asking for Philip D. Watkins, under arrest here on the charge of passing a bogus check. A number of messages of inquiry concerning Watkins have been received from various cities. A letter addressed to Charles Arnold, of the First National bank of Amesbury, Mass., upon which the check cashed in this city was drawn, states that a number of checks have been drawn on that bank throughout the West.

**A Chance to See the Old Folks**  
Sept. 2, 9, 16 and 23 the Northern Pacific Ry. will sell tickets to all points between Chicago and Sandusky, Columbus, Ohio, and Louisville, Ky., at one fare for the round trip, good for returning thirty days from date of sale. ## CALLED ON JURY DUTY

List of Jurors For District Court's September Term.

Calendar Fairly Large and of Some Importance.

Mueller Case Will Come Up Toward the Last.

The September term of the district court begins Wednesday with a fair-sized calendar. There are a number of interesting cases in the civil work, and two murder cases are named with the criminal business. The deputy sheriffs have been busy of late chasing jurors, and the list of those who have been notified to serve is herewith given.

The famous Mueller case, a part of which was heard during the summer, and which was adjourned to September, will come up during the term at a date yet to be fixed. The case of the plaintiffs, who claim the property under the mortgages, and the case of the alleged widow and her children was heard last term, and the cases of the other sets of heirs are due to come up at this term. Four of the attorneys are now in Bohemia getting evidence to be used in the case on behalf of the set of heirs that lives near Prague, Bohemia.

**OUT ON BAIL.**  
O'Brien Pleads Not Guilty to Perjury Charge.

Washington, Aug. 28.—Richard A. O'Brien, formerly corporal in the Twenty-sixth volunteer infantry, who has been confined in jail here accused of perjury during the trial of the late senator Philip Phillips' commission during the last congress, was arraigned before Judge Anderson today. He pleaded not guilty and was released on \$500 bail. His trial probably will occur in October.

**LOUISE RETURNS VISIT.**  
Paris, Aug. 28.—President Louvet paid to him at Rambouillet yesterday and remained at the Persian monarch's hotel for lunch.

St. Paul, Minn.

## FIXED HIM.

Duluth Travelers Repay Sailor Who Insulted American Flag.

Miss Mae Murphy and August Murphy, of 122 Sixth avenue west, have returned from a several months' tour of England and Ireland.

While boarding the Cunard steamer Umbria at Queenstown they figured prominently in an incident that was the talk of the vessel all the way over. Mr. Murphy, like thousands of other tourists in England and on the continent, constantly carried a small American flag with him.

Boarding the Umbria he had this flag tucked under his arm and wrapped around his neck. He was seen by a petty officer of the British liner, who was busy just about that time keeping out of the reach of her brother.

For a while it looked like a riot, with prominent, wealthy first cabin passengers to assist in the mixing. On board the Umbria during the voyage.

**ATTENTION, PUBLIC!**  
There may be 20 candidates for sheriff, but there is only one right way to vote for the sheriff, and that is to vote for the STEAMER NEWS-BOY will make two trips Saturday, Sunday and Monday, leaving her dock, foot of Fifth avenue west at 9 a. m. and 2 p. m. Don't miss this delightful ride. Fare for round trip 50c.

Excursions on the lake and bay every pleasant evening. Boat leaves Fifth avenue dock at 8 p. m. and 8:55 p. m. Fare 50c. Old phone 561. H. D. CLOW, Mgr.

age the passengers adopted resolutions asking for the discharge of the petty officer. These resolutions were presented at the New York office of the Cunard Line company by Mr. Murphy and the officers there promised to discharge the man immediately, apologizing for the insult to the American passengers and the American flag.

**NOTICE!**  
The friends of the members of the Duluth Yacht club (at Duluth and Superior) are all invited to the first annual reception at the Auditorium, Duluth, Saturday, Sept. 6, 7 and 8.

**TONIGHT!**  
CLINTON P. MCCORMICK, Selling Captain.

**St. Paul and Return \$4.80.**  
ACCOUNT MINN. STATE FAIR.  
Aug. 30 to Sept. 6 the Northern Pacific Ry. (Duluth Short Line) will sell tickets to St. Paul and return for \$4.80, good returning up to and including Sept. 8. Three trains each way, including famous Lake Superior Limited, leaving Duluth 1:55 p. m., arrives St. Paul 6:30 p. m. For tickets and full information call at City Office, 322 West Superior street, or Union depot.

## FIGHT IN PROGRESS

Two Kinds of Republicans Would Name Election Judges.

Council's Make-Up Indicates That Bede Men Will Win.

The Lists Have to Be Filed By Saturday Noon.

There is a very lively fight on between machine and anti-machine Republicans. Presumably for challenging purposes at the primary election both sides have

## RUNNING OUT OF AMMUNITION.

A belated reminiscence of the battle of Gettysburg illustrates the strict attention to business of the professional soldier under the most distracting circumstances, says the New York Times.

When Gen. Hancock was wounded he was carried to the rear, where the surgeons cut away his clothing and found and extracted the missile. The general became much interested in seeing it, and insisted upon sending for an aide de camp, in spite of the medical authorities' against exciting himself. When the aide appeared the general called out to him:

"Go straight to Gen. Meade and tell him the enemy is running short of ammunition. I have been wounded with a tenenny nail."

**ADDED TO HIS VOCABULARY.**  
Senator Kittredge of South Dakota has a particularly small vocabulary when approached by a newspaper writer for an interview, says the Philadelphia Press. He takes pride in the fact that he is usually able to denigrate them with a "yes" or "no." One day recently a correspondent interviewed him, but was unable to get more than the monosyllables named in reply. Finally he asked: "What is the largest city in South Dakota?" The senator looked his surprise as he answered: "Sioux Falls." The correspondent bowed and left. A friend a few moments later he said: "I have all you fellows beaten now. I have just added the words 'Sioux Falls' to Senator Kittredge's vocabulary."

**KITCHENER'S INCISIVE REPLY.**  
A correspondent sends the following characteristic anecdote of Lord Kitchener: "The governor of Natal wired to the commander-in-chief, 'My ministers and myself consider we should be vouchsafed further news.'"

"The man of iron wired back: 'I do not agree with either you or my ministers.'"

A blessing alike to young and old; Dr. Power's Extract of Wild Strawberry. Nature's specific for dysentery, diarrhoea and summer complaint.

## FIGHT TO CONTINUE

For Reclassifying of Letter Carriers, Says Mr. Cromer.

Oldest Officer of the Navy Sensitive About His Age.

Report on Copper Properties in Southern Arizona Prepared.

From The Herald Washington Bureau.

Washington, Aug. 29.—(Special to The Herald.)—A communication received from Representative Cromer, of Indiana, today indicates that he has not abandoned the fight in the house committee on postoffice and roads in behalf of the bill to reclassify the letter carriers.

"Without going into the matter in detail," writes Mr. Cromer, "I am as far as my experience on the committee goes, I consider the officers of the association have utilized only the most legitimate means in order to further the interests of their bill. They have conducted their campaign in a most frank and open manner. President Keller appeared before the committee and gave a most lucid statement of the present condition of the carriers, their desires and their reasons for believing themselves entitled to further consideration at the hands of the department. They have merely attempted to prove to congress that letter carriers are an intelligent part of the social and industrial development of this country, and that the grounds they ask for an opportunity to obtain increased compensation."

"Whether their efforts will be successful at the coming session of congress, I, of course, am unable to say, but I am satisfied that earnest, conscientious, and self-sacrificing conduct of the affairs of the association has as has characterized it during the past session can not fail to obtain for the carrier a fair and impartial hearing sooner or later."

The oldest officer of the navy is the most sensitive of any in the service about his age. He is Rear Admiral Thomas O. Selfridge, retired. So one except the admiral, seemingly, knows exactly his age, and he will not tell. When he entered the navy it seems not to have been the practice to take the day, month and year a midshipman was born, and for that reason the records make no mention of these dates.

The records show that the admiral was born in Massachusetts and that he was appointed from that state Jan. 1, 1818, many years before the establishment of the naval academy or the invention of rifled guns. Midshipman of his day entered young, and allowing the admiral to have been 15 at that time, he is now 99 years old. If he lives

until January it is believed he will have turned the century mark. The admiral dislikes to have anyone mention age to him, and as far as the retiring age is concerned, he believes it should be 72 rather than 62. Washington is his home, and here he has resided since his retirement, more than thirty years ago. His eldest son is Rear Admiral Thomas O. Selfridge, Jr., now about 65 years of age. There is another son a commander in the navy.

When the Roosevelt family moved away from the White House to the beginning of repairs in the interior of that building, the children took with them no other play things than chickens, dogs and cats that they were personally interested in, and the servants took to the temporary executive mansion on Lafayette square the remainder of the cats and other household pets, expecting to be able to domicile them there.

Two of the cats, however, were not content to remain in their new home and went back to the old White House. They have remained in and about the building ever since, notwithstanding the awful howl of broken timber, the almost ceaseless noise of saws, hammers, chisels and other instruments, and the noise and calls of the workmen. The cats look pretty gaunt, but they show no inclination to go away, and from all appearances seem satisfied with their new quarters. At lunch time the cats make their headquarters in the neighborhood where the women are eating, and at noon-day repeat, and are given whatever spare food the men have. In this way the cats are kept in good condition and life and eke out an existence. It is not thought that they ever get a taste of the food of the kitchen, but the building for the last two months or more has undoubtedly scared the rodents away. Sometimes the cats manage to get in among the trees and shrubbery where the small birds live and secure a choice meal on some unsuspecting bird, but their sustenance is by no means as satisfactory as it was when they were in the White House. The cats will probably enjoy the return of the Roosevelt family immensely.

A comprehensive report of the occurrence of copper in the vicinity of Clifton, in Southern Arizona, is being prepared by W. Lindgren, geologist of the United States Geological Survey. The field work on which the report is based was commenced early in November last. The mines near Clifton produce at present approximately 200 tons of copper a month, and the mining district ranks third among copper producing districts in the United States. The geological survey had previously prepared a detailed topographic map of the region, and the geologic work begun in the autumn was completed in the winter. Special attention was given to a study of the mines, in which portion of the work four months were spent. The results will be of general interest, as the investigation largely dealt with the secondary concentration so common in character of the original deposits, which are remarkable, inasmuch as they consist of masses of limestone altered by contact-metamorphic processes.

HUNTING FOR BARTHOLOMEW. New York, Aug. 29.—Three Chicago detectives are searching for the missing body of William Bartholomew, who is wanted in Chicago in connection with the supposed murder of Alvin Karpis. It is their theory that the woman was not murdered, but is with Bartholomew, and that the body found in Chicago was some other person.

NO BREAK IN DEADLOCK. Fond du Lac, Wis., Aug. 29.—After taking the day off for the Labor Day, without any break in the deadlock, the sixth annual biennial congressional convention adjourned at 11 o'clock, this afternoon, the vote still standing. Wells, W. W. 12; Malone, 12; Dr. Bank, 5.

#### Single Fare For Round Trip

Between all stations on the Duluth, South Shore & Atlantic railway, account Labor day. Tickets on sale Sunday, Aug. 31, valid for return passage until Sept. 1 inclusive. City ticket office, 426 Spaulding Hotel block.

## ARBITRATION

Renders Strikes Unknown In New South Wales.

New York, Aug. 29.—Sir Edmund Barton, prime minister and minister of external affairs of New South Wales, Australia, who was one of the most conspicuous members of the recent conference of British colonial premiers in London and who is on his way back to Australia, accompanied by Sir John Forrest, minister of defense, and Austin Chapman, member of the New South Wales house of representatives and government whip, has visited the leading financial institutions and met many leading business men.

Sir Edmund took a leading part in the recent enactment of the arbitration law of New South Wales and is much interested in the progress of the antitrust law, great strikes are practically impossible. Arbitration is compulsory and while strikes arise between employers and employed both parties are required to submit the matter to a board of arbitration, which is under government control. The justice of the supreme court is the head of the board and two assessors are named to act with him one appointed by each side.

"A money deposit sufficiently large to be made by both sides is required, and unwilling to forfeit it is required to be paid into the court before the arbitration begins. The deposit is a guarantee that each side will abide by the ruling of the board. Since the enactment of this compulsory arbitration law, strikes in New South Wales are unknown. A similar system exists in New Zealand."

Sir Edmund and his party will visit Washington, D. C., today and will sail from Vancouver on Sept. 10.

## GRAND POPULAR EXCURSION

to Grand Marais and Isle Royale.

The beautiful north shore of Lake Superior by daylight—39 miles of grand scenic landscape. The elegant steamer Inoué will leave Superior dock, Lake avenue south, at 9 o'clock a. m. Saturday, Aug. 30, 1902, returning to Duluth Sunday morning. Round trip fare to Grand Marais, \$1. Meals and berth extra. Tickets on sale at No. 2 Locomotive and dock, Lake avenue south. White Line Transportation Co.

## ON PACIFIC COAST.

### Naval Fleet to Have Strategic Battle There.

San Francisco, Aug. 29.—The coast of California with the Golden Gate as the center of operations will in all probability be the scene of the next strategic battle between chosen fleets of the American navy. Naval men at this station are discussing the proposition entertained at Washington of holding fall maneuvers on the Pacific coast on lines similar to those which governed the late contest of naval forces under Admiral Hingham and Commander Pillsbury off the New England coast and it is believed the maneuvers will be held late in the fall.

## POSTMASTERS ADJOURN.

Milwaukee, Aug. 29.—The convention of the National Railway Postmasters Association came to a close this forenoon with reading of a paper by Henry A. Carter, secretary for the postoffice department. Washington, D. C., on "The Magnitude and Importance of the Postal System." The delegates were given a steamer ride on the lake this afternoon.

## INDIGNANT.

Hungarians Do Not Want Flag With Its Inscription.

New York, Aug. 29.—Hungarian residents of this city are greatly excited over the coming of a deputation from their mother country, which is to present to Hungarians here the banner of their native land. On this flag there are inscribed the words: "Be dauntlessly loyal to your fatherland."

Anthony P. Ambrose, president of the supreme assembly of the Slavonic society of the United States, which numbers some 13,000 members, is indignant over the affair. When first he heard of what was intended he telegraphed the secretary of the treasury asking that the flag be not admitted free of duty.

"The presentation of this flag should not be allowed," said Ambrose in an interview. "I, as president of a society which numbers 13,000 Hungarians, speak the sentiments of my compatriots. We came to this country, we receive good wages, we support ourselves well. The object of our society is to make the members become citizens of the United States as soon as we are able. We cannot serve under two flags. I have caused notice to be issued to every member of the society not to participate in the parade or reception of the deputation."

## FIRE AT TOURCOING.

Tourcoing, France, Aug. 29.—A disastrous fire has occurred here in a wool combed factory. The damage is estimated at \$90,000.

## TO EXTEND ROAD.

St. Paul, Minn., Aug. 29.—Wm. B. Smith, special to the Dispatch says: The Eau Claire, Chippewa Falls & Northern Railroad company filed notice with the secretary of state today of extension of its line from Little Falls, forty miles to an intersection with the Wisconsin Central.

## GARVIN IS FIRED.

Chicago, Aug. 29.—Charles A. Comiskey, president of the White Stockings baseball team of the American league, today unconditionally dismissed Pinner Virgil Garvin from further service with the club. The cause assigned was Garvin's conduct last night when he shot and slightly wounded a bartender and knocked a policeman unconscious with a blow from his pistol.

## WITHOUT HIS AUTHORITY.

New York, Aug. 29.—William B. Smith, a brother of Mrs. Charles L. Fair, who was to have left Plainfield, N. J., for California last week, but delayed his departure, is quoted as having said that any settlement of the case, which may have been reached at San Francisco had best be without his authority as an interested party.

## TO ACCEPT SITE.

Sheridan, Wyo., Aug. 29.—D. Walker, director of the geological survey, and F. F. Newell, hydrographer, have commended the acceptance of the Piney reservoir site, Sheridan county, for the construction of a government reservoir. They will leave tomorrow for the Big Hole country.

## Has Been Making Purchases.

J. Weinberg, manager of the Zenith Tea and Coffee company, returned yesterday from Chicago, where he made extensive purchases in premiums for the holiday season, to be given away in connection with his teas and coffees.

## Lester Park.

The ladies that saw the big black bear near the pavilions at Lester park the other day declare it was attracted there by the music of La Brosse's orchestra. The same orchestra plays at Lester Labor day afternoon and evening.

## INDIANS

Must Work If Commissioner Jones' Plan Is Adopted.

Chicago, Aug. 29.—William E. Curtis, in a Washington special to the Record-Herald, in speaking of the policy of the government toward the Indian, says that, while there has been gratifying progress the last few years, and the frontier is never again to be troubled with Indian disturbances, the time has come when the policy of the government toward the Indians must be changed in order that many of them may not be entirely pauperized. Mr. Jones, of Wisconsin, who has made a most satisfactory commissioner of Indian affairs, in his annual report, will renew his recommendation to congress to gradually abolish the practice of issuing rations, and compel all able-bodied Indians to work for their living. He is convinced that the present policy has a tendency to pauperization, and that a certain proportion of the Indians will never become self-supporting as long as the government is willing to feed them. Indians are human beings, and must be treated as such, and if the government feeds them much longer, it will be compelled to do so perpetually. The longer a change in the policy is postponed, the more difficult it will be, and while it is scarcely possible to make the old Indians self-supporting, the young men and children that are growing up should be taught at once that mankind has been deprived of their bread by the pauperization of their race. Another question of imperative importance that must be settled is compulsory education. If the Indian is ever to be

## GIRLS AS MESSENGERS.

Omaha, Neb., Aug. 29.—The leading messenger service company in Omaha has advertised for girls to take the places of boys as messengers. All of the others, it is reported, will follow suit in a few days. The girls will ride bicycles, and only a few boys will be kept to go where their sister employees cannot with propriety.

## Omaha Company Will Substitute Them For Boys.

The managers of the messenger service company explain that it is almost impossible to get boys who are able to do the work, and they have decided to sever the advertisement, and they will be put to work at once. They will wear gray suits and caps.

## Single Fare For Round Trip

Between all stations on the Duluth, South Shore & Atlantic railway, account Labor day. Tickets on sale Sunday, Aug. 31, valid for return passage until Sept. 1 inclusive. City ticket office, 426 Spaulding Hotel block.

## MATRIMONIAL RECORD

Established By a Couple In Wisconsin.

Chicago, Aug. 29.—James Miner, of Racine, Wis., and his wife of Chicago, who last February established a new matrimonial record by a courtship, marriage and separation in three days, have settled down to prosaic married life again. Miner's attorneys at Kenosha, Wis., have withdrawn his bill for divorce, thus closing a kaleidoscopic matrimonial affair.

## PENSIIONS GRANTED.

Washington, Aug. 29.—(Special to The Herald.)—The following pensions have been granted: Original—Jasper S. Daniels, of Canasta, \$5. William J. Bolder, of St. Cloud, \$6. Widows—Mary E. Pettit, of Smith Lake, \$5.

## Defective Page

Serofia, salt rheum, erysipelas and other distressing eruptive diseases yield quickly and permanently to the cleansing, purifying power of Burdock Blood Bitters.

## WAR HAS NOW BEGUN

### Drums Are Beating and Trumpets Sounding.

### The Forts Near Newport Are on a War Footing.

Newport, R. I., Aug. 29.—With the drums of the First Massachusetts heavy artillery beating and the trumpets of the Old Bay State naval militia sounding, it was possible today to imagine that something in the nature of real war had been declared against the United States, and that this part of the coast line was threatened by a hostile fleet.

The forts in this vicinity are now practically on a war footing, and the men behind the guns, mortars, searchlights and at the various signal stations are today ready for war, imagin-

ary though it be. The principal event in this city today was the arrival of the Massachusetts troops. The heavy artillery came first, followed by the naval militia. The militia, on reaching here, was at once split up into companies and sent by tugs to the three forts at the entrance of Narragansett bay. The naval brigade found the gunboat Mayflower and Scorpion outside Goat island waiting for them, and it was but the work of an hour or two before the entire contingent was aloft. The gunboats left the harbor as soon as the naval militia was on board.

## ACROSS THE MOUNTAINS

President Crossing From New Hampshire to Vermont Through the Most Picturesque Scenery in the United States.

Windsor, Vt., Aug. 29.—President Roosevelt resumed his tour of New England, crossing from New Hampshire to Vermont.

In the latter state he will spend today, Sunday and Monday, speaking today at various points and going this evening to the summer home of Secretary of the Treasury Shaw, at Thompson's Point on Lake Champlain. The president will be the guest of Secretary Shaw until Monday, and it is announced that Sunday will be spent at the residence of Mr. Shaw, at White River Junction, Montpelier, where he will be joined by places at which the president was scheduled to stop on the journey in Vermont.

The trip from Corbin Park to Windsor was made in coaches and other conveyances, the members of the president's party who joined the president at Newport, N. H., having preceded him. At the Blue Mountain Club house in the park the president and Senator Proctor joined the party ready for the drive of 15 miles

across the Crocker mountains. The trip was one of the most picturesque experiences of the president's tour, and the route was one of the most picturesque scenery in the United States.

On the way from Corbin Park, a brief stop was made at the summer home of Winston Churchill, the author, at Cornish, N. H. It is a picturesque little village and the inhabitants had gathered to give the president a rousing reception. After being extended a greeting by Mr. Churchill, the president and his party were presented to the president of the village and the inhabitants had gathered to give the president a rousing reception. After being extended a greeting by Mr. Churchill, the president and his party were presented to the president of the village and the inhabitants had gathered to give the president a rousing reception.

## MISS ANTHONY WINNER

For the Third Time Gains the Title of Western Golf Champion After a Very Hard Fight.

Chicago, Aug. 30.—Miss Bessie Anthony of Glenview Golf club, for the third time won the title of western golf champion today after a hard and plucky fight against Mrs. W. A. Alexander, of Exmore, by a score of 1 up. Miss Anthony thus becomes permanent owner of the Alexander and Governor's cups. Mrs. Alexander proved a worthy runner up in the match and at the ninth hole was one up on Miss Anthony. Miss Anthony played her usual game and Mrs. Alexander showed better form than in the preliminary rounds. The Exmore player was never down until the seventeenth hole.

Chicago, Aug. 30.—A large gallery of enthusiastic golfers gathered about Miss Bessie Anthony of Glenview club as she teed off in the finals of the Western women's championship tournament in de-

fense of the title of western champion, which she has held for the last two years. Particular interest was manifested in her play, as a third successive victory meant the permanent possession of the Alexander and Governor's cups. Mrs. Alexander, who was her opponent, offered somewhat in comparison with Miss Anthony by reason of the very small margin of 1 up by which she defeated Miss Anthony yesterday. The match was a close one, with the Exmore player prevailing for the match.

Second in interest to the western championship event were the final rounds for the Governor's cup and the title. In the former Miss Elizabeth Congdon, of Glenview, was matched against Mrs. F. D. Donohue, of Edgewater. Miss Congdon, of Springfield, Ill., in the tyro event.

## MANY HAVE ELEPHANTIASIS

Stanford University, Cal., Aug. 30.—Dr. Vernon Lyman Kellogg, head of the department of entomology, who accompanied Dr. Jordan on his summer trip to Samoa, has returned to the university, bringing with him many specimens of island life, to be added to the national museum at Washington. His most special work in Samoa, however, from a practical point of view, was his

investigation of the fallaria, a worm-like animal living on mosquitos and producing in human kind the dread skin disease Elephantiasis. Almost half the native population of Samoa are afflicted with this disease and at the suggestion of Dr. Kellogg, U. S. N., governor of the American islands, Dr. Kellogg has devised a plan looking to the removal of the source by preventing the use of infected water, etc., by the natives.

## DIRECTED AGAINST CANADA

Berlin, Aug. 30.—The decision of the customs authorities as announced by the Boersenhalle of Hamburg to require certificates of origin in the case of American grain is directed against Canadian wheat, on which Germany wishes to collect a retaliatory duty of 15 per cent, because of Canada's preferential treatment of British goods.

Unless certificates of origin are insisted upon, the customs officers would be unable to discriminate against Canadian wheat. The decision is expected to prevent American warehousemen from mixing Canadian wheat with United States wheat destined for export and grading northern spring wheat against which practice the German consul general in New York had already protested.

## NEW MOTOR CYCLE RECORD

Chicago, Aug. 30.—A. A. Hanson, who is striving to establish a new 24-hour motor cycle record on the Garfield Park track, had ridden 400 miles at 5 o'clock today and is confident that he will succeed in finishing the 600-mile mark before he finishes at 2 o'clock. Hanson started at 2 o'clock yesterday afternoon and relied on the

first mile at 2:20. He rode the first century in 2:37. It is stated that he lost at least 100 miles through being compelled to ride in the dark from 11 p. m. to 4 a. m., the electric lights being turned off before midnight. It was so dark that Hanson was afraid to take chances and slowed down.

THE OPPOSING COMMANDERS IN THE MIMIC ATTACK BY A HOSTILE FLEET ON NEW YORK HARBOR.

## BARTHOLIN TEMPORARILY COWED

Senior Was Once an Inmate of Wisconsin Soldiers' Home.

Milwaukee, Aug. 30.—William Peter Bartholin was an inmate of the Soldiers' home here in 1886, having been admitted July 27 and died Dec. 26 of that year, in the home hospital of heart failure. The records show that he was born in Denmark, and that he was a private in the 1st U. S. Cavalry, Co. B, 1st Missouri artillery, was promoted to sergeant major Aug. 27, 1882; to second lieutenant Oct. 27, 1883, and to first lieutenant March 10, 1885. He was mustered out as first lieutenant Sept. 23, 1883, and re-enlisted as sergeant Dec. 3, 1883, in Company D, 1st Nebraska cavalry. He was discharged April 16, 1886.

Further details of Bartholin at the home are as follows: Bartholin came from Chicago in 1886 and stated that his wife Annie lived at 430 Calumet avenue, but that they had no children under 16 years old. The Danish consul at Chicago in 1887 made inquiry of Bartholin's death, stating that his government wanted it.

Orders of Gen. Gobin to Shoot Strikers Who Molested Troops Has Had Good Effect and There Was No Trouble.

Tamaqua, Pa., Aug. 30.—Strike leaders went from door to door in the Panther Creek valley last night spreading the news of Gen. Gobin's stern warning and his instructions to the men to shoot and shoot to kill if molested in any manner. The words of the commanding officer have had at least a temporary effect was shown this morning when the troops escorted several hundred non-union men to work without being molested in any way. Companies F and P went out at daybreak with their guns loaded and their best marksmen on the flank. When the soldiers passed the crowds of strikers on the street deliberately turned their backs to them. However, there was no shooting or jeering.

Supplementing his order last night Gen. Gobin has directed Major Gearhart, in command here, to arrest all women and girls who insult the troops in any way. The opinion seems to prevail among the officers and citizens that the lull in the rioting will last but a short time. The fact that more men went to work today than yesterday is not calculated to improve the temper of the strikers.

## YOUNG ROOSEVELT BUSY

Son of the President Is Entertained in Chicago By Vice President McCullough of the C. & N. W. Railroad.

Chicago, Aug. 30.—Theodore Roosevelt, Jr., had a very busy time of it today living up to the program laid out for him by his host, H. R. McCullough, third vice president of the Chicago & Northwestern Railroad company. Early today he was driven to the Onward club golf links at Lake Forest, where for a time he was an interested spectator in the Western women's championship tourney. Thence the party drove to Fort Sheridan, where a special dinner and cavalry maneuvers were ordered by Col. McCullough in honor of the president's son. The men of the

Twenty-first infantry and the Second cavalry participated in the review, and a rousing "three for Teddy" was given as the men went to quarters. From Fort Sheridan the party came into Chicago, where young Roosevelt did his shopping preparatory to the hunting trip in South Dakota. He returned to lunch with Mr. McCullough at Lake Forest, where the party will leave for the Northwest at 5 o'clock this afternoon over the Ashland special of the Chicago & Northwestern route. Other members of the party on the hunting and fishing trip will be Marvin Huggitt, Jr., and Kearsless A. Cox.

## STUDENT BATHER IS MISSING

New York, Aug. 30.—Clarence Wilson, a student in the University of Pennsylvania, who is known in this city as a draftsman and is said to be a nephew of Gen. Horace Porter, United States ambassador at France, has disappeared in Atlantic City, says a Philadelphia dispatch to the Times. He went bathing on Thursday and his clothing has just been found in a dressing room. Porter's name is said to be at Alister, I. T.

## THE MIDELEERS ARE BROKE

New York, Aug. 30.—Another party of New Orleans muleteers has reached here without funds, after journeying to South Africa, Great Britain and Canada, travels that have lasted three months, in which the men have covered 30,000 miles of sea and land. They are looking for means to get back to their Southern homes. They shipped on the Mount Royal from New Orleans on May 28 after having the stock they say were taken to Swaziland, Wales, and finally shipped to Quebec, Canada, as their contract called for a return to the United States of Canada. They spent all their money before leaving Wales and finally were assisted by the United States consul at Montreal.

## MAY SETTLE THE ACRE CASE

New York, Aug. 30.—Dr. Pinailla, minister from Bolivia, conferred with the minister of foreign affairs for several hours on Thursday, says a Rio de Janeiro, Brazil, dispatch to the Herald. It is understood that both ministers are settled upon a basis for the solution of the Acre question. Brazil will not oppose the lease, it is said, if Bolivia retains the financial administration of the territory and establishes a revenue office at some point in Acre, or at Maranhao. Bolivia must limit foreign influence in Acre. In such case Brazil is disposed to reach a friendly settlement on all pending questions. It is believed that these basis will be accepted by both countries.

## MAY TRANSFER THE CHINESE

San Francisco, Aug. 30.—Information has been received here that Acting United States Attorney General Harry M. Hoyt had sent to the treasury department a decision holding that the Chinese crew, formerly on the steamer City of Peking, but afterward transferred to the steamer Gaochong, may be lawfully trans-shipped on board the new Pacific mail steamer Korea, in this port. This will be done and the Korea will sail on her first trip for the Orient.

## THREATS TO RETALIATE

### Shipping Combine Worrying Great Britain.

### Hints That Retaliatory Duties Are Probable.

London, Aug. 30.—The approaching expiration of the time limit for the completion of the Atlantic shipping combine is arousing the British press to all sorts of speculation regarding J. Pierpont Morgan's ultimate plans as well as the government's scheme for dealing with the combine. The promised statement of the premier, A. J. Balfour, on the reassembling of parliament, is awaited with intense interest. The statement has already been printed that the government plans are complete and that the authorities are all ready to make an effective counter move against the American syndicate. Inquiries made by the Associated Press in the best informed quarters indicate that this announcement is not true. The government has had to deal with so many powerful and conflicting interests that it has not yet been able to definitely decide on a plan of action. In spite of the opposition to a general subsidy scheme, well informed persons consider this to be the most likely solution, on the lines of a generous distribution of government support, not in behalf of one of several companies.

The form which such assistance will take is still under discussion there being considerable opposition to straight subsidies. There is no doubt that Mr. Balfour's announcement will include a scheme for a direct, fast Canadian service, in which the Canadian Pacific road probably will participate, but not as originally planned, as sole promoter and beneficiary. The indications point more and more to the drawing together of the Atlantic lines

outside of the Morgan combine. One of the alliances which may be earliest expected is a combination of the Atlantic line and Elder, Dempster & Co. The heads of the English lines are chary in expressing themselves on the Atlantic outlook. Time is rather intensifying their jealousy of the American side for the Atlantic trade, and the government has been so thoroughly stripped up that it will not leave a stone unturned to ally the existing commercial and colonial discontent. A leading ship owner and a close friend of the colonial secretary, Joseph Chamberlain, said to a reporter of the Associated Press: "America must not think that the imperial government is going to leave the colonies at the mercy of the shipping or any other trust. The discontent is acute enough now in many quarters of the empire. While Great Britain does not want a commercial war with the United States, she will not stand indefinitely being shut out by the American tariff wall while keeping open house for American traders in the United Kingdom. The question of retaliatory duties is not so improbable as many people imagine. There is no reason why the British colonial markets should not be opened to British goods on a preferential basis. We have been asleep here in England for a long time, but when we wake up America had better look out." Sir Christopher Furness, who has been referred to as the possible head of the English financial syndicate which is likely to purchase the Cunard fleet as the nucleus for a British shipping combine, hinted at similar possibilities yesterday in his speech before the steamship meeting at Manchester, but as he was addressing a public meeting he was not so outspoken as the leading shipowner quoted above.

## HAD A VERY BUSY NIGHT

An Electrical Storm During Which Several Buildings Were Fired By Lightning Kept Minneapolis Fire Department on the Jump.

Minneapolis, Aug. 30.—(Special to The Herald.)—An electric storm last night gave the Minneapolis fire department one of the busiest nights in its history. Ten boxes were pulled and one special call was sounded at the department headquarters. Four fires were crowded into the brief space of three hours, all of them on the east side of the river, when the storm was fiercest.

The first conflagration resulted in the demolition of the steeple of the First Congregational church.

The second seriously damaged the building occupied by the School of Mines at the State University, and slightly delayed the opening of that school.

The third slightly scorched a dwelling house at Eleventh avenue and Fourth street south east.

The fourth was the burning of a hay stack across the St. Paul boundary, near the state fair grounds.

During the storm the lightning formed one of the most brilliant displays ever seen in Minneapolis, while the down-pour of rain almost equalled a cloudburst and caused considerable small damage all over the city.

## THREE BURIED ALIVE

Workmen at Whitehall, Wis., Caught By Caving In of Sewer Excavation--One Is Dead and Another May Die.

St. Paul, Aug. 30.—(Special to The Herald.)—Three men buried alive under fifteen feet of sand and gravel, one dead when taken out and another seriously injured and may probably die, is the result of the caving in of a sewer excavation at Whitehall, Wis., late yesterday.

The dead man is Henry Dunkirk, of La Crosse, who leaves a widow and four children at that place. He was

trightfully crushed about the body. He had been caught between two planks and his ribs crushed in.

The seriously injured man is Andrew Barrows, of Whitehall. Several bones were broken by being crushed between the sides of the sewer. In addition he was suffocated and suffered from the shock severely.

The other workman who was caught in the sewer was not badly injured. He suffered slightly from the shock.

## UNDESIRABLE FEMALES

May Be Allowed to Enter United States as Immigrants By a Ruling Made By Judge Labcome in Burgo Case.

New York, Aug. 30.—After having been pronounced by the commissioner of immigration an undesirable immigrant, owing to a disease of the eyes, Marie Burgo will be permitted to land here, through a decision of Judge Labcome.

Salvatore Burgo came to this country several years ago and became a citizen. Recently he sent to Italy for his old sweetheart, Marie Lazarra. At Ellis island the doctors discovered that she was suffering from a disease of the eye and would not let her enter. Burgo's lawyers drew up a civil marriage contract. Burgo signed this in the city and it was taken to Ellis island and signed by Marie. Under the law this constituted a marriage. A demand then was made that as an American citizen she be released. Judge Labcome found the point well taken and ordered her discharge.

The authorities fear the decision will open the door to many undesirable female immigrants.

## WAR HAS NOW BEGUN

Drums Are Beating and  
Trumpets Sounding.

The Forts Near Newport  
Are on a War Footing.

Newport, R. I., Aug. 29.—With the drums of the First Massachusetts heavy artillery beating and the trumpets of the Old Bay State naval militia sounding, it was possible today to imagine that something in the nature of real war had been declared against the United States, and that this part of the vast coast line was threatened by a hostile fleet.

The forts in this vicinity are now practically on a war footing, and the men behind the guns, mortars, searchlights and at the various signal stations are today ready for war, imagining that it is.

## ACROSS THE MOUNTAINS

President Crossing From New Hampshire to Vermont Through the Most Picturesque Scenery in the United States.

Windsor, Vt., Aug. 29.—President Roosevelt today resumed his tour of New England, crossing from New Hampshire to Vermont.

In the latter state he will spend today, Sunday and Monday, speaking today at various points and going this evening to the summer home of Secretary of the Treasury Shaw, at Thompson's Point on Lake Champlain. The president will be the guest of Secretary Shaw until Monday, and it is announced that Sunday will be spent at the residence of Mr. Shaw, at White River Junction, Montpelier, and on Monday morning will leave for the summer home of the president at the Blue Mountain Club house in the park of the president and Senator Fletcher joined the party ready for the drive of 15 miles across the Croton mountains. The trip was one of the most pleasant experiences of the president's tour, and the route brought the tourists into contact with some of the most picturesque scenery in the United States.

On the way from Corbin Park, a brief stop was made at the summer home of Winston Churchill, the author, at Cornish, N. H.

Cornish, N. H., is a picturesque little village and the inhabitants had gathered to give the president a rousing welcome. After being extended a greeting by Mr. and Mrs. Churchill, a number of school children were presented to the president. They filed past him by twos, and each in turn handed him a bouquet of sweet peas and asters. His carriage was backed up with flowers when he rose to speak. After a brief speech the party resumed its way to the Croton mountains. The route was a short time before noon.

In the course of the ride over the mountains, several steep passes made it necessary for the party to dismount and walk. The president easily outstepped everybody and climbed the heavy grades with as little difficulty as if he were taking a stroll through some city park.

## MISS ANTHONY WINNER

For the Third Time Gains the Title of Western Golf Champion After a Very Hard Fight.

Chicago, Aug. 29.—Miss Dossie Anthony of Glenview Golf club, for the third time won the title of western golf champion today after a hard and plucky fight against Mrs. W. A. Alexander, of Exmore, by a score of 1 up. Miss Anthony thus becomes permanent owner of the Alexander and Governor cups. Mrs. Alexander proved a worthy runner up in the match and at the ninth hole was one up on Miss Anthony. Miss Anthony played her usual game and Mrs. Alexander showed better form than at the previous preliminary rounds. The Exmore player was never down until the seventeenth hole.

Chicago, Aug. 29.—A large gallery of enthusiastic golfers gathered about Miss Dossie Anthony of Glenview club as she teed off in the finals of the Western women's championship tournament in the clubhouse of the Chicago Golf club.

## MANY HAVE ELEPHANTIASIS

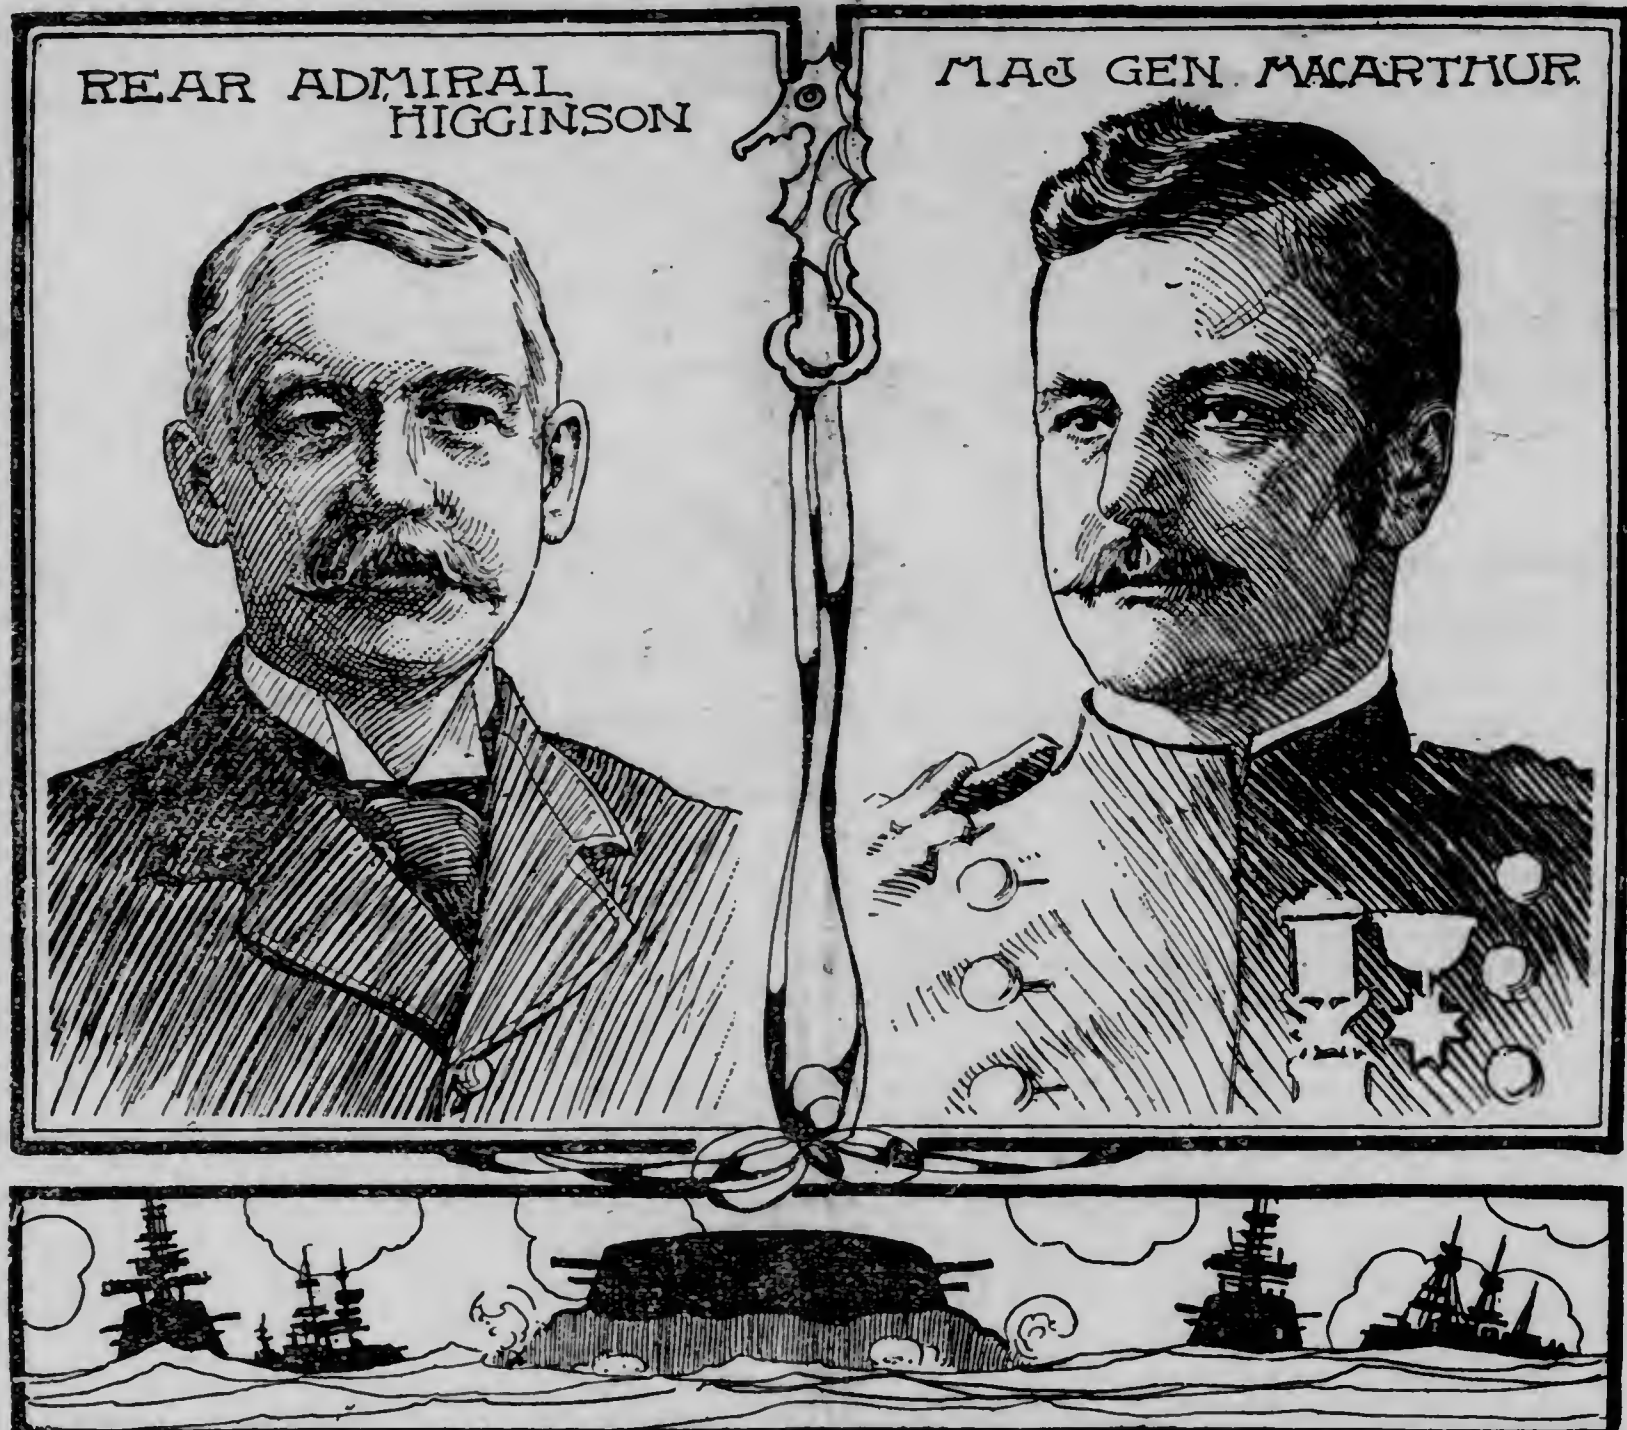

Stanford University, Cal., Aug. 30.—Dr. Vernon Lyman Kellogg, head of the department of entomology, who accompanied Dr. Jordan on his summer trip to Samoa, has returned to the university, bringing with him many specimens of island life, to be added to the national museum at Washington. His most special work in Samoa, however, from a practical point of view, was his investigation of the fallaria, a worm-like animal living on mosquitos and producing in human kind the dread skin disease, Elephantiasis. Almost half the native population of Samoa are afflicted with this disease and at the suggestion of Capt. Selous, U. S. N., governor of the American islands, Dr. Kellogg has devised a plan looking to the removal of the source by preventing the use of infected water, etc., by the natives.

## DIRECTED AGAINST CANADA

Berlin, Aug. 30.—The decision of the customs authorities as announced by the Boersenshaule of Hamburg to require certificates of origin in the case of American grain is directed against Canadian wheat, the decision is expected to prevent American warehousemen from mixing Canadian with United States wheat destined for export and grading northern spring wheat, against which practice the German consul general in New York had already protested.

## NEW MOTOR CYCLE RECORD

Chicago, Aug. 30.—A. A. Hanson, who is striving to establish a new 24-hour motor cycle record on the Garfield Park track, had ridden 40 miles at 6 o'clock today and is estimated to have ridden 60 miles before midnight. He was so dark that he had to ride with a light on his head. He started at 2 o'clock and rode off the

THE OPPOSING COMMANDERS IN THE MIMIC ATTACK BY A HOSTILE FLEET ON NEW YORK HARBOR.

## BARTHOLOMEW TEMPORARILY COWED

Senior Was Once an Inmate of Wisconsin Soldiers' Home.

Milwaukee, Aug. 30.—William Peter Bartholomew was an inmate of the Soldiers' home here in 1896, having been admitted July 27 and died Dec. 26 of that year. In the home hospital of heart failure. The records show that he was born in Denmark, and that he was a laborer.

He enlisted as a private Oct. 14, 1861, in Company B, Second Missouri artillery, was promoted to sergeant major Oct. 27, 1862, to second lieutenant Oct. 27, 1863, and to first lieutenant March 10, 1864. He was mustered out as first lieutenant Sept. 23, 1863, and re-enlisted as sergeant Dec. 3, 1863, in Company B, First Nebraska cavalry. He was discharged April 16, 1866.

Further details of Bartholomew at the home are as follows: Bartholomew came from Chicago in 1896 and stated that his wife Annie lived at 430 Calumet avenue, but that they had no children under 16 years old. The Danish consul at Chicago in 1897 made inquiry of Bartholomew's death, stating that his government wanted it.

## WIMBLEDON

Cup Match the Event of the Day at Seagirt.

Seagirt, N. J., Aug. 30.—The Wimbledon cup match was the biggest event of the day at Seagirt today. A hundred expert riflemen were entered for the cup, and the event excited extraordinary interest. The contest was open to all citizens and residents of the township, and the competitors fired thirty shots at 1000 yards. Wide latitude is being allowed regarding the kind of rifles used, and the use of telescopic sights and position. The Wimbledon cup was presented by the National Rifle Association of Great Britain to the National Rifle Association of America.

Several of those shooting used service rifles that have been fitted with barrels by private makers, the idea being to conduct a test to the present rifle of the United States caliber 30 rifle compared with the best obtainable.

## CONSPIRACY.

Brazilian Government Officials Are Looking For Trouble.

New York, Aug. 30.—There are new rumors of conspiracies against the government and of plans for a revolution, cables the Herald's correspondent at Rio Janeiro, Brazil. The government officials are adopting measures to repress any attempts to disturb the situation.

It is generally believed that the revolutionists are republicans from Sao Paulo, who are associated with monarchists for the purpose of overthrowing President Campos-Salles before the end of his term and thus prevent the new president from coming into power. Dr. Silvanos Brandao, who has been elected to succeed President Campos-Salles, is seriously ill.

## THREE WORKMEN DROWNED

Schenectady, N. Y., Aug. 29.—Three workmen, Italians, employed on the laying of a sewer, were drowned in the Erie canal today. They were three other men were crossing the canal in a rowboat. One of the men was taken to the shore by the craft upset. Three swam to safety, three others were drowned.

THE LINKS ABANDONED.  
Pekin, Aug. 29.—The Gazette today published an order abolishing the links throughout the empire. The minister of finance is instructed to set apart portions of the surplus revenue from the increased receipts in place of the links, which shall be paid over to each provincial government.

## THREATS TO RETALIATE

Shipping Combine Worrying Great Britain.

Hints That Retaliatory Duties Are Probable.

London, Aug. 30.—The approaching expiration of the time limit for the completion of the Atlantic shipping combine is arousing the British press to all sorts of speculation regarding J. Pierpont Morgan's ultimate plans as well as the government's scheme for dealing with the combine. The promised statement of the premier, A. J. Balfour, on the reassembling of parliament, is awaited with intense interest. The statement has already been printed that the government plans are complete and that the authorities are all ready to make an effective counter move against the American syndicate. Inquiries made by the Associated Press in the best informed quarters indicate that this announcement is not true. The government has had to deal with so many powerful and conflicting interests that it has not yet been able to definitely decide on a plan of action. In spite of the opposition to a general subsidy scheme, well informed persons consider this to be the most likely solution, on the lines of a generous distribution of government support, not in behalf of one of several companies.

The form which such assistance will take is still under discussion, there being considerable opposition to straight subsidies. There is no doubt that Mr. Balfour's announcement will include a scheme for a direct, fast Canadian service, in which the Canadian Pacific road probably will participate, but not as originally planned, as sole promoter and beneficiary. The indications point more and more to the drawing together of the Atlantic lines outside of the Morgan combine. One of the alliances which may be earliest expected is a combination of the Allan line and Elder, Dempster & Co. The heads of the English lines are chary in expressing themselves on the Atlantic outlook. Time is rather intensifying than allaying their jealousy of the American bids for the Atlantic trade, and the government has been so thoroughly stripped up that it will not leave a stone unturned to allay the existing commercial and colonial discontent. A leading ship owner and a close friend of the colonial secretary, Joseph Chamberlain, said to a reporter of the Associated Press: "America must not think that the imperial government is going to leave the colonies at the mercy of the shipping or any other trust. The discontent is acute enough now in many quarters of the empire. Sir Christopher Furness, who has been referred to as the possible head of the English financial syndicate which is likely to purchase the Cunard fleet as the nucleus for a British shipping combine, hinted at similar possibilities yesterday in his speech before the steamship meeting at Manchester, but he was addressing a public meeting and he was not so outspoken as the leading shipowner quoted above.

## HAD A VERY BUSY NIGHT

An Electrical Storm During Which Several Buildings Were Fired By Lightning Kept Minneapolis Fire Department on the Jump.

Minneapolis, Aug. 30.—(Special to The Herald).—An electric storm last night gave the Minneapolis fire department one of the busiest nights in its history. Ten boxes were pulled and one special call was sounded at the department headquarters. Four fires were crowded into the brief space of three hours, all of them on the east side of the river, when the storm was fiercest.

The first conflagration resulted in the demolition of the steeple of the First Congregational church.

The second seriously damaged the building occupied by the School of Mines at the State University, and will slightly delay the opening of that school.

The third slightly scorched a dwelling house at Eleventh avenue and Fourth street south east.

The fourth was the burning of a hay stack across the St. Paul boundary near the state fair grounds.

During the storm the lightning formed one of the most brilliant displays ever seen in Minneapolis, while the downpour was rain almost equalled a cloudburst and caused considerable small damage all over the city.

## THREE BURIED ALIVE

Workmen at Whitehall, Wis., Caught By Caving In of Sewer Excavation—One Is Dead and Another May Die.

St. Paul, Aug. 30.—(Special to The Herald).—Three men buried alive under fifteen feet of sand and gravel, one dead when taken out and another seriously injured and may possibly die, is the result of the caving in of a sewer excavation at Whitehall, Wis., late yesterday.

The dead man is Henry Dunkirk, of La Crosse, who leaves a widow and four children at that place. He was

frantically crushed about the body. He had been caught between two planks and his ribs crushed in.

The seriously injured man is Andrew Borerson, of Whitehall. Several bones were broken by being crushed between the sides of the sewer. In addition he was suffocated and suffered from the shock severely.

The other workman who was caught in the sewer was not badly injured. He suffered slightly from the shock.

## UNDESIRABLE FEMALES

May Be Allowed to Enter United States as Immigrants By a Ruling Made By Judge Labcome in Burgo Case.

New York, Aug. 30.—After having been pronounced by the commissioner of immigration an undesirable immigrant, owing to a disease of the eye, Marie Burgo will be permitted to land here, through a decision of Judge Labcome.

Salvatore Burgo came to this country several years ago and became a citizen. Recently he sent to Italy for his old sweetheart, Marie Lazarra. At Ellis island the doctors discovered that she was suffering from a disease of the eye and would not let her enter. Burgo's lawyers drew up a civil marriage contract. Burgo signed this in the city and the wife was taken to Ellis island and signed by Marie. Under the law this constituted a marriage. A demand then was made that as an American citizen she be released. Judge Labcome found the point well taken and ordered her discharge.

The authorities fear the decision will open the doors to many undesirable female immigrants.

## MAY SETTLE THE ACRE CASE

New York, Aug. 30.—Dr. Pinalia, minister from Bolivia, conferred with the minister of foreign affairs for several hours on Thursday, says a Rio de Janeiro, Brazil, dispatch to the Herald. It is understood that both ministers settled upon a basis for the solution of the Acre question. Brazil will not oppose the lease, it is said, if Bolivia retains the financial administration of the territory and establishes a revenue office at some point in Acre, or at Maranhao. Bolivia must limit foreign influence in Acre. In such case Brazil is disposed to reach a friendly settlement on all pending questions. It is believed that these basis will be accepted by both countries.

## MAY TRANSFER THE CHINESE

San Francisco, Aug. 30.—Information has been received here that Acting United States Attorney General Harry M. Hoyt had sent to the treasury department a decision holding that the Chinese crew, formerly on the steamer City of Peking, but afterward transferred at Koh, Japan, to the Oriental Steamship company's steamer Gaelic, can be lawfully trans-shipped on board the new Pacific mail steamer Korea, in this port. This will be done and the Korea will sail on her first trip for the Orient today.

# MARCUS L. FAY, Candidate For the Democratic Nomination For Congressman.

The above is a picture of Marcus L. Fay, candidate for the Democratic nomination for congressman from the Eighth congressional district. Mr. Fay is about 34 years old. His parents were old settlers in the state of Ohio, and Mr. Fay started out for himself when quite a young man, going into the lumber camps of Michigan, where he was employed in common labor, and gradually advanced until he became an operator in the logging business, and looked after large interests for Michigan lumbering men.

Some eighteen years ago his business brought him around the head of the lakes, and for the past ten years he has been in the lumbering and mining business in St. Louis county.

At present he is in the iron business exclusively, and in the past two or three years has opened up several new iron properties, and he is now vice president of the Pearce Mining company and is managing and operating the Laurin and Winford mines at Hibbing and is supplying the West Duluth blast furnace with ore. He has had for a number of years several hundred men in his employ and has always treated his employees fair and liberally.

Mr. Fay is a hustler, and believes that anything that is worth accomplishing can be accomplished with a "little hustling." His success in the iron business during the last four or five years has certainly demonstrated that.

He has been a Democrat all of his life, has been more or less an active worker for his party, was a warm and staunch supporter of Hon. C. A. Towne, and spent his entire time during the several Towne campaigns assisting him in the northern part of St. Louis county. He has been a student all of his life, is well posted in political economy, and although not an orator, is a ready and forcible speaker.

When the Democratic leaders were shying about for a candidate for the coming primaries, Mr. Fay was asked if he would make the run, but Mr. Fay preferred to have someone else carry the banner, and went with a number of Democratic friends to persuade Mr. Jensen to enter the congressional field, and Mr. Fay only consented to run in case Mr. Jensen, who seemed to be the last hope, would not enter the field. After Mr. Jensen would emphatically decline, and again at the urgent solicitation of a number of the leaders and friends, Mr. Fay filed his affidavit, and as he puts it, "It is a good deal like a mining proposition where you have to dig down under the surface of the ground and do not know what you are going to strike. When you commence you have to invest; in order to win out, you have to go down and take your chances. If you back out you are sure to be a loser. Now, I am in this fight on the same kind of a proposition. I am in it to stay, just to see how the thing turns out."

Mr. Fay's friends, and they are numerous all over the city and particularly in the northern part of the county, predict his receiving the nomination.

These managers have been and are doing for the provincial cities, and they are said to have exceeded all their previous efforts in the scenic equipment and playing cast they have provided for "The Tempest."

The special appearance of Louis James and Frederick Wardle in an elaborate production of "The Tempest," provided for their managers, Messrs. Waggoners and Kemper, is the attractive announcement of the Lyceum theater management for Monday, Sept. 8.

The joint appearance of Louis James and Frederick Wardle in an elaborate production of "The Tempest," provided for their managers, Messrs. Waggoners and Kemper, is the attractive announcement of the Lyceum theater management for Monday, Sept. 8.

The announcement is particularly attractive because those plays which have been associated with the great artists of bygone times cannot successfully be exploited, except by their acknowledged successors. "The Tempest," although regarded as the most faultless piece of dramatic work known in any language, would not draw an audience large enough to pay for the expense of advertising it, were it presented by a cast of unknown players, but with Mr. Wardle and Mr. James, the legitimate successors of the Booths, Barrett, Sullivan and other brilliant players now only a memory, the public is assured that the magnificent lines of the poet will be spoken as they should be, and that their ideals of the characters will not be shattered. A performance of such a play under such conditions thereby becomes an all too rare event, and the patronage is only limited as a rule by the capacity of the theater. In the present instance the names of Waggoners and Kemper, upon whom the lavish nature of the production is due, are of hardly less importance than those of the stars. What the late Augustin Daly did for the great masterpieces at his New York theater.

What the late Augustin Daly did for the great masterpieces at his New York theater.

The announcement is particularly attractive because those plays which have been associated with the great artists of bygone times cannot successfully be exploited, except by their acknowledged successors. "The Tempest," although regarded as the most faultless piece of dramatic work known in any language, would not draw an audience large enough to pay for the expense of advertising it, were it presented by a cast of unknown players, but with Mr. Wardle and Mr. James, the legitimate successors of the Booths, Barrett, Sullivan and other brilliant players now only a memory, the public is assured that the magnificent lines of the poet will be spoken as they should be, and that their ideals of the characters will not be shattered. A performance of such a play under such conditions thereby becomes an all too rare event, and the patronage is only limited as a rule by the capacity of the theater. In the present instance the names of Waggoners and Kemper, upon whom the lavish nature of the production is due, are of hardly less importance than those of the stars. ## RAILROAD RUMBLES

**Terminal Dispatch Association Is to Cover Three States.**

**Does Not Affect Lake Superior Car Service Association.**

**Heavy Movement of Soft Coal Out of City Reported.**

The Terminal Dispatch association, which does the same work in the Twin Cities that the Lake Superior Car Service association does at the head of the lakes, has determined to extend its territory of operation so as to include the entire states of Minnesota, North and South Dakota. The association, since 1888, has confined its work to a radius of fifteen miles from the Twin Cities.

This action of the Terminal Dispatch association will in no wise affect the district covered by the Lake Superior Car Service association, in fact the district of the local association has been increased so as to include four additional points, and its work will extend over the territory within a radius of thirty miles of Duluth.

The action of the Terminal Dispatch association was decided upon at a meeting held in St. Paul, Minn., at which representatives of the following lines were present:

Great Northern, Northern Pacific, Chicago, Milwaukee & St. Paul, Chicago, Burlington & Quincy, Minneapolis, St. Paul & Sault Ste. Marie, St. Paul & Duluth, Wisconsin Central, Eastern Railway of Minnesota, Superior, Duluth & Lake Superior, Duluth & Western, Rock Island.

Every road which enters the Twin Cities was represented at the conference, and it was felt that the big crop in prospect this year made such a step in prospect of the Twin City association. The association, when the new plan goes into effect Sept. 15, will control more territory than any other car association in the United States.

The organization attends to the loading and unloading of freight, and the facility with which its experience and discipline enables it to do this is of great advantage to the shippers who have to pay demurrage charges.

The Terminal Dispatch is the outgrowth of an agreement which the Twin City lines put into effect on July 1, by the terms of which a per demurrage charge was collected from shippers for all held without unloading for more than forty-eight hours. The demurrage rate was fixed at 20 cents a day for the first thirty days, and 41 cents a day thereafter for every day thereafter.

The new demurrage rates fix the charge at \$1 a day after the first forty-eight hours. The charge for freight, excepting grain, on which the demurrage will be \$2 a day.

The demurrage within the territory of the Lake Superior Car Service association differ from those in the territory of the Twin City association. The demurrage on grain cars here is \$1 a day, and on other cars \$2 for the first two days, and \$5 each day for the time following the tenth day. On the other hand, the demurrage on grain cars is \$1, \$2 and \$4 for the first five, second five and succeeding days that the cars are held. The demurrage charge rule is being strictly observed in the demurrage of grain cars. There are circumstances, however, that are said to justify the waiving of demurrage charges on cars used for other classes of freight.

**HEAVY COAL MOVEMENT.**

**Soft Coal Leaving Head of Lakes Rapidly.**

There is the heaviest movement of soft coal out of the city by rail at the present time that has been experienced this season. The movement may be said to have commenced yesterday and will last today and tomorrow.

The announcement of an advance Sept. 1 in soft coal rates is directly responsible for the present flurry in shipping. Soft coal is being shipped out as rapidly as the cars can be placed on the docks. It is understood that all the coal docks in Duluth and Superior will work all day tomorrow and tomorrow is about 1000 cars.

The soft coal movement from this city has been comparatively light, though steady, up to the present time, but the retail dealers are making a final rush to stock up before the advance in price goes into effect.

**GRANITE RATES CUT.**

**Minnesota Granite Given Better Freight Tariff.**

Official announcement has been made by the Western Traffic association of a change in the freight schedule for granite and granite products. This change will affect granite shipments from St. Cloud, Minn., especially, where they have hitherto been classified as third-class. Under the new ruling the classification to all points west of Chicago will be in the fourth class, with a consequent reduction per 100 pounds in cartload shipments. This will put the Minnesota quarries on an equal basis with the Eastern quarries to all points west of Chicago. Hitherto it has been possible to ship granite from Vermont to Chicago and other points in that section at a lower rate than from Minnesota granite quarries, points less than half the distance. The Great Northern and Northern Pacific companies made a similar change in classification of granite shipments from the Twin Cities several months ago.

**Inquiry Is Large.**

General Agent M. Adson of the South Shore road, says that the inquiry from various points in the Northwest in regard to the Buffalo and Detroit excursion over the South Shore road, and the Detroit & Cleveland steamship line is larger by far this season than in any previous year since the popular excursions were inaugurated. The South Shore road has made important concessions this year by putting excursion tickets on sale four days instead of one, Sept. 16, 17 and 18. The round trip fare to Buffalo will be \$14 and to Detroit it will be \$12. The trains will make direct connections at St. Ignace with the palatial steamers of the Detroit, Cleveland & Steamship company. The return limit has been extended this year to Oct. 12.

**Short Lines.**

The Chicago & Northwestern railway is experimenting with the use of telephones for operating trains. The block stations from Mt. Vernon to Cedar Rapids, Iowa, are to be connected and the telephone given a thorough test. If the plan is found to be desirable, this enterprising company will adopt it and install telephones at each block station, now in charge of telephone operators.

C. L. Kennedy, commercial agent for the Milwaukee road, returned yesterday from a fishing trip at Chicago bay. He was accompanied by R. J. Elliott, of Minneapolis. The local railroad officials have kept close tabs on Mr. Kennedy's activities, and yesterday, when it is found that all his stories agree on the number of fish, which was 102, the return limit has been extended this year to Oct. 12.

George L. Wescott, contracting freight agent for Milwaukee cars, left yesterday for a ten days' vacation trip. Mr. Wescott was accompanied by Mr. L. Wescott, who will visit friends in Iowa and Illinois.

**Serenade Concert.**

Tuesday evening, Sept. 3, at Pilgrim congregational church. Program arranged by Professor Lachmann and the Misses Peck. All are invited. For benefit of church. Admission 25c.

**FAST TEAM.**

**The Big Duluth Football Eleven Issues a General Challenge.**

What appears to be a very fast football team has organized under the name of the Big Duluth.

The men began practice during the week and made an excellent showing. The first to show that there is nothing slow about the new eleven the Big Duluths challenge all local teams irrespective of size, weight or previous condition of the players. The team will play about the coming season.

## Flax Trading Was Dull and the Market Unsteady.

## THE CHICAGO MARKET.

### The Trading In Grains Was Comparatively Light.

Chicago, Aug. 30.—Early trading in today was of the usual Saturday order-light business and mostly of an evening up nature for the double holiday over Sunday and Labor day. Conditions favored buying rather than selling. Cold weather still prevailed in the extreme Northwest, and showers had fallen over most of the spring harvest country dur-

[illegible]

**Paine, Webber & Co.**

September was a little flurrier in September stuff early, but timid shorts were supplied on the advance of 6c from yesterday's closing. At the finish the September was a small fraction lower than the close of the previous day, while other months showed little change. The trade was light and the early flurry due to the wet weather in the Northwest, from which the Northwest was the main source of supply.

Provisions—Packers gave the market some support and prices ranged higher except for September and October pork, which lost a fraction. Outsiders were the chief sellers. Receipts of hogs at yards were only 10,000 and prices were 5¢ higher. Subsidy.

THE PRODUCE MARKETS.		
DULUTH QUOTATIONS.		
Note.—The quotations below are for goods which change hands in lots on the ship, and are subject to the order of the consignee. The prices are for secure best goods for shipment. In order to secure best insured, an advance over jobbing prices must be charged. The figures are changed Tuesdays and Fridays.

## Danger of Serious Money Stringency Has Been Removed.

once again. And then he rattled it off in some four or five sentences; it was like listening to one doing a sum in compound addition. The awful facts and the heroic work of rescue were described—as one of the speakers afterward truly said—with the dry, sharp, prosaic terseness of the log book; finishing up with the sentence, "we lost twenty-seven out of forty-six."

and when he had said this sentence, plow down sat Capt. Freeman. The log was finished, and he could think of nothing to add to it by way of giving it more effectiveness or rounding it off. No, he sat down plump with "we lost twenty-seven men out of forty-six." It was just the inarticulate way in which a great man of action so often expresses himself."

**HOW HE SOLD A STORY.** This is the true story of two famous men, says the Brooklyn Eagle. "One of the most interesting episodes in the life of the editor of a magazine. The author is mentioned first, not the editor, because he figures first in the narrative. An author is never of more importance than his work, his reputation, and not always then. This author didn't have the reputation, and he didn't have the nerve to answer all purposes. He was trying to sell a story to the editor, but the editor wouldn't buy. Thereupon the author threw down the game of battle and began sending the magazine's messages with his own scripts. "I am taking the magazines in turn, and I will not leave any of them on one occasion. "Two editors capitulated last week and I will not leave any of them to devote to you," was another message. "You'll save yourself a lot of trouble by not trying to get rid of any of his later threats, and he followed with this cold-blooded announcement: 'I will not leave any of them after he has had to surrender, and I'll eat you yet.' "He humbled the editor that he was strong and healthy and could not be tired out; that he had eighteen stories in the magazine; that he was willing to supply; that he never did see a man who balked when it was his turn to be humbled; and he knew he could try his hand at a joke, and he sent this crushing message: "We will not leave any of them very much more than we do your stories." "This ought to have settled the author, and he would have been smiling and scribbling beneath the editor's feet. All right, I'll sell you the letters," he incensed this with another story. "The editor said, 'I will not leave you so weak, but satisfactory.' "We surrender," he said. "I'm tired," he said. "I'll type you up."

attend the exercises. As the college is a state institution, support of which is borne by every citizen of the state, every individual, said the faculty, should be interested in its welfare. The appeal did not go for naught.

At 2:30 o'clock the formal dedicatory exercises began. They were informally formal. The drafting and instrument

One day, after the robbery of the hat rack, the persistent one appeared, more persistent than ever, and finally was admitted to the great preacher's presence.

"I come to you, Mr. Beecher," he said, "in great distress of mind. I am overwhelmed with shame and remorse. My conscience will not permit me to be easy until I come to you and confess that I am the man who robbed your hat rack. Now that I have made the confession, I can say I was tempted by the pangs of

# The Alaska Central Railway

Five per cent preferred stock, par value \$50.00. THERE REMAINS but a few days in which to secure this stock at \$100.00 per share. THIS IS AN OPPORTUNITY OF A LIFE TIME. No official information has yet reached me as to the quotation on Sept. 1, but rumors have been spread to the effect that it will be advanced to \$200.00. Be this as it may, the company HAS TAKEN ITS STOCK OFF THE MARKET and there is not a single share of Alaska Central preferred for sale except in two cities, those being St. Paul and Duluth; each of these cities received a binding contract for a limited number of shares subject only to the action of the price on the main office at Seattle, the remaining stock here, therefore, cannot be recalled until the advance puts it beyond the grasp of the average man, who is the one preferred to take advantage of it. NOW About three thousand men have been contracted with for grading and laying the rails in the spring, and as railroads furnish means for interior transportation, laying the foundation and a basis upon which countries become civilized, Alaska with all its hidden wealth has heretofore been subject to ridicule by exceedingly narrow-minded individuals. An article lately published taken from the government report and also one published on the 27th of August, which mentions that the largest copper deposits in the world were recently discovered in close proximity to the southern terminal of the Alaska Central railroad, has changed the views of those who doubted the existence of anything but a country filled with glaciers and insurmountable obstacles, are now interested in this road. AN ENTERPRISE, no matter how promising, may fall in its purposes owing to mismanagement, and again a gloomy enterprise with competent officers will bring success while others fail. What James J. Hill with his Great Northern railroad has done towards the building up of our country will be repeated by the Alaska Central railroad towards the United States Alaska. One of the wealthiest and most influential men of Duluth connected with the Steel trust has a personal acquaintance with the officers and directors of this company, and I am at liberty to refer those becoming interested to him personally. Following are the

## OFFICERS AND DIRECTORS:

Substantial character of the men in the Alaska Central railway the best guarantee of its success.

**G. W. DICKINSON, Pres. and Gen'l Mgr.**  
General superintendent of the Northern Pacific railway, 1889 to 1896; general manager of the Northern Pacific railway, 1896 to 1897.

**JOHN H. M'BRAW, Vice President.**  
Governor of State of Washington, 1893 to 1897.

**J. W. GOODWIN, Treasurer.**  
President of the Alaska Fisheries Union.

**GEORGE TURNER, General Counsel.**  
United States senator from the State of Washington and mining capitalist.

**JOHN E. BALLAINE, Sec'y and Auditor.**  
Associated with the Moore Investment company since 1890.

**F. AUGUSTUS HEINZE, Director.**  
Mr. Augustus Heinze, of Butte, Mont., is the well-known copper king of that state. Next to Senator Clark he is considered the most wealthy and influential man in Montana. He is at the head of one of the greatest copper companies in the world.

**CHARLES L. DENNY, Director.**  
Heavy stockholder and director in many of the largest institutions in the State of Washington.

**CAPT. E. E. CAINE, Director.**  
President and general manager of the Pacific Clipper Steamship company.

**CHARLES E. PECK, Director.**  
For twelve years the chief locating engineer of the Burlington system west of the Missouri river.

For full information call on **C. B. ASKE, Fiscal Agent,**  
16 East Superior Street, East Phone 534.

# COULD NOT STAY AWAY

Frank Taylor's Conscience Would Not Let Him Alone.

Sense of Guilt Made Him Surrender and Plead Guilty.

Is Sentenced to State Prison on Reformatory Plan.

A conscience that grew burdensome and weighty at the thought of having done wrong is what takes Frank Taylor to the state prison.

He pleaded guilty to forgery yesterday and this morning Judge Ensign sentenced him to Stillwater on the reformatory plan. It will be remembered that Taylor gave himself up to the authorities at Wallace, Idaho, saying that he was wanted in Duluth. He endorsed another man's name on a check of \$25 and passed the same on C. W. Erickson.

Taylor, when brought to court yesterday afternoon, looked ill and asked that sentence be pronounced as soon as convenient, as he wished to begin serving it out immediately.

To the court this morning Taylor told for the first time why he gave himself up. He said that he was drunk when he committed the forgery, and from that very day had been sorry. He had gone away, but his conscience gave him no rest, and finally he gave himself up to the authorities at Wallace, Idaho, saying that he was wanted in Duluth. He endorsed another man's name on a check of \$25 and passed the same on C. W. Erickson.

To the court this morning Taylor told for the first time why he gave himself up. He said that he was drunk when he committed the forgery, and from that very day had been sorry. He had gone away, but his conscience gave him no rest, and finally he gave himself up to the authorities at Wallace, Idaho, saying that he was wanted in Duluth. He endorsed another man's name on a check of \$25 and passed the same on C. W. Erickson.

He pleaded guilty to forgery yesterday and this morning Judge Ensign sentenced him to Stillwater on the reformatory plan. It will be remembered that Taylor gave himself up to the authorities at Wallace, Idaho, saying that he was wanted in Duluth. He endorsed another man's name on a check of \$25 and passed the same on C. W. Erickson.

Taylor, when brought to court yesterday afternoon, looked ill and asked that sentence be pronounced as soon as convenient, as he wished to begin serving it out immediately.

# THE LATEST COIFFURES

Matter of Trimming the Hair Is Now One of Great Importance.

Startling Possibilities of the Tiara—Pearls Well Become Every Complexion—Pondered Hair Coming In Again.

New York, Aug. 27.—It is now fairly well settled that you must look pretty in the fashion of your hair, no matter how you do it. To accomplish this result is a matter which may well keep a woman awake nights.

Whether to dress the hair high or to dress it low, the hairdresser will tell you it is a matter of individual preference.

Women who have a very high forehead or a very long nose should not dress the hair low.

But women who are short in nose and small in mouth look very sweet with the low knot.

Those who have an oval face can wear the low knot, and the woman who dresses her hair straight back from her face should choose high dressing of the coiffure.

But it isn't so much how you dress your hair, whether high or low, as it is what you dress it with.

The matter of trimming the hair has become one of great importance, and when you know that one of the latter family imported a string of pearls, all just alike, perfectly matched in every way, long enough to drape over the forehead, you can understand the importance of dressing the hair correctly as it is viewed by the women who lead the fashions.

The woman who wants to wear the coiffure of India, as worn by Lady Curzon, can take a string of pearls a yard long. Pearl beads will answer the purpose well, but they should be small and rather creamy in tone, not showing the waxy blue which is so often noticed in the imitation pearls.

She should carry the hair back in a soft pompadour and should puff it over the ears, using a small "rat" for the purpose. Then, upon the top of the head, she should coil her beads so as to make four circles, each one a little larger than the other and each hanging over the forehead, until the lower one comes almost down to the eyebrows. That is the Curzon coiffure.

The Dolly Varden coiffure is a very pretty affair. To get the hair you must have a good face; one that can bear having the hair turned back from the forehead. Throw the hair back over the pompadour, pull a few stray locks out and curl them over a small tongs to make little corker curls to hang over the temples; then catch the hair at the crown of the head. Two or three short curls pinned on here look very

well. Now twist up a loose knot at the back, and from the knot dangle a curl that will fall over one shoulder. That makes the Dolly Varden coiffure.

There are many and many things that are worn in the hair this year, and among them is the tiara, which is made up a little higher in the front than ever, but is not quite so large. This is made in imitation of the queen's crown, and is very narrow at the sides and in the back.

Women desiring an imitation tiara can have one made from filigree silver, in which can be set tiny rhinestones, with one good diamond in the front.

A crown that is very brilliant is in gold filigree, with garnets set in front. It is rather small, with the point coming up tall, with garnets set in a large oval in the point.

Aside from the startling possibilities of the tiara, there are ornaments that are worn by society which are even more becoming and much less costly.

The ribbon rose has taken a new lease upon popularity, and waxen leaves that are now used with it. The rose has a wax stem, and leaves that resemble those used in millinery, but the rose itself is made in ribbon very cleverly twisted and folded.

The pearl-dressed coiffure is one that must not be neglected when one is trying to look one's best, for there is something about pearls that well becomes every complexion and that sets off the hair well, be it dark or light.

One way to dress the hair with pearls is to loop the strands over the forehead and around the crown of the head and to fasten a small ornament upon the lowest string, in such a way that the ornament will fall down between the eyebrows in Cleopatra fashion. This is not a trying style if managed properly, and the hair can be curled and dressed with all softness with the pearls put on afterward.

The dressing of the hair with coral strings will be seen this winter. Coral comes in pretty broken bits all strung and ready to be used in the hair. And it is certainly odd how the styles in coiffures are changing. The pompadour is "in" more than ever, and you do not wear a "rat" you must at least puff the hair.

The hair is pretty well out, and only a few still left. The only attempt at a part is seen in the military pompadour. The hair is pulled over at one side and is then draped over the forehead, so as to bring down a big puff right in the middle of the face.

Women who can find nothing better to do than to try this. If they will part the hair at one side and dress it a laignon, with modern modification, they will find they have struck something that will give them a chic appearance and a youthful one.

## DAINTY SHEER WAIST.

This waist is of light blue silk. Yoke and collar are pin tucked, blouse crossed with velvet. Insertion, straight insertion in sleeves, which are tucked round the top and cuffs.

sting after string of them. A tiny black tulle did not hide these strings of coral. Her hat had poppies upon it. This guest wore a red belt, with poppies embroidered upon it, and her feet were slipped in black, with red heels, with a buckle and a red velvet, as a rosette, upon the toe.

It seems to be the rule of an evening to set yourself up as effectively as possible, with everything matching, from head to toe, from the coral strings in your hair to the high red heels that finish your slippers. It is not easy where every hair must be curled as to the ends. A little skill is required, for there must be a classic topknot, but a mass of curls with a band of ribbon around the knot or a little band of gold or silver or pearls.

The hair is pretty well out, and only a few still left. The only attempt at a part is seen in the military pompadour. The hair is pulled over at one side and is then draped over the forehead, so as to bring down a big puff right in the middle of the face.

gowns made in that fashion the new sleeve will be accepted unconditionally and a lot of other old styles are sure to follow in its wake.

A cloth gown designed by a fashionable house in Paris shows the new sleeve model as used, but the designer evidently meant to go slow in the shoulder idea. The lower part of the sleeve is only moderately raised, and the upper part is the usual style, and yet it is set in the body like the sleeves of several seasons past, and it is easy to see the combination is not a happy one. The dropping of one sleeve necessitates the dropping of all the others to keep the proportion, with the happier result in symmetry that has always been apparent in women's clothes. The new sleeve must bring the new shoulder.

Black and white has become the badge of smartness and continues to be the rage. The most fashionably gowned women in New York have come to use it almost exclusively, and its greatest advantage is that it never looks common and cheap, no matter how it is combined nor by whom it is worn. The satin foulards are worn by the smart women at Newport and Saratoga and other gay resorts more than any one material, aside from the cotton and linen summer things. They are made into shirt-waist suits, then comfortable, unlined affairs of simple belted blouse and skirt, that answer for a dozen occasions and consider both feeling and appearance. Then the same material is used with equal success in afternoon driving or evening gowns, and from the substantial part of every fashionable woman's outfit. They make the most delicious linings for coats and bodices, and are as smart looking as they are soft and comfortable. They are particularly popular in the loose pongee coats that are so much worn.

Louis XV modes, Empire modes, 1830 modes, Japanese modes, Chinese, Egyptian, Turkish and Russian embroideries, Grecian negligees, cavalier cuffs and ruffles, wherever you will, the mélange of styles is everywhere, and there is no greater opportunity for the woman of taste to achieve sartorial triumphs.

However, just as present fashions are engrossing, and your up-to-date tailor frock, though it may have certain historic details, is the latest and always twentieth century. No belle, antique or medieval, would feel at home in her, but the modern elegance finds it chic and, according to latter-day standards of taste, looks uncommonly well in it.

The exceedingly severe English tailor-made has lost its hold upon the affections of the American woman. Once more the victory is to the French. Scarier than the English dressmaker's reticence for Waterloo, the Parisian tailor gown has a certain severity in its cut and material, but it breaks out into irrepressible little touches of frivolity that softer its aspect wonderfully.

Another gown, a trifle more of a motif of lace, a collar with buttons, and a matching gown with a matching costume dear to the Parisian heart. There is to be much lace braiding on the autumn and winter gowns, and it will be done in cord and interwoven with embroidery that will break its severity.

For example, a green gown with a blue trim finished by a New York maker is braided with a fine black and silver cord, but at the same time the braiding is tiny embroidered forget-me-nots, with their leaves of green lighter than the shade of the gown. A suggestion of forget-me-not blue name appears at the throat and in the waist.

The regulating device for these autumn gowns is a black cord braiding passing through long eyelet holes embroidered in orange.

The so-called English eyelet holes are much in favor and are to be used on many winter gowns. Cloth cut over in eyelet holes, whose edges are embroidered in contrasting color, and made up over a third color, makes most effective blouse and trimming material. The popular orange occurs in the tones of many of these eyelet hole eyelet cloths, but is perhaps more common in the black and white and small eyelets buttonhole in black.

One new model is in a very dark blue smooth-finish cloth, whose blouse and trimmings have black-rimmed eyelets over dull orange taffetas. Another eyelet cloth is shown in a brown velvet cloth, which has all its seams lined with black silk cord through black embroidery eyelets over a lining of rose silk.

Embroidered circles or dots upon plain cloth are seen in many of the new gowns in rough or figured material, and the Chinese, Russian, Turkish and Egyptian embroideries are much in demand in the most gorgeous of the autumn fashions. Little clusters of signs and methods are applied to all the season's colorings, and stunning effects are produced by the use of the Oriental embroidery are an exact fulfillment of this season's needs, and there is no doubt that they will be found in union with wood shades that is ideal for use upon browns.

On the evening gowns and to some slight extent on day gowns silver embroidery will be used, and beautiful sheer fabrics decorated with raised embroidery in silver are among the costly novelties. A black gown ornamented in a conventionalized way with design in raised silver embroidery is a new thing, and is a new thing. For the shoulder curl is a new thing, and is a new thing.

## KIDNEY TROUBLES.

Mrs. Louise M. Gibson Says That This Fatal Disease is Easily Cured by Lydia E. Pinkham's Vegetable Compound.

Of all the diseases known with which the female organism is afflicted, kidney disease is the most fatal. In fact, unless prompt and correct treatment is applied, the weary patient seldom survives.

Being fully aware of this, Mrs. Pinkham, early in her career, gave exhaustive study to the subject, and in producing her great remedy for women's ills—Lydia E. Pinkham's Vegetable Compound—was careful to see that it contained the correct combination of herbs which was sure to control that dreaded disease, woman's kidney troubles. The Vegetable Compound acts in harmony with the laws that govern the entire female system, and while there are many so called remedies for kidney troubles, Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women.

MRS. LOUISE M. GIBSON, Corresponding Secretary Woodlawn Country Club, Chicago, Ill.

"DEAR MRS. PINKHAM:—I felt very discouraged two years ago, I had suffered so long with kidney troubles and other female complications, and had taken so much medicine without relief that I began to think there was no hope for me. Life looked so good to me, but what is life without health? I wanted to be well.

"Lydia E. Pinkham's Vegetable Compound cured me and made me well, and that is why I gladly write and thank you; six bottles was all I took together with your Pills. My headache and backache and kidney trouble never, never to return; the burning sensation I had left altogether; my general health was so improved I felt as young and light and happy as at twenty.

"I am a sincere admirer of yours and feel that you must have a host of friends all over this country who feel as I do, even though they do not express it."—Mrs. Louise M. Gibson, 4813 Langley Ave., Chicago, Ill.

The troubles to which women are subject, because of their sex, are legion. Every day a woman is liable to have a new pain. Excessive worry may disturb the mental function and unsettle the nerves; over-exertion may set up some abdominal inflammation, or a trifling accident derange the whole reproductive system.

If you feel that there is anything at all unusual or puzzling about your case, or if you wish confidential advice of the most experienced, write to Mrs. Pinkham, Lynn, Mass., and you will be advised free of charge. Lydia E. Pinkham's Vegetable Compound has cured and is curing thousands of cases of female troubles—curing them inexpensively and absolutely. Remember this when you go to your druggist. Insist upon getting

Lydia E. Pinkham's Vegetable Compound.

REWARD.—We have deposited with the National City Bank of Lynn, \$5000, which will be paid to any person who can find the above testimonial letter, is not genuine, or was written by a person other than the one named.

Lydia E. Pinkham Medicine Co., Lynn, Mass.

prominent than ever on the fall tailor models. The pendent nauts and berries which were forms of this mode have reappeared.

Though suggestions of white occur in most of the new autumn fabrics, the prevailing tone is dark, and it is doubtless that the very light-hued cloths, so popular in recent seasons, will be as scarce as the dark ones. The prevailing color is a re-creating of light tints to lighter weight supple materials and the use of velvet or darker lined cloths for heavier gowns.

Fortifying New York.

It is a work fraught with great results that the war department is doing in New York harbor, says the Brooklyn Eagle. When completed it will make and strengthen the harbor of New York, and will be one of the greatest works of all great seaports. Moreover, it is a work of great importance, for the harbor of New York is the most important harbor in the world, and it is the most important harbor in the world.

The building up of many acres of new ground from the bottom of the water for a military depot is the most interesting part of the war department's work. An addition of some 100 acres is being made to the southern end of Governor's Island, already seventy acres in extent. Already the vast bulkhead of huge hushpuppy stones which marks the outer edge of the new land is showing above the water nearly three-fourths of the way around. The improvement is on the old anchorage place for ships and light craft, with the south shore of the island as the base and the two longer lines of figure curving around the water edge of the old anchorage.

The contractors who are doing the work

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period.

Sold by all druggists at \$1.00 per bottle. Book containing valuable information free.

very time he sang they started dissing him as a "chorus singer." The chorus was scorn. "The Trinker," "Robbin' Hood," wears well, even today, even though it's been over half a century since its heyday at the hands of its competitors. Even the operas of Gilbert and Sullivan seldom have such a long shelf life. But Koven's score seems perennial.

Three years ago the composer told his wife, Rosemary, that he had written for her and Harry Smith already had divided \$100,000. "Robin" still remains a favorite of hers. She has a private secretary, and its author's royalties now amount in the aggregate to at least \$100,000 a year. Koven himself has received a large income from it. Like most "Robin" hood, she yielded in the end to the temptations of Hollywood, approximating half a million dollars. The other great money earners during the "Robin" period were "The Country Fair," which took \$700,000; "The Country Fair," with \$300,000; and "Shenandoah," with \$200,000 in royalties.

[illegible]

Preparations are complete for the engagement of Wenden Grossmith, distinguished English actress, to the manager of the company of London players, who are to start on Monday, Oct. 6. Mr. Grossmith is a well-known actor, and is to play the part of the steamship St. Louis, together with his famous brother, the late, but still well-known London surgeon, Herbert Grossmith, who is known as the richest actor in the world. The new play, "The Night of the Princess," has been running at the Avenue Theatre since the 1st inst., and it is expected that nearly every evening will be sold out. The "Night of the Princess," Mr. Grossmith is to play the part of the Prince, and his brother, Herbert, will be playing the part of the Duke. The play is a comedy, and is expected to be a great success. The play is a comedy, and is expected to be a great success. The play is a comedy, and is expected to be a great success.

a boy who is first so shocked at seeing dumb, and then murdered that he is struck dumb. The same villain tries to kill his father, but he has been so deeply horrified by what he has seen of the assassinations that he is unable to do so. The plot is so complicated. One of the principal scenes is the murder of a girl, and the child is so shocked that she is unable to speak. The play is well written, and therefore it is not surprising that it has been so successful. It illustrates the crime in a very dramatic way. Shrilley, who has written many plays of this kind, is one of the authors of "Little Jim."

**FOOTLIGHT FLASHES.**  
Mrs. Thornesdyke Doucett is the latest addition to the "Horse" Jack company.  
Mary Doucett has been engaged by W. N. Lawrence to play the role of Paul Charities in "Hearts Afflame." Other rehearsals of the play are now being held.
